The "East End" as Reflected

She Passed Away at Pendleton, on Monday.

[WESTON LEADER.] A son was born Saturday to Prof. and Mrs. H. L. Talkington at their home in

A big engine from the Gilbert Hunt shops, Walla Walla, passed through Weston yesterday, for the harvest fields near Athena. It is to replace the engine in Louis Bergevin's outfit, which broke

down recently. The organization of both Bryan and McKinley clubs is on foot in Weston. 'Squire Powers and Mayor Proebstel are the respective leaders, and are scouring the highways and byways for eligible

Cashler Pierce is absent minded. He discovered this fact the other day when busy with affairs at the bank, to which he went early in the morning. Twelve o'clock came before he remembered that he had not had his breakfast.

A camper at Woodward's toll gate whose name could not be learned, was accidentally shot in the arm with a Winchester recently, while out hunting. The ball entered the wrist, passed up the arm

and emerged at the elbow. Mose Taylor and family are now tak ing after-harvest recreation. They left yesterday for a several weeks outing in the mountains. They go first to the summit, and then to Wallowa lake.

The water supply of Weston is growing scarce, due to continued dry weather. Water is reported to have sunk rapidly at the source, and the reservoir is very low. Irrigation has therefore been forbidden

until the supply increases. The Price & McBrillo crew finished harvesting last Sunday. Mr. Price's apring wheat near Weston yielded about 22 bushels per scre, and his fall wheat on Couse creek, 280 acres, averaged 30 bushels. Mr. McBride's fall wheat near town also averaged 30 bushels.

Henry Woods, remembered well as one of the old-time Jehus who flourished in this country before the advent of the railroad, visited Weston Wednesday. Mr. Woods abandoned stage-driving many years ago, and now farms near Athena He raised a good crop this year, securing 5000 bushels-an average of 35 bushels

Ed Legan has resigned the marshal ship of Weston, on account of the Illness of his mother, which prevents him fron attending to the duties of the position Mr. Logan was a faithful, conscientious officer, and his resignation is a decided loss to the city. Frank Hartley now wears the star, and is a candidate for appointment by the council.

Claude Steen has purchased 20 000 wheat sacks, and it is said will fill them all with good blue-stem wheat. He will finish threshing soon. Mr. Steen came near losing one "setting" of wheat at his Pine creek ranch last Saturday. It had caught fire after the machine left, but they succeeded in saving the wheat and

left the straw to burn. President Royal of the Normal has re turned from his summer visit to the far east, whither he went to take an advanced course in Psychology Professor Royal passed through the terrific heated season in the east, and finds our climate a relief. However, it did not affect his health, and he is ready for the coming year's work of the Normal.

R. A. Dozier, the enterprising wheat buyer, now with Marshall & Co., Walla Walla, purchased 15,000 bushels from Weston farmers Tuesday at forty cents. This was a considerable advance on the market, the wheat being wanted to fill contracts below. Those who sold to Mr. Dezier were Hon. A. R. Price, Henry Pinkerton, H. U. Adams and Simpson Marshall & Co are still in the market, and the competition thus offered in buy-ing is appreciated by our farmers, who certainly need all they can get for this gesson's crop.

Prof. F. J. VanWinkle lately visited La tirande and filed upon a claim in the Blue mountains about three miles above Saling's Camp. fhe place attracted the professor's eye because it offers great advantages as a summer resort. There is an abun lance of water, the omnipresent huckleberry of course is found near by, and the claim embraces the highest point in the mountains, from which an unrivied view is had of the broad wheat empire below. He will make extensive improvements, and intends to have an observatory and telescope. The appropri-ate name of Summit View has been selected.

"Doc" Whitney, an old timer, who is back in this country again after extensive travels, was in Weston a few days this week. Mr. Whitley started the first newspaper in Eastern Orekon, the "Umatilla Advocate" at Umatilla, and turned it over to a printer named A. J Kane, who speedily ran it into bankruptcy-being a man who believed that money was made to get rid of in short order. Mr. Whitley was one of the citizens who helped to remove the county seat from Pendleton to Umatilla and built the old court house. This was ostensibly donated to the county, but it is a fact not generally known that under an agreement with the commissioners the contributors were afterwards reimbursed in scrip.

"X," a versatile correspondent of the ATHERA FIRES from Cold Springs, remarks that Clark Wood, editor of the Leader, was a visitor at the camp, the guest of Editor Boyd, Saturday night and west to Saling's camp to spend Sunday. He returned to Weston with the crowd Wednesday. We congratulate him as a berry picker, for with the help of the Bryanites and numerous other good mountaineers he succeeded in gathering a gallon of huckleberries." This seems to be intended as a covert sneer at our ability as a berry picker, which in fact has never been fully tested. We still claim the championship on the strength of what we can do under favorable conditions, and will be prepared to meet all comers, including the facetious 'X,' next hucklebarry season.

