Watch Repairing Is My Business

and I give careful, painstaking attention to it. I give especial attention to the repairing of FINE watches—the kind of watches that need extra careful adjustment. I try to have my work give such satisfaction as will win the confidence of all who leave their watch repairing in my hands. I want to add to the reputation I think I have in a small measure already established, of doing honest, thorough watch repair-ing. H. H. HILL, Athena, Oregon.

Churning Done in One Minute.

I have tried the Lightning Churn, you recently described in your paper, and it is certainly a wonder. I can churn in less than one minute, and the butter is elegant, and you get considerably more butter than when you use a common churn. I took the agency for the churn here and every butter maker that sees it buys one. I have sold three dozen and they give the best of satisfaction I know I can sell 100 in this township, as they churn so quickly, make so much more butter than common churns and are so butter than common churns and are so cheap. Some one in every township can make two or three hundred dollars selling these churns. By addressing J. F. Casey & Co., St. Louis, Mo., you can get circulars and full information so you can make big money right at home. I have made 30 in the past two weeks and I never sold anything before in my life.

THE COLORED VOTE.

Mukinley Assured of all in Holmes

Through courtesy of Dr. F. S. Sharp, the Parss reporter was permitted to peruse the columns of the Holmes county (Ohio) Farmer, yesterday. Among many articles of a political character which impressed the scribe that the Major is not having things all his own way even in Ohio, was the following:

The Holmes county Republicans called upon Major McKinley today. The county is a democratic stronghold, and it could not otherwise than be expected that the effort on the part of the republican

could not otherwise than be expected that the effort on the part of the republican managers to make a showing should have been the failure that it was. There was a comparatively small handful of people in line including the Sugar Creek band, but nearly every republican in the county was present. The crowd was so small that the Major adjusted his glasses long before he commenced reading his speech. Dr. J. G. Bingham of Millerburg presented the delegation to the major, and when they shook McKinley's hand, several of them ventured the encouraging state them ventured the encouraging statement that he was sure of receiving the entire colored vote of Holmes county.

The delegation arrived at 12 and left at :14.-Canton News-Democrat, Sept.

"Entire colored vote of Holmes county!" That's good. The "entire colored vote" just at present consists of one black rascal confined in jail for attempting rape. McKinley may be able to pole the full "colored vote" of the county, but it is doubtful, without he should be able to devise some scheme to liberate the "colored vote" before election time. Better put Mark Hanna onto the job, Major.—Farmer.

A Bryan Man.

When the excursion train pulled out from the station last Friday an enthusiastic Bryan man was seen to be running toward it, waving his arms frantically in the air. The engineer good naturedly slowed up and came to a standstill opslowed up and came to a standstill opposite the Hamilton & Rourke warehous, at the lower end of Main street.

The fellow, a stranger, had a long run
of it, and when crossing the bridge near
the mill, fell and bruised his hands and
forehead to such an extent that the blood
flowed freely when he reached the train.
He proved conclusively that he was a
Bryan man, through and through, and
was determined to hear Pennoyer speak,
or bust.

The Irrepressible "Butch." A Passs reporter, while in Pendleton Saturday, was pleased to meet Co'. W. F. Butcher, a former Athenaite. "Butch" is prospering in the Queen City. He is also still a democrat, and admonished the Passs not to overlook this fact, all reports to the contrary notwithstanding. reports to the contrary notwithstanding.

Mr. Butcher reports much activity in
business circles at Baker City, and says
everybody seems to be employed at fairly good wages. He attributes the good
times up at Baker to the mining industry
of that county, and not to the present
gold standard, for "Butch" believes in a
little sliver now and then, like the rest
of us "anarchists."
