Connecticut, Florida, Iowa, Maine, Maryland, Michigan, Ohio, Rhode Island, Texas, Vermont, Tennessee and Virginia.

The committee was also advised that in the following states steps are being taken which will result in the naming of ommitteemen:

Colorado, Montana, North Dakota, New Jersey and South Dakota. Two territories, New Mexico and Okla-homa, placed themselves in communication with the committee, and desired to be represented at Indianapolis.

A communication was received from the Dennison house, of Indianapolis, tendering free of charge committee-rooms for the use of the committee. This offer was accepted, and the com mittee decided that the conference would be held in the club room of the Dennison hotel at 2 p.m. In addition to commit-teemen appointed from the states, prominent democrats have notified the committee of their states of their intention to be present at the Indianapolis meeting.

NIAGARA'S NEW BRIDGE.

It Will Be One of the Wonders of the World.

The new metal arch-bridge at Niagara falls will be noteworthy in two respects, says the Railroad Gazette. The new bridge is to be built over the old suspension structure, without interruption to the traffic on the latter. The span from end pier to end pier will be \$40 feet, making it the largest arch span in the The suspension bridge now in use,

which has been familiar to all visitors to the great natural wonder for 40 years, will be kept in place until the new arch is ready, as it would be impossible to construct false works over Niagara gorge to sustain a structure of this class.

The span will have a raise of 250 feet from the level of the piers at the skew-backs to the center of the ribs at the crane of the arch, which point is 170 feet above low water. The depth of the trusses is 26 feet, and they will be 68.7 inches apart. The bridge will carry one floor, 46 feet wide, divided longitudinally into three parts. On the middle portion, which is 22 feet 9 inches wide, will be fwo trolley tracks. Each side of these tracks will be a roadway for carriages, eight feet wide, and outside of these, raised six inches from the level of the

roadway, will be footpaths. The construction of this remarkable epan is from plans of L. L. Buck, engi-neer of the East river bridge between New York and Brooklyn, and the author of the plans by which the railroad suspen-sion bridge at Niagara was replaced by an arched bridge. The approaching or flanking space will

in 1854. In fact, he thinks he is the oldest pioneer printer of this coast. He Mr. Hubbard was hauling hay from his He feels that his time is getting short; but the world is still all before him, and he feels that if he had been traveling 10,000 caught in the lines and dragged several hundred yards before he could be released. years, he would have just as far to go as when he first begun. Wherefore his desire for a bicycle in order to make the best possible use of the years left him. He has been around to all the bicycle stores, and is still in doubt. He says and severe internal injuries, the nature there is either some terrible misunder-standing in regard to the good qualities and extent of which are not known, of bicycles, or the bicycle dealers are were sustained, says the Corvallis Times. He was taken to a house and medical aid summoned, and at last accounts the nonumental prevaricators. As soon as he can decide which is the best 'cycle, he patient was resting comfortably. It is believed that he will recover. will invest and start for The Dalles on his way back to Idaho.

We Lay Down. Arizona Kicker: Our esteemed con-temporary down the street is out with a Jacob Schuman Reported Murdered. News was received in Dayton Wednesday morning that Jacob Schuman, an two-column sensation regarding the little old citizen of Dayton, had been murdered affair at the bank last Tuesday, and he at or near Jack Lowe's sheep camp on lies in the most shameful and barefaced the breaks of the Tukannon, says the Walla Walla Union. The word was manner, as usual. The facts in the case are as follows: We had just left the brought by teamsters from Gruep's mountain, but no particulars had been obtained by them. David Davis, who came to Walla Walla Tuesday said a bank, alter making a deposit of \$200. As we reached the sidewalk a stranger, who had been leaning against a telegraph pole, stepped forward and thrust the messenger had arrived on the mountain nuzzle of a gun within a foot of our nose where Mrs. Schuman had camped, and informed her that her husband had been and ordered us to throw up our hands. Up they went. Under the circumstances murdered. we were ready to throw up our hat,

## A Heppner Bank Closed.

held dear on earth. The man gave us The National Bank of Heppner, of which E. R. Bishop is cashier, has gone his private opinion of the editor of "The Kicker" (who is carself), of the mayor, into liquidation. This step is taken for who is ourself), and the postmaster, the simplo reason that the bank can do (who is ourself), and his language was emphatic and to the point. We had no more business profitably for the present. It has no more money to loan upon the security offered, and will prolittle or nothing to say. We might have died the death of a hero, but we preceed to collect outstanding money as fast ferred to remain on earth. A large crowd assembled and witnessed our as possible.

humiliation, but we remained passive and placid. When the kuss had had all In the vicinity of Boquet, Westmoreland Co., Pa., almost any one can tell you how the fun he wanted he walked off. So to cure a lame back or stiff neck. They did we. We got our guns as soon as possible and looked for him, but he could not be found. There isn't the slightest question about our "laying down" before that stranger. We think we know when dampen a piece of flannel with Chamberlain's Pain Balm and bind on the affected parts and in one or two days the trouble has disappeared. This same treatment will promptly care a pain in the side or chest, Mr. E. M. Frye, a prominent merchant of Boquet, speaks very highly of Pain Balm, and his recommendations have had much to do with making it popwe have a good thing. It was a good thing to "lay down" just then, and we entered into it with a great deal of enthusiasm. Things may be different some day, but just at present we have ular there. For sale by Osburn. very little to say, and would like to avoid