[MILTON EAGLE.] A McKinley club will be organized in his city. This, no doubt, will ca'l for a Bryan club, also,

A. A. King and Miss Dinsey Rice, both living in the Valley Chapel neighborhood were married in Walla Walla Wednesday evening.

Civil service examination will be held in Pendleton on the 14th of October in all branches. The examination in Port-land will be on the 12th, or two days

By Our Exchanges.

If a newspaper published all its editor learns of family troubles, dual lives and the numerous escapes and seventures of well known people which come to his ears, rathode rays would not be a candle to it in depicting skeletons.

Miss Aimee Williams suffered a dislocation of the shoulder by a fall from a horse in the mountains Thursday evening of last week. The injury was a painful one, inasmuch as surgical treatment could not be obtained until she reached this city after a long ride over rough mountain roads. Dr. Hill reduced the fracture and the young lady is now rest-ing as comfortable as could be expected at her home.

The state superintendent of public in struction has ruled that any person hav-ing received a first, second or third-grade county certificate in our county shall not be granted a second paper of the same grade in any county of the state, and said certificates are good only in the county where issued. A person having received a third-grade county certificate and going into another county to teach must pass the examination for the next higher grade, namely, a second grade

Grand Lecturer D. C. Herren, of the Ancient Order of United Workmen, paid Milton lodge No. 5, an official visit last night. Mr. Herren will visit Milton again this fall and deliver a public lecture on the merits of this excellent order at a time when the people are at home from the harvest fields and outing trips. He is a pleasant gentleman and wins converts to his order wherever he goes. Since leaving home two weeks ago Mr. Herren has secured over a hundred additional members to the ranks of the

several local lodges that he has visited. This morning a large, fat, greasy looking hobo, of perhaps twenty years of age, called at the Eagle office and with tears in his voice pitifully beseached the lank and half-starved scribe to "give some money or a little something to eat to help a fellow out" He was quickly showed the door and admonished to seek a more congenial atmosphere. We hate a hobo above anything on earth, and if anybody catches us ministering to their shiftness we may be considered crazy and immediately hustled to a lunatic asylum with-

BODY-SNATCHING CHARGED.

Trouble Over the Search for D. J. Woodward's Body.

The search for D. J. Woodward's body has resulted in voluminous writing and considerable unpleasantness, says the East Oregonian. John C. McLees, of Little Summit, Or., in the Blue mountains, was one of the searchers who want along the roadways near the Woodward tollroad before the snow had left in the

spring.
The Milton Eagle published a rumor that some one had found Woodward's that some that body, and was holding it in the hope that a reward would be offered larger than one of \$25, which had been put. Mr. McLees sent an indignant denial, and a complete account of the search, taking the Eagle's imputation as being directed toward him. The Eagle replied, and Mo Lees sent another letter, which was not printed, but which called forth this squib

from the Eagle:
"A communication this week from Mc Lees, the man living on Lincton mountain, who seems bent on seeking news paper noteriety, is consigned to the waste basket, where all such idiotic vaporings belong. We made a mistake in noticing the man in the first place, for he evidently belongs to the class of individuals

who don't possess the sagacity to quit when they get through."

The Eagle's offense against Mr. Mc-Lees consisted in publishing the follow-

ing in the first place:
"The party organized in this city last week to search for the remains of D. J. Woodward returned to the city Saturday night, and reported no success. The Masonic lodge in this city, of which Mr. Woodward was a member, will make no further effort to find him, as they believe it would be labor lost. Many believe that a certain man, living not far from the toll-gate possesses information that might lead to the recovery of the body, if he was so inclined, but it is thought nothing short of a liberal reward would cause him to open his mouth to the dead man's Woodward returned to the city Saturday him to open his mouth to the dead man's friends. The Eagle really knows nothing regarding the truth or falsity of this state ment, but a story is being circulated and has gained almost general credence."

Mr. McLees now sends the rejected manuscript to the East Oregonian, with a request for publication. The language is choice. He asserts of the Milton Eagle editor that "he is a dirty, lying, sneak-ing, backbiting, low-grade cur," and the remainder of the letter contains considerable of such matter. Inasmuch as the Eagle man was not personally on trial in connection with the Woodward affair, the letter has been consigned to the capacious waste basket which stands in a corner of

Will Organize a Bryan Club.

A rousing meeting of Bryan men will be held in Athena on the

evening of Saturday, September 12, at which time a Bryan Club

will be organized. It is expected that a prominent speaker will be

present. Other towns and many precincts throughout the county,

have organized Bryan clubs which are growing every day by new

names being added to the rolls. The meetings of these clubs are

very enthusiastic, and much good work for the silver cause is being

A large membership can be secured for a Bryan club in Athena.

