THEY WANT HOGS.

Pacific Meat Company Cannot Secure Enough to Run Them.

H. F. Putman says the E. O., buyer for the Pacific Meat Company, alighted from the W. & C. R. train Monday evening and made preparations immediately to go into the Wallowa country to interview the stock men.

All this should encourage farmers to raise more hogs. In Spokane, Tacoma and Portland are extensive packing establishments, and each has increased rather than diminished the capacity for handling porkers.

him go pretty fast in these slow classes, however. At Sacramento the other day he showed along at 2:15 to win one of the heats. But this was like play for Chehalis. He will not find any horses fast enough to push him hard until he gets into the free-for-all or 2:12 or 2:10 class. Chehalis is another son of the great Altamont and a full brother of Del Norte and Touchet. Frazier was offered \$5000 for him at Irvington three weeks ago by W. H. Simpson of Los Angeles. He refused the proffer, and said he would not sell him for \$7000. Chehalis is certainly a great horse—as true and honest as steel."

Estimate of the Yield.

Col. J. H. Raley and D. A. Fatulo have returned from a tour of Unmilla county, on which they give very close attention to the condition of the crops. They have carefully estimated the amount of grain in the fields, and on the basis of last year's crop, in their opinion, the yield will be between one-fourth and one-third. The spring grain is not going to cut much figure in the amount to be harvested, and to a large extent, is an absolute failure. There is quite a large amount of good fall sown wheat which will yield up to the accustomed standard of production. There will be considerable shrunken wheat and the average grade will be low.

The estimate of these two gentlemen is based on accurate knowledge of all parts of the county prior to their visit, and their tour has given them such further information as makes their opinion of greatest value.—East Oregonian.

To Be a Bride.

A Chinese maiden came in on the branch last night and went to Portland to be married, says the Tribune. She was born in Walla Walla 24 years ago, and her name is Gee. Another Chinese woman and her brother, accompanied her. Her intended husband is a converted Chinaman, who preaches the Baptist faith to his countrymen in Portland. Considerable curiosity was excited by her strange costume which was bright red, trimmed with gold tinsel, and completely enveloped her so that she could not see even to walk about, but was guided by her companions.

Dr. Price's Cream Baking Powder

World's Fair Highest Medal and Diplomas.

P. Kelly, or "Grandpa" Kelly, as he is known to Athena people, made the Press office a pleasant call Wednesday morning of this week. He presented to the force some of the finest specimens of peach plum and apricots that we have seen on the Pacific Coast. The plums were of delicious flavor, but the apricots were without doubt, the largest ever seen in this county. They were as large as peaches, and unlike those that are irrigated, were juicy and mellow. The largest specimen measures 6 1/2 inches in circumference, and is on exhibition at this office.

Those who buy fruit to put up need not pay unnecessary commission to peddlers. Samples of Athena grown plums, apricots, etc., are on exhibition at the Press office, that are far superior to the crushed and mangled article that is hauled over the rough and dusty road from the Walla Walla valley. Mrs. Reed-er north of the city has the very finest variety of peach plums for sale at 1 cent per pound.

Jimmy Carden's driving horse took a notion that he wanted to see the interior of the post office yesterday and no doubt would have went in if Jimmy with the assistance of others, had not persuaded the equine that it was not just the proper thing for horses to call for mail.

"Mamma, was that a sugar-plum you just gave me?" asked little Mabel. "No, dear, it was one of Dr. Ayer's Pills. "Please, may I have another?" "Not now, dear; one of those nice pills is all you need at present, because every dose is effective."

Tribune: Tavern Beale, who is spending the summer in Fly valley, Union county, celebrated his 79th birthday yesterday in Pendleton with his son Charles. Mr. Beale is still hale and hearty, and is quite active for one who carries the burden of so many seasons.

What causes bad dreams is a question that has never been satisfactorily answered; but, in nine cases out of ten, frightful dreams are the result of imperfect digestion, which a few doses of Ayer's Sarsaparilla will effectually remedy. Don't delay—try it to-day.

There will be no preaching at the Christian church Sunday at 11 o'clock. In the evening there will be the regular services.

Besse Watts and Beth Bradley visited in Pendleton with Mrs. Wm. McBride, mother of the former and attended the circus.

When in Pendleton stop at the Golden Rule Hotel. The best of rooms and elegant fare. Free bus to and from all trains.

None But Ayer's at the World's Fair. Ayer's Sarsaparilla enjoys extraordinary distinction of having been the only blood purifier allowed an exhibit at the World's fair, Chicago. Manufacturers of other sarsaparillas sought by every means to obtain a showing of their goods, but they were all turned away under the application of the rule and forbidden the entry of patent medicines and nostrums. The decision of the World's fair authorities in favor of Ayer's Sarsaparilla was in effect as follows: "Ayer's Sarsaparilla is not a patent medicine. It does not belong to the list of nostrums. It is here on its merits."

Overdose of Morphine.

Ada Myers, a young abandoned woman of Baker City died Saturday morning from an overdose of morphine. While she was ill and suffering intense pain George Edgar administered the drug by giving her two hypodermic injections, either of which would, no doubt, have caused death. The woman soon relapsed into unconsciousness and never rallied. Edgar was placed under arrest.

Eastern Oregon Crops.

Heading has commenced with vigor in all the Columbia river counties. Crops of fall-sown grain is turning out better than the expectations. This condition is especially evident on low ground. Barley sown in the fall is a good crop, though the yield will be below the average. There is a smaller acreage of barley. Spring sown grain crops are still suffering. Warm, dry weather has made a failure of them as a rule. The crops in Wasco and Sherman are very good, approaching near to the

average. Recently great numbers of grasshoppers have come over into Wasco and Sherman from the adjacent counties on the east, and they have done much damage to crops in general, though all crops are advanced. The oat crop seems to have suffered the most.

On low land, where the oats are green the grasshoppers have cut off the stalk as well as the blade. The average yield of fall-sown grain will also be reached in the Walla Walla valley, but the spring-sown has suffered in that section. Wasco and Sherman counties and in Walla Walla valley will produce a good quality of fall-sown grain. In the other Columbia valley counties the berry will be small, and in some sections the grain will be shriveled. Only grain on low ground will produce a good quality. In sections of Union and Baker counties some spring grain had been cut for hay, since the warm weather dispelled the hope that it would still fill and become a fair crop. A conservative estimate of the grain crop south and east of the Blue mountains is two-thirds of an average. A very good quality will be produced in Malheur, Klamath and Harney from the irrigated lands. Grasshoppers are still doing destructive work. Early frosts damaged more grain than the drought in the elevated sections. There is an abundance of fruit, and the fruit shipments are very large. Peaches, plums, and early apples are of the finest quality. Fall apples will be abundant. Potatoes are still green though if the warm, dry weather continues the potatoes will be small and the yield light. Haying continues with generally light yields. The spring wheat and oats which have been cut for hay, together with the old hay left over from last season, will improve the prospects for the winter. There are some very good fields of alfalfa. All ranges are suffering for rain. There is not grass sufficient on the range to supply the needs of the stock. A rain even at this late date would benefit many crops and improve the range grass.

For Sale. One of the best residences in town. Will sell cheap or trade for cattle. For particulars apply at this office.