trail about eight miles from Union. two young men who first discovered him field to his barn, when his team took at 8 o'clock Monday morning, did not get fright and ran away. Hubbard was off their horses, believing the man to be dead, but come directly into the town and informed the sheriff of their discovery. When picked up he was unconscious and The sheriff obtained a coffin and, with a terrible sight to see. His ear had been torn off and about his head were numer-ous gashes and bruises. The tine of a pitchfork had passed through his foot, remark that the man was not dead, and stated he could hear him breathing, and such was the case. The injured man was removed to town and died in Union at 3 o'clock Tuesday morning. The autopsy revealed the fact that the bullet had not penetrated the brain, but had plowed its way between the skull and scalp. The skul, was fractured to some extent, and in the opinion of the physicians who examined the injury, the man's life could have been saved if he had received medical and surgical attention at an earlier bour, and the fact of his having been exposed to the hot rays of the sun for a number of hours, also greatly operated

against his recovery. It is commented upon in Union that it seems very queer that though there are about 15 houses within a radius of a mile and a half from where Lawrence was shot, and that he was discovered in the morning, that no one visited the scene of the shooting between the time of the finding of the body and the arrival of the sheriff's party, and remarks of foul play are freely made, as it is known that Lawrence was hot on the trail of some horse and cattle thieves, and it is thought by many that he was done away with by some of the parties he was accumulating evidence against, as the easiest means of avoiding a criminal prosecution.

A Kansas Curiosity.

Gaylord, Kaceae, is the most remark-able spot on earth. There everything goes by contraries. The cows lay eggs and the hens give milk. Apples are dug out of the earth and potatoes grow on trees. Dogs wear feathers and geese wear hair. The males wear petticoats while the females strut abroad in "pants." The sun rises in the west and sets at noon, while the Fourth of July comes in the middle

of January. Travelers come from all parts of the world to gaze at the wonders of Morco Jolo and reduces Lemeul Gulli-

liar. Its a living illustration of the ax

BRYAN LIONIZED.

A Constant Stream of Visitors to His Lincoln Home.

The stream of visitors to the Bryan home is increasing. Bryan has received a number of telegrams containing sug-gestions in regard to the action of the populiais convention, and to all of them he responded in effect that he will act with deliberation, and that nothing will be done which can justly be criticised by any of the elements who are sincerely interested in the success of the cause of bimetallism. In his replies to these ex-pression he earnestly advises all friends of the cause in all parties to refrain from harsh criticism of those who, however widely they may differ otherwise, occupy common ground in desiring the imme-diate restoration of the free coinage of silver

Mr. Bryan expresses the utmost confi-dence that a wise and gratifying solution of the perplexing conditions will be presented and adopted in due and good time

and satisfactory to all parties. Further than this Bryan declined to talk in rela-tion to the situation. Every entreating inquiry calculated to fathom his plans or purposes met with the simple response : "I must decline to be interviewed con-

cerning the St. Louis convention, or its reaults." However, his loquacity in other directions was not so circumscribed and he found plenty of material for an entertaining discourse. "I received,"he said, "another. rabbits"

foot. It was sent to me by a telegraph operator in Montans. That makes the sixth rabbit's foot besides a great many four-leaf clovers and a horseshoe. I wrote the donor of the last rabbit's foot, that while I am not at all superstitions, under the circumstances I can but feel that every condition and necessity to insure my triumphant election has been se

curred except the votes." On his return from the populist con-vention, Governor Holcomb was sent to Lincoln, conveying two very pretty birds. They were sent by the Kansas delegation. They were christened Kansas and Nebraska.

## Some Were Dead and Others Gone. A number of people of Troutdale were of Gaylord. It knocks out the romances aroused the other day by seeing a petition published in a weekly paper for the ver to the level of a common, every day | opening of a saloon at that place. They were not objecting to a saloon, but

Sixteen farms in the vicinity of Pendle ton, some in Oregon and some in Washington, have been harvested, and the returns show the average to have been 31½ bushels of wheat and 60 bushels of barley to the acre, with the quality fair. The heaviest yield so far reported is 60 bushels. This was by Philip Young.

The Black Butte Mining Company, in Grant county, is making preparations to hegin work on a more extensive scale. The company recently bought out all persons with whom it was involved in litigation, among them being J. Brown. Mr. Brown's clean-up, as the result of last spring's work, amounted to \$10,000.

Tampa, a fleet-footed animal, owned by Keeney Bros., of Long Creek, Or., was sold recently at Anaconds, Mont., to W. F. Matlock, of Pendleton. The consideration was \$700. Tampa has made quite a reputation in Montana, winning a balfmile handicap race against some of the best animals. She has passed into the hands of an experienced racehorse man.

More emigrants than usual are passing through Fossil this summer, going both east and west, says the Journal. The other day the biggest caravan ever seen passed through. It consisted of 12 prairie schooners, containing 35 people, traveling from Grande Ronde valley to Lane county, near Eugene, where they purpose locating. Each wagon cover bore the legend, "All for Oregon," and an inquiry as to its meaning elicited the reply that the outfit had traveled to the Grand Ronde last year from Kansas and Nebraska, and being diseatisfied with that portion of Oregon, pulled stakes and started for the far famed Willamette valley.

Since 1878 there has been nine epidemics of dysentery, in different parts of the country in which Chamberlain's Colic, Cholers and Disrrhoes Remedy was used with perfect success. Dysentery, when epidemic, is almost as severe and danger-ous as Asiatic Cholera. Heretofore the best efforts of the most skilled physicians have failed to check its ravages, this remedy, however, has cured the most malig-nant cases, both of children and adults, and under the most trying conditions,

which proves it to be the best medicine in the world for bowel complaints. For sale by Osburn.
