United States Deputy Marshal Bentley brought from Umatilla, on Saturday last, the Chinaman named Tie Yee who, until very recently, lived in Pendleton, having arrested him for failing to comply with the Chinese registration law. Tie Yee was arraigned before United States Commissioner Butler yesterday morning, when he was turned over to the United States officer with instructions that he be taken before Judge Bellinger, in Portland. The commissioner decided that there was sufficient evidence against Tie Yee, but he has no jurisdiction to issue an order of deportation. This must come out of a court of record.

The site was visited by Mr. Painter and Mrs. Ellen Page of this city, who is a daughter of Joseph Gale, during the pioneer expedition, and was relic secured. The mill stood five miles west from Forest Grove at the foot of Gale's Peak.

Mr. Painter stated that he would present the relic to Whitman College.

The Scientific American. The Scientific American, of New York, has signalled its 50th anniversary by the publication of a very handsome 72 page special number, which consists of a review of the development of science and the industrial arts in the United States during the past 50 years. It was an ambitious undertaking, and the work has been well done. The many articles are thoroughly technical, and they are written in a easy and popular style, which makes the whole volume—it is nothing less, being equal to a book of 442 ordinary pages—thoroughly readable. It is enclosed for preservation in a handsome cover, and is sold at the price of ten cents.

It Was Suicide. J. W. Lawrence, who was found near Telocast, Union county, with a bullet hole through his head last Monday, was taken to Union, where he died early Tuesday morning. Death was caused by a shot from a bulldog revolver down through the top of the head. It is undoubtedly a case of suicide, and despondency is assigned as the cause.

The deceased was 24 years of age and a miner by occupation. His father lives three miles north of Union, and he has no other relatives in this country. He was a member of the Knights of the Macabees, and the funeral was conducted by that order Tuesday afternoon at 4 o'clock.

More Good Reports. B. M. Powers, of Weston, is in the city today. He says that so far as he has seen and from all that he can hear, the farmers, without exception, are happily disappointed in the results of the harvest as far as it has progressed. The yield is very much better than they expected, and the quality will not fall much below the average. As these kinds of reports are coming in from all directions, it seems to be safe to presume that farmers are going to find themselves in much better circumstances at the end of the harvest than they had expected. This is certainly very good news.

Foot Cut Off. Out near the agency Tuesday morning Billy Craig, an Indian, probably intoxicated at the time, laid down on the railroad track and went to sleep. She then sent to me to see if I had anything that would help her. I sent her a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and the first dose relieved her. Another of our neighbors has been sick for about a week and had tried different remedies for diarrhoea but kept getting worse. I sent him this same remedy. Only four doses of it were required to cure him. He says he owes his recovery to this wonderful remedy.—Mrs. Mary Sibley, Sibley, Mich. For sale by Osburn.
