CHIEF NO SHIRT RETURNED. Certificate of Election of Chief No Shirt Estes. On April 6th occurred the election of the chieftainship of the domain which lies across the creek, south of Athena. The contending forces of Chief Coppock and ex-Chief No Shirt Estes were numerously represented at the polls. It is alleged that much wire pulling and underhanded manipulating was carried on by the No Shirt faction. Whisky is said to have flowed freely and taken in conjunction with the intimidating influence of the scalping knife was a very potent and favorable factor at the polls for the No Shirt gang. On the other hand, it is asserted to be said to the credit of the Coppock contingent—that the only misdemeanor they were guilty of was "scopswallowing" a barrel of No Shirt's Bourbon, after which the head was broken in, and they became so exhilarated that they carried by the wayside, and many failed to get to the polls at all. It is authentically stated to the reporter that the barrel of whisky was simply a trap set by the No Shirt men; that it was secreted in a place easy of access, and that the Coppock forces readily fell into the trap, with the result that ex-Chief No Shirt was returned to his official power with a heavy majority. The following is the certificate of election issued to Chief No Shirt by clerk of election Eat-No-Meat: SQUAWTHERIA PRECINCT, April 6, '96 Hon. No Shirt, Chief of all Indians, both Squaws and Bucks: DEAR SIR: This is to certify that you are elected chief of all Indian tribes for the term of four years, showing majority over all of 27,497. You will assume the office of chief at once and you are authorized to use such means to gain possession as in your judgment seems best. You have authority to kill any half-breed, Scotchman or Irishman on your reserve that disputes your authority. (Signed) LONG HAIR, PEO, YOUNG CHIEF, Judges.

Gill & Co., Portland, disappeared in Grant county. Word comes from Canyon City that on Wednesday last the burned and charred remains of a man had been found about eight miles from Lzee, Grant county, and are supposed to be those of the missing George A. Scott. The supposition is that the dead man had been murdered and then burned to frustrate any clue to the crime or the perpetrators. The cart, harness, books and everything the man had with him had been burned. Changed to Bingham Springs Station. The new time card of the O. R. & N. Co. changes the name of Gibbon to Bingham Springs. This change was desirable, as Gibbon was merely the getting off place for visitors going to this famous mountain resort. The engineering department are at present engaged in drawing plans for a new station building, which will be completed by June 1. It will be on the plan of suburban stations outside of Chicago and visitors going to Bingham Springs this summer will appreciate the comfortable waiting and toilet rooms, which the new building will contain. His family will move to Pendleton in a short time. Prof. Sharp is recognized as one of the most skillful musicians in Eastern Oregon and will place the Pendleton band in the front rank. His removal from Athena is deeply regretted by the citizens there, and equally a sound source of pleasure to the people of this city. The Pendleton band will be all right from this time on.—East Oregonian. He Was "Jagged" and "Jugged." Dr. C. T. Millikin, who claimed to be a dentist employed in Pendleton, arrived in Athena Saturday and immediately proceeded to get comfortably drunk. He succeeded admirably. ATTEMPTING TO KILL.

Charge Made Against a Lad of Twelve. A short time ago the Press contained an account of attempts made on the lives of the Smith family of Lane county, by administration of poison. It is now thought the persecutor has been found, as the following dispatch from Eugene shows: "Oral Poindexter, a lad of 12 years old, was arrested at his home, four miles north of Coburg, this morning and was brought to this city this afternoon on a charge of attempting to kill the family of Mrs. Hiram Smith, a widow lady, who lives on a farm adjoining that of the Poindexters. For some time past the Smith family have felt that they were the victims of persecution, and repeated attempts to poison the entire family by scattering poison about the dishes and eatables have been thwarted. When the family would be away some mysterious person would visit the house and leave the poison, but it seemed almost impossible to detect any one. S. O. Garrison, a neighbor, was appointed a special officer to ferret the matter out. He obtained his first clue last Saturday. Mrs. Smith was away from home, but one of the little girls was left to keep watch. She saw the boy come with a vial and pour something into the pump. The next day she was working about the chicken-house and was struck over the back of the head by the same boy with a club, and was left unconscious. Other evidence was secured against the boy, until sufficient was had to warrant arrest. He is now held under \$500 bonds. It is supposed this is the result of some old feud between the families."

UNEARTHED A SKELETON.

Remains of a Supposed Indian War Victim Dug Up. News has been received in this city of the finding by Hugh Arbuckle of the skeleton remains of a hum in being in an alkali lick on the Middle fork of the John Day near the mouth of Granite creek, says the Long Creek Eagle. While looking after some stock, Mr. Arbuckle was attracted to the lick by a peculiar formation caused by the incessant licking of the animals and the action, of the elements for years past. What appeared to be a knee joint protruding above the surface led Arbuckle to vigorous efforts and with the aid of a pick and shovel what proved to be the remains of a white man were soon unearthed. Notwithstanding the fact that they must have lain for many years in this alkali formation the bones were all well preserved. Many theories are advanced as to the possible identity of the remains, the most likely of which is that it is a victim of the Indian outbreak of 1873, but as the "lick" has been visited by stockmen occasionally for twenty years, some are inclined to believe that the ghastly inhabitant may have reposed in his natural tomb from the earliest settlement of Grant county. Summer Bodices and Blouses. "Fashionable dressmakers are now making the English distinction between the blouse (which we usually call the shirt-waist) and the bodice," writes Isabel A. Mallon in April Ladies' Home Journal. "Both are supposed to be worn with skirts that differ from them in color and material, but the blouse is full, is draped, has a tucked or fancy front, with stiff collar and cuffs, and always suggests a rather undress get-up. The bodice fits the figure, and though it may be made of cotton, silk or velvet, it must never suggest, by its trimming or style of collar, the tailor-made or shirt effect. Unlike the blouse it is very often sufficiently elaborate to be worn with the richest skirt, and the trimming upon it may be ribbons, spangles, laces, feather or fur pipings, and all the very open embroidery that imitates Irish crochet. However, it is the blouse that will be given the greatest popularity during the coming season."