Blanks are now in circulation and are receiving names for mem-

"We the undersigned legal voters of Umatilla county, state of

Oregon, believing that the election of William J. Bryan will result

in the greatest good to the greatest number, do hereby ask that a meeting be held on the evening of Saturday, September 12, 1896, at

"We respectfully request that all citizens, regardless of previous

party affiliation, who are in favor of free coinage of silver and gold

at a fixed ratio of 16 to 1, be present and assist in the organization

DEATH OF MRS. TOWNSEND, 1 the editorial rooms of the East Oregon.

Churning Done in One Minute.

I have tried the Lightning Churn, you

ecently described in your paper, and it

s certainly a wonder. I can churn in

ees than one minute, and the butter is

elegant, and you get considerably more

butter than when you use a common

churn. I took the agency for the churn

here and every butter maker that sees it

buys one. I have sold three dozen and they give the best of satisfaction I know

I can sell 100 in this township, as they

churn so quickly, make so much more

butter than common churns and are so

cheap. Some one in every township can

make two or three hundred dollars sell-

ing these churns. By addressing J. F.

Dasey & Co., St. Louis, Mo., you can get

circulars and full information so you can

make big money right at home. I have

made 80 in the past two weeks and I

dental work, and you must patronize him

She Passed Away at 6:15 Monday

Evening at Pendleton.

evening at her daughter's home in Pend-

leton. She has been an invalid for sev-

eral years, and four years ago was strick-

en with paralysis, the shock being a light

one. Last week, she was the second

time prostrated with a paralytic stroke

and gradually became weaker, until 6:15

o'clock Monday evening, when she pass-

She was one of the earliest set lers of

Pendleton and Umatilla county, having

resided in Umatilla county for 31 years.

Although feeble from old age and almost blind, the aged lady was going

about the house with the aid of a walk-

ing stick up to the time she retired for

the night on Thursday. Her daughter,

Mrs. Raley at whose house she was stay-

ing, was aroused by hearing continued loud hiccoughing coming from the afflict-

ed woman's chamber. She repaired to

the room and found her mother with her

head thrown back and breathing heavily

Dr. Pruett was immediately summoned

and found that the right side of the body

was paralyzed from head to foot, and also the tongue. Saturday night the lady

could hear when spoken loudly to, but

was unable to speak. Mrs. Townsend

had a slight stroke of paralysis about

three years ago, but had entirely recover-

[Cosbi Townsend was 93 years old lack

ing four months. She passed the 92nd milestone last December 5. It was in

1853 she came to the coast from Wiscon-

sin by an ox team. The Willamette val-

ley was her destination. There she lived

for several years. Her husband and she returned to the East from there, going "round the horn," to the north Atlantic coast, and thence by land to Minnesots.

In 1865, however, another ox team was fitted out, and, joining an emegrant train

the trip across the plains was again un-dertaken. In September, Mr. and Mrs.

Townsend arrived where Pendleton now

is. Mr. Townsend died 15 years later. Mrs. Fownsend has lived in Pendleton

since 1865. She has three children eur-

viving her: Mrs. A. M. Raley, S. L. Morse and Clarence C. Townsend. Her birth place was Kennebec county Maine.]

There are some people who are never positive in anything. It is always, "I don't know," or "I guess so." There is a world of such people, and it is refresh-

ing sometimes to hear a person speak as

one having convictions, like Mr. Chas. F. Snyder, of Bangor, Pa., who wrote;

