Rev. R. B. Swift intends holding the last quarterly meeting for the present conference year to be held at the Mountain Valley chapel, Sunday the 14th of this month, with the intention of carry-

ing the meeting on for a few days. Since the G. O. P. has got full sway again we shall expect to see the county indebtedness reduced at least one-half in the next two years, and taxes reduced no less than 4 mills. If they will do this

the people have made no great mistake in electing them, but if the do not, then the officers will not have done their full duty. But then this is a free country and people have a right to vote for whom they please, and since most of the officers in this county for the next term, have served during the past two years, they have certainly given good satisfaction or they would not have been re elected. So team; farmer, Milton. Mrs. J. A. Gulliford, born in Illinois in 1845, emigrated from Illinois in 1852, by ox team; housekeeper, Milton.

PIONEERS Those Who Registered at the President Isaac Lewis of Sabina, Ohio is highly respected all through that section. He has lived in Clinton Co. 75 years, and has been president of

the Sabina Bank 20 years. He gladly testifies to the merit of Hood's Sarsa-AWAY parilla, and what he says is worthy attention. All brain workers find Hood's Sarsaparilla peculiarly adapted to their needs. It makes pure, rich, red blood, and from this comes nerve, mental, bodily and digestive strength. "I am glad to say that Hood's Sarsaparilla is a very good medicine, especially

as a blood purifier. It has done me good many times. For several years I suffered greatly with pains of

A Bicycle constructed of material that is solid, tough and wiry; that is simple in construction, easily taken apart and put together again has few parts, is of such wiry material that its parts will hold together even in an accident, no hollow material to be crushed in by every contact; a frame that cannot possibly be broken; a frame so simple that its adjusting parts serve as its connecting parts; a one-piece crank in place of a dozen parts; always ready to give reliable and rapid transportation.

SPECIFICATIONS AND DESCRIPTIONS.

FRAME.-Improved Double Diamond. What is a Double Diamond Frame? Simply a true truss in every direction for strains that occur in Cycles-the outline of two diamonds in its makeup. The frames are constructed of #-inch cold rolled steel rods, the toughest and strongest metal for its weight known, and the parts are joined together with steel and aluminum bronze fittings in such a manner that it is impossible to brake or any part to work loose. A marvel of novelty, simplicity and durability, the greatest combination of ingenuity in bicycle mechanism,—to build a frame without brazen joints and tubing, as you know that frames continually break and fracture at brazen joints and tubes when they are buckled in cannot be repaired. We guarantee our Double Diamond Frame for three years. You cannot break it. Standard size steering head and wheel base, ball bearings at both ends of head.

WHEELS .- 28-inch front and rear, warranted one-piece wood rims, best quality piano wire spokes and brass nipples, large barrel hubs fitted with "Arlington" hose pipe, Morgan & Wright "quick repair," or some other first-class pneumatic tire.

AXLE AND BEARINGS .- Indestructible ball bearings through out, with 148 hardened steel balls. Crank shaft bearings are fitted with our patent ball cases, which are interlocked and support each other and cannot possibly come apart while in use. Are neat and cover the bearings completely. It has been an acknowledged fact that crank axle bearings are susceptible of improvement, as threaded cones or crank axles are continually crowding or working loose. We save this entire nuis-ance by having no threaded parts whatever, but a clever device in frame for adjustment, Our invention is most perfect in simplicity and must be seen to be appreciated. The sprocket and chain are on the inside of the frame and ball bearings. Great value is gained by this arrangement; ease of running, double wear saved, positive never loose bearings, freedom from contact with chain and sprocket, smooth outward globular ball bearings, less friction and lost motion, hence greater speed. Then with the jointless "one-piece crank," feet, ankles and trousers are free from injury

