[From the Pilot Rock Record.]

Mark Sturtevant has brought the A. J. Sturtevant band of cattle out of the mountains for the winter.

Mr. and Mrs. Wm. Johnson and daughter Carrie left Wednesday for a brief visit to Mrs. Johnson's sister at Weston.

There are at present 62 scholars in the public school. There is nothing remarkable about this, but it is rather a remarkable coincidence that there should be just 31 boys and 31 girls and marriage a failure.

Rev. D. E. George and family arrived last Friday from Milton and are now comfortably domiciled in the parsonage, where they invite everybody to call and get acquainted.

Pilot Rock does not propose to be behind the times in any particular. A short time ago the E. O. chronicled the fact that an opossum which would make the colored man's mouth water was killed near Pendleton. This week Oscar DeVaul killed a racoon down in Sturtevant's field, which, when dressed, reminded one of a miniature two-year old beef. The coon is relished by the gentleman of African descent fully as much as the 'possum.

[From the Pendleton Tribune]

Some of our ranchers are buying straw for winter feed, not having raised sufficient feed for their stock for the coming winter.

At the first annual meeting of the subscribers to the stock of the Pendleton Woolen Mills, held in the office of the scouring mills Saturday afternoon the following board of directors was elected: E. Y. Judd, T. E. Fell, E. D. Boyd, W D. Hansford and F. E. Judd.

A report was received from Pilot Rock to the effect that a young school teacher there tried to commit suicide on Friday morning by doubling a tape line around her neck and pulling it until she turned black in the face. A man appeared on the scene in time to save her life.

[From the Milton Eagle.]

Mrs. Dr. Stiles, of Weston, has been spending the week with Milton friends.

Miss Maude Waid and Mrs. Bennett, two ladies of this city, have charge of the laundry department at the Umatilla agency.

Married, in this city on Sunday, October 20, 1895, at the office of the Justice of the Peace, Edwin S. Stowe, Mr. Delbert Hughes to Miss Mary E. Leedy.

Wm. Anderson the Adams gentleman who bought the Frank Nichols place, is over this week making extensive repairs preparatory to moving over his family.

An Eagle compositor, who has been enjoying a week's vacation on Eureka Flat, reports that geese have lately been coming in there in large numbers and that many of the birds are being bagged by sportsmen.

Chris Majer was thrown from his buggy and severely injured Saturwhile on his way to Cottonwood from Walla Walla. He suffered the fracture of two ribs and severe bruises about the chest and head.

Dan McEachren and wife returned home from Medical Lake, where they have been spending the summer, last Saturday evening, and Dan has been busy every since shaking hands and greeting old friends who one and all are glad to see him once more with us.

[From the Milton Miltonian.

G. W. Hansell, Athena's genial deputy postmaster, came over Wednesday for a supply of fruit.

E. S. Summerville had the misfortune to have one of his legs seriously sprained by a horse falling with him while out riding near Pendleton last week.

Elder Daisley's lectures at the Christian church are attracting large audiences. Last Sunday evening standing room could not be secured by many.

George Ireland traded for a span of mild-eyed donkeys this week. Just what George is going to do with them he does not know, but he thinks likely he can secure a situation as editor-in-chief of the Eagle for the more intelligent one.

[From the East Oregonian.]

A special meeting of the Commercial Association was held Friday evening, to consider the proposition which Messrs. Dunphey & Burns had to make regarding the establishment of a plant to manufacture water moters and concentrators.

Friends of Mrs. J. P. Wager have received announcements of her wedding to Mr. Arthur C. Woodward at Geneva, Ontario county, New York. Mr. and Mrs. Woodward will reside in Watkins, New York. The wedding occurred on October 3.

Thanksgiving night, November 28, The Pendleton Lodge, B. P. O. E., will entertain. Preparations are now being made for an elaborate affair, and the various committees appointed will see that nothing in the way of endeavor is lacking to render this social session the most enjoyable yet given.

Coyotes will eat watermelons, a fact of which but few persons are aware. Recently, the man of the Bailey Ditch company's farm near Umatilla put poison in the watermelons and the coyotes no longer howl of nights down around that ranch. The coyotes will bite off the end of a melon, and eat out the entire contents, leaving only the rind. By putting poison inside a melon, the night prowler eats his way into the melon and death.

Miss Woodruff has returned from visiting schools. She found the schools in Umatilla, Echo and Nolin in a fairly prosperous condition. At Echo the room is crowded, causing an extra amount of work for one teacher. Miss Morgan at Nolin is doing the best work that has been done for several years. She also has the largest attendance of which Nolin could boast for five years.

DON'T LIKE CITIZENSHIP.

A Memorial to be Presented to Congress By the Indians.

Young Chief, Charlie Chapless [better known as Charlie Whirlwind] and other Indians of influence on the reservation, don't like the degrading customs that are entailed by the modes of civilization. They are planning for one of the biggest pow-wows in the history of the three nations who inhabit the hills of the Umatilla reservation, which is to take place in a short time. At this great pow-wow the whys and wherefores will be entered into detail, and congress in a lengthy memorial will be informed that citizenship has demoralized the Indians; that citizenship privileges him to fill up on firewater to his heart's content, and that he is brought to shame and degradation by ending up in the "skookum house." and then consigned to the chain gang, which is far beneath the dignity of the royal siwash.

No doubt the big meeting of the red men will be one of great interest and considerable eloquence, for there are other chiefs and braves who have many followers, who, be it said to their credit are stoutly in favor of citizenship and whiskey. Among those who will stand up in the council and defend citizenship and the paleface customs, are two chiefs of high rank and who carry themselves in the light of "big Injun" among their red brethern. A merry time is expected.

How to Prevent Croup.

Some reading that will prove intresting to you mothers. How to guard against the disease.