"I can heartily recommend Simmons Liver Regulator to all who are troubled

PATENTS | Feb. 24, 1891 Oct. 3, 1893 | May 17, 1891 Jan 1, 1895

~~~

A Bicycle constructed of material that is solid, tough and wiry; that is simple in construction, easily taken apart and put together again has few parts, is of such wiry material that its parts will hold together even in an accident, no hollow material to be crushed in by every contact; a frame that cannot possibly be broken; a frame so simple that its adjusting parts serve as its connecting parts; a one-piece crank in place of a dozen parts; always ready to give reliable and rapid transportation.

### SPECIFICATIONS AND DESCRIPTIONS.

FRAME.—Improved Double Diamond. What is a Double Diamond Frame? Simply a true truss in every direction for strains that occur in Cycles-the outline of two diamonds in its makeup. The frames are constructed of g-inch cold rolled steel rods, the toughest and strongest metal for its weight known, and the parts are joined together with steel and aluminum bronze fittings in such a manner that it is impossible to brake or any part to work loose. A marvel of novelty, simplicity and durability, the greatest combination of ingenuity in bicycle mechanism,—to build a frame without brazen joints and tubing, as you know that frames continually break and fracture at brazen joints and tubes when they are buckled in cannot be repaired. We guarantee our Double Diamond Frame for three years. You cannot break it. Standard size steering head and wheel base, ball bearings at both ends of head.

WHEELS .- 28-inch front and rear, warranted one-piece wood rims, best quality piano wire spokes and brass nipples, large barrel hubs fitted with "Arlington" hose pipe, Morgan & Wright "quick repair," or

some other first-class pneumatic tire. AXLE AND BEARINGS.—Indestructible ball bearings through

out, with 148 hardened steel balls. Crank shaft bearings are fitted with our patent ball cases, which are interlocked and support each other and cannot possibly come apart while in use. Are neat and cover the bearings completely. It has been an acknowledged fact that crank axle bearings are susceptible of improvement, as threaded cones or crank axles are continually crowding or working loose. We save this entire nuisance by having no threaded parts whatever, but a clever device in frame for adjustment, Our invention is most perfect in simplicity and must be seen to be appreciated. The sprocket and chain are on the inside of the frame and ball bearings. Great value is gained by this arrangement; ease of running, double wear saved, positive never loose bearings, freedom from contact with chain and sprocket, smooth outward globular ball bearings, less friction and lost motion, hence greater speed. Then with the jointless "one-piece crank," feet, ankles and trousers are

ONE-PIECE CRANK, -Our great achievement; by its application we put two cranks, two pedal axles, two keys, six screws, six nut and four washers all in one piece. From 50 to 100 per cent. of all the trouble to bicycles is from cranks working loose and pedal axles that break from clamping connections. They get loose no matter how much pains is taken to key and tighten them. This is caused by too many parts, and it is entirely saved by our device, which is but one piece, and made from tough rolled steel rods, impossible to break. It has been proven that when other cranks break from accident, our one-piece crank

will hardly bend. CHAIN.—Humber block pattern, best quality, hardened. SPROCKET WHEELS.—Best drop forged steel. REACH.—Shortest, 28 inches; longest, 37 inches.

GEAR.-64 or 72, as specified. FRONT FORKS.-Indestructible. Our fork crowns are simply section of gun barrel steel turned up to size, then bored and bent, forming a perfect fork crown that cannot be surpassed for strength and beauty, also giving a support to our solid cold rolled fork rods that just limit the necessary amount of springiness required in a front fork and which can only be obtained by use of our forks and crown.

HANDLE BARS.—Reversible and adjustable, a marvel of sim-

plicity, readily adjusted to any position desired, with best cork or composition handles. In buying a bicycle it is always a vexed question as to whether you want dropped or elevated handle bars. If you wanted one kind you could not have the other. Our handle bar enables you to have either at will. Will furnish Ram's Horn handle bars if preferred. SADDLES.—Gilliam, P. & F., Reading, or other first-class make.

PEDALS .- Rat trap or rubber; full ball bearing. FINISH .- All parts are enameled with our own special enamel, rubbed down and baked, giving it a handsome black, glossy appearance. All bright parts are heavily nickle plated; these, with the jet black gloss parts, give a handsome appearance which cannot be excelled.

ACCESSORIES.—Each "Maywood" Bicycle is furnished with a

leather tool bag, containing pump, wrench and patent oiler.

WEIGHT.—According to tires, pedals, saddles, from 27 to 30 lbs.

# A PRICE THAT WILL REACH YOU.

Do not imagine because it is not high priced it is not high grade We do not use expensive hollow tubing, besides, we belong to no Combination or Trust. We own every patent, pay no royalties, manufacture the entire wheel ourselves and are satisfied with a reasonable profit, employ no expensive racers, but depend upon the good common sense of the American people to appreciate a good thing when they see it. We afford to make the price we do, for we expect to sell ten "Maywoods" to one of any individual make sold. We simply say that the "Maywood" is a perfect Bicycle, containing more originality and genuine points of excellence than can be found in all other machines together.

The "Maywood" has successfully passed through the experimental stage. During the past three years we have put out over 5,000 "Maywoods," placed in the hands of riders of all classes and widely distributed through the country. Expert riders and clumsy riders, heavy men and light men, on smooth roads and on rough roads, have given this wheel every conceivable test, proving it to be the best wheel on earth for every day use, a wheel that can be constantly used over the roughest roads without showing weakness and the constant necessity of repairs. Its construction is so simple, its vital parts so strong, that the possibility of breakage is reduced to a minimum.

# PRICES AND TERMS.

\$40.00 is our Special Wholesale Price. Never before sold for less. To quickly introduce the "Maywood" Bicycle, we have decided to make a special coupon offer, giving all readers of this paper a chance to get a first-class wheel at the lowest price ever offered. On re-ceipt of \$35.00 and this coupon we will ship anywhere, to anyone, the above described Bicycle, securely packed and crated and guarantee safe delivery. Money refunded if not as represented after arrival and examination. We will ship C. O. D. with privilege of examination, for ...Bicycle... \$36.00 and coupon, provided \$5.00 is sent with the order as a guarantee of good faith. We send a written, binding