ONE-PIECE CRANK .- Our great achievement; by its application we put two cranks, two pedal axles, two keys, six screws, six nut and four washers all in one piece. From 50 to 100 per cent. of all the trouble to bicycles is from cranks working loose and pedal axles that break from clamping connections. They get loose no matter how much pains is taken to key and tighten them. This is caused by too many parts, and it is entirely saved by our device, which is but one piece, and made from tough rolled steel rods, impossible to break. It has been proven that when other cranks. break from accident, our one-piece crank will hardly bend. CHAIN.—Humber block pattern, best quality, hardened. SPROCKET WHEELS.—Best drop forged steel. REACH.-Shortest, 28 inches; longest, 37 inches. GEAR .- 64 or 72, as specified. FRONT FORKS .- Indestructible. Our fork crowns are simply section of gun barrel steel turned up to size, then bored and bent, forming a perfect fork crown that cannot be surpassed for strength and beauty, also giving a support to our solid cold rolled fork rods that just limit the necessary amount of springiness required in a front fork and which can only be obtained by use of our forks and crown. HANDLE BARS .- Reversible and adjustable, a marvel of simplicity, readily adjusted to any position desired, with best cork or composition handles. In buying a bicycle it is always a vexed question as to whether you want dropped or elevated handle bars. If you wanted one kind you could not have the other. Our handle bar enables you to have either at will. Will furnish Ram's Horn handle bars if preferred. SADDLES.-Gilliam, P. & F., Reading, or other first-class make. PEDALS .- Rat trap or rubber; full ball bearing. FINISH .- All parts are enameled with our own special enamel, rubbed down and baked, giving it a handsome black, glossy appearance. All bright parts are heavily nickle plated; these, with the jet black gloss parts, give a handsome appearance which cannot be excelled. ACCESSORIES .- Each "Maywood" Bicycle is furnished with a leather tool bag, containing pump, wrench and patent oiler. WEIGHT .- According to tires, pedals, saddles, from 27 to 30 lbs.

The Weston baseball team has received a challenge from Pendleton to play ball with a picked team on Sunday, either at Pendleton or Weston. As some of the Weston boys are averse to playing on sunday, it is probable that a game canuot be arranged for that day. However, an effort will be made to match the two leame.

Local politicians are puzzling their brains over the peculiar action of two populist voters in East Weston precinct. two ballots came out with Northup at he head, and the remainder populis traight. The idea of a people's party nan voting for an independent gold shandard candidate is a problem for the vise men of the age to solve.

[MILTON MAGLE.]

There are now plenty of strawberries in the market. Prices at opening of the ieason were \$2.50 and \$3.00 per crate. Cottonwood is the banner hard money precinct in this county. Nothing but

rold will satisfy those people and their vote for Northup shows it. The Eagle family are once more out of

quarantine, for the microbes have taken light or else met with destruction in the general war waged against them with sulphur furnes and carbolic acid. Preparations for Milton's Fourth of

July celebration are now well under way. Invitation to all the Knights of Pythias lodges in this vicinity will be issued and it is expected a large number of people from outside town will be here to spend the day.

Garred Vliet, sged 76 years and 9 months, passed away at his home below town Tuesday, June 2, 1896, with Bright's disease. Mr. Vliet came to this city three years ago from Garfield county, Washington, and has since resided on a small farm below Freewater with his

aged wife. "The outlook is not very promising for eays Horticultural Commissioner fruit," G. A. Hobbs of this city. "The warm March weather forced the development of the fruit and it was injured by frosts to such an extent that prunes will be a total failure in many orchards. Cherries are hurt to a great extent. Apricols and peaches are a total failure in a commercial sense. Pears are badly injured but apples promise a good crop of nearly all varietics except white winter pearmaine, which are all killed. Strawberries have been injured in some localities, and some new fields a very fine crop. Blackberries never looked better."

A stabbing affray came near resulting in the death of one of W. H. Fletcher's saw-mill hands, took place on the mountains at the polling place. No de-tailed reports of the affair can be ob-tained and aven the near of nation between tained and even the names of participants seem to be in some doubt, probably through fears of arrest. The man that did the cutting was a boy and his subject was much older and both were intoxi-cated. It is said the man attempted to chastise the boy when the latter drew a knife and stabbed his tormentor in the neck, dangerously near the jugular vein. Dr. Thomas went up and dressed the wound. He found the patient very weak from loss of blood, but he rapidly recovered when the blood was staunched and is now entirely out of danger.

The committee which was appointed Friday evening to make arrangements for the celebration of the Fourth of July in Pendleton, are endeavoring to persuade the Indian chiefs Young chief, Peo, No Shirt and Cash Cash to postpone their celebration until Sunday, July 5. In order to induce them to do so, the committee asks the Incians to come to town on the Fourth, and offers to give prizes for the best dressed and equipped Indian man and woman, also prizes in any Indian contests that may be arranged for. Several of the chiefs were seen in town yesterday but they declined to commit themselves individually until they had all discussed the proposition together. The Pendleton people promised to go to the reservation in crowds on Sun-day if the Indians will come to town on Saturday.

Cornerstone Laid.

On Sunday alternoon at St. Joseph'a academy, Pendleton, Archbishop Gross, assisted by Rev. J. M. Viola, S. J., and Rev. Thos. Neate, S. J., conducted solemn ceremonies in the laying of the corner-stone of the addition which the Sisters of St. Francis are now constructing. He was arrayed in the robes denoting his rank and the service was picturesque and imposing. It was witnessed by a large number of peaple, who listened to an open air address by his grace, the arch-bishop. At the church, the rite of confirmation was administered by the archbishop to a class of young people.