Croup is a terror to young mothers and to post them concerning the case, first symptoms and treatment is the object of this item. The origin of croup is a common cold. Children who are subject to it take cold very easily and croup is almost sure to follow. The first symptoms is hoarsness; this is soon followed by a peculiar rough cough which is easily recognized and will never be forgotten by one who has heard it. The time to act is when the child first becomes hoarse. If Chamberlain's Cough Remedy is freely given all tendency to croup will soon disappear. Even after the croupy cough has developed it will prevent the attack. There is no danger in giving this remedy for it contains nothing injurious. For sale by P. M. Kirkland, Pioneer Drug Store.

Another Change Talked of.

A change in time is talked of on the O. R. & N., which would make a radical difference in the train schedules. It is not officially spoken of. but it is understood the U. P. is figuring on reducing the running time by eight or ten hours. This arrangement, if effected, would also change the Spokane train, probably making it a night run, and giving the Great Northern at Spokane a better connection with the O. R. & N. would put on day local trains from Pendleton to Dayton or some other point up the Washington division. At present it is all speculation, and no official information can be obtained on the subject.

Indians Returning.

Umatilla Indians have been returning to Umatilla county from Wallowa county in considerable numbers for several days past, with their packhorses heavily laden with salmon, which they had caught in the streams of that county.

Pendleton Machine Shops.

Pendleton is about to have a foundry and machine shop. Two gentleman are negotiating for the old plant there, and should they get it, water moters and stamp mills will be manufactured.

Gamblers Indicted.

Gamblers were indicted by the wholesale by the late grand jury. Forty indictments were made. The most of the gamblers who were fined were from Milton, Echo and Pendleton.

MINING IN ATHENA.

A Lady Asks for Information and Gets It.

There is a lady in this city who is interested in the Trail creek country and is trying hard to learn and understand mining phrases. Her husband is doing his best to teach, her as will be allowed by the following.

The other night when he returned home, as he sat on three chairs and peeled off his boots for the evening, she said: "My dear, I wish you would tell me how they get gold and silver out of a mine. I thought they bored into the ground with a pay streak till they struck the shaft, and then they drifted for the——"

"No, I must stop you there; you are getting a little off the proposition; you probably have the right idea, but you are using terms that are not quite correct. When they get the wall of rock on the dump, then they pick the night shift, salt the contact and blast out the vertical line, then they drift for the blossom rock, baled hay and poverty till they strike the varicose vein, which is a good proposition. After that it's a short job to put on the bias fold and sample their stockholders, where bituminous duplex bisects the brocaded porphyry and scallops the gouge with crosseyed shearings of bi-carbonate and bilious colic, interlaced with antique quads of free copper and free milling erysipelas. This is not always a good proposition, however, for indirectly, or reversely, perhaps more or less, as the case might be, and still we might not. according to whether we did or did not, perhaps if not as already described, we wouldn't be positive about anything that might be doubtful," and he laughed a cold laugh and went to bed.

Causes Glands of the Neck to Swell Up

This Trouble and a Case of Rheumatism Cured by Hood's.

"C. I. Hood & Co., Lowell, Mass.:

"Dear Sirs: A little over a year ago I had a swelling come on the side of my neck. I was in very poor health generally and doctored two months with the family physician who said my complaint was a bilious attack. His treatment failed to help me so I determined to try Hood's Sarsaparilla. To my great joy, the swelling on the side of my neck disappeared. I was benefited for my other ailments. After taking three bottles of the medicine, I have not had a sick day since. I for one, recommend Hood's Sarsaparilla to the afflicted, knowing what it has done for me in the past. My husband was afflicted with rheumatism and had that tired feeling. He took Hood's Sarsaparilla and found it

The thumb is an unfailing index of character. The Square Type indicates a strong will, great energy and firmness. Closely allied is the Spatulated Type, the thumb of those of advanced ideas and business ability. Both of these types belong to the busy man or woman; and Demorest's Family Magazine prepares especially for such persons a whole volume of new ideas, condensed in a small space, so that the record of the whole world's work for a month may be read in half an hour. The Conical Type indicates refinement, culture, and a love of music, poetry, and fiction. A person with this type of thumb will thoroughly enjoy the literary attractions of Demorest's Magazine. The Artistic Type indicates a love of beauty and art, which will find rare pleasure in the magnificent oil-picture of roses, 16½ x 24 inches, reproduced from the original painting by De Longpré, the most celebrated of living flower-painters, which will be given to every subscriber to Demorest's Magazine for 1896. The cost of this superb work of art was $350.00; and the reproduction cannot be distinguished from the original. Besides this, an exquisite oil or water-color picture is published in each number of the Magazine, and the articles are so profusely and superbly illustrated that the Magazine is, in reality, a portfolio of art works of the highest order. The Philosophic Type is the thumb of the thinker and inventor of ideas, who will be deeply interested in those developed monthly in Demorest's Magazine, in every one of its numerous departments, which cover the entire artistic and scientific field, chronicling every fact, fancy, and fad of the day. Demorest's is simply a perfect Family Magazine, and was long ago crowned Queen of the Monthlies. Send in your subscription; it will cost only $2.00, and you will have a dozen Magazines in one. Address W. JENNINGS DEMOREST, Publisher, 15 East 14th Street, New York. Though not a fashion magazine, its perfect fashion plates, and its articles on family and domestic matters, will be of superlative interest to those possessing the Feminine Type of Thumb, which indicates in its small size, slenderness, soft nail, and smooth, rounded tip, those traits which belong essentially to the gentler sex, every one of whom should subscribe to Demorest's Magazine. If you are unacquainted with its merits, send for a specimen copy (free), and you will admit that seeing these THUMBS has put you in the way of saving money by finding in one Magazine everything to satisfy the literary wants of the whole family.
