### FEMALE MINSTRELS.

Ladies of Mignonette Rebekeh Lodge Will Entertain.

Athena will soon be able to boast of an entertainment, the like of which has never been given outside of the larger cities, and in no city in Oregon, with the exception of Portland, namely, a female minstrel entertainment.

Mr. A. V. Crane, a gentleman of experience in this line, and who was connected with the Payton company, will conduct the rehearsals for the coming event.

The entertainment will be given by the lady members of Mignonette Lodge of Rebekeh, of this city, and Friday evening, February 15, in the date on which the lady minstrels will appear. The proceeds are to be devoted to the benefit of the Rebekeh Lodge, and much interest is being manifested in the work of making it a good round of success.

Thirty ladies are cast for parts in the minstrel, besides band and orchestra. There will be the funny jokes, songs, dances, the end men (this time ladies of course) with tamborines and banjos, the laughable sketches and all that go to make up modern minstrelsy.

The splendid new scenery now being painted at the new opera house will add materially to its production and as the price of admission is within the reach of all, standing room will be at a premium on the night of the entertainment.

### THE GOLDEN JUBILEE.

Three Hours for Parade to Pass a Given Place.

Miss Lillie Fischer, who is employed in a San Francisco military establishment, writes a friend in Athena a description of the Golden Jubilee celebration which took place in that city recently. She speaks particularly of the great parade, which was indeed a mammoth one, it consuming three hours' time passing a given place.

There were 30 full military bands in this parade and 15 drum corps, 100 mounted police, 500 police on foot in full uniform, 1000 cavalry, 50 canon each drawn by four horses; 25 powder wagons, 5 men on each, drawn by 4 horses; 1000 infantry, signal service corps with apparatus; a float with 3 life saving boats armed with life saving crews; 1000 more soldiers; five companies of San Francisco with their latest improved apparatus; veteran fire company with their fire apparatus of 20 years ago, and the old-fashioned pump of 40 years ago; 600 cadets from military school; militia of San Francisco, Oakland and Alameda; pioneers of before '48 in carriages; 60 lodges of Native Sons of California in regalia; Native Daughters of California on white horses. These were white habits, white caps lined with yellow, white hats with long white plumes and white gloves, and having yellow saddles, bridles and whips.

One of the most pretty and attractive features of the parade was the Native Daughters' float. On it, surrounded by hundreds of little girls, sat the Queen of the Jubilee. Her costume was of white satin trimmed in gold. A float is mentioned which represents the first Mission house erected in California, and walking beside it were monks in the lace frocks; also a float on which was an exact reproduction of the cabin in which Marshall, the man who picked up the first nugget in California, dwelt at that time.

Miss Fischer's description of the Jubilee and parade is very vivid and interesting, and we regret that space forbids publishing the entire letter.

### Scene Painting.

Mr. Moody, the scene painter is doing some splendid work at the new opera house. The scenery he is painting will rank with any in the state in point of finish, design and excellence. It is the intention of the management of the opera house to add on dressing rooms back of the stage, and when this is done, our little city will have a comfortable and commodious opera house in every particular.

Swaggart 45, and Mrs. Hamp Booher, 30; other ladies making good scores for their first bowling. Records for the week are: Max Lewin, 62; Fred Fischer, 57; Ord Bostwick, 58; F. J. Beale, 52.

### Ground Squirrels.

The ground squirrels are coming out of their holes in Walla Walla county, and the Statesman says: "Now is the time to nip these destroyers of wheat, before the spring increases comes. A few bushels of poisoned grain would work wonders, as feed is hard to get and they would be eager to eat. Later the poisoned grain has very little attraction for them, as they can get other feed. Active measures must at once be taken, as the means of saving many bushels of grain."

### Verdict for Llewellen.

The court gave instructions and the jury retired at about 2:30 o'clock to deliberate, with the result stated. The plaintiff, who sued for about \$3500, is given a verdict for \$2250.

### A Tax Levied.

District No. 69, in the Cold Spring country, had a school meeting a few days ago. This is the district whose troubles were aired last term in court in the case brought by Effie Graham to recover salary as teacher. The meeting was held to vote a tax for the payment of the district attorney's fees in this case, which amounted to \$37.50. The tax carried by a vote of 12 to 6. A levy of 1 1/2 mills is necessary to raise the \$37.50.

### Now Think About Your Health.
