SWIFT & CO TO ENTER NORTH CONSOLIDATION OF COAST CON-WEST FIELD. CERNS ABANDONED.

Only Question of Doubt Is How Soon | Eastern Money Lenders Turned Down the Company Will the Pacific Coast Mill-Start Work. ing Proposition.

The Portland Oregonian says Swift & Co., meat packers, have an eye on Port- date the more important Pacific Coast land as the probable location of a new fiouring mills and form one of the largpacking enterprise. That their intentions are serious is indicated by the way have abandoned the project for the prestheir agents have been examining the ent. If anything further is done with livestock industry of the northwest, the the deal it will not be undertaken for at possibilities of developing that industry, least ten months, and the scheme may the opportunities offered by domestic and trans-Pacific markets, and Port-

land's relation to the northwest as the metropolitan city. When Lewis F. Swift, second vice-

president of his company, was in Portland about a month ago, he dropped a hint that Portland is well located for a packing house enterprise-in fact, that that city offered better inducements than Seattle There is no doubt that his company is inspecting the opportunities for a new enterprise there. That Swift & Co. actually contemplate entering the northwest field is quite evident. The only question of doubt is how soon the company will do so.

W. J. Martin, of San Francisco, arrived recently to snrvey the field. He said he was land agent of the South San Francisco Land company, of which the Swifts are the head. This company established a packing plant at the Bay City in 1890. The plant has done well and empolys about 300 men.

A local committee was appointed to secure a site for the plant. This committee is composed of J. C. Ainsworth, C. E. Ladd, J. Thorburn Ross and F. E. Beach. It has not done anything because of the unwillingness of landowners to contribute until they have been assured that Ward means business. The opinion prevails that Ward's backers, if they have money for a plant, will come, subsidy or no subsidy. Ward wanted a bonus of \$25,000 or the equivalent of Junior League 3 p. m. Epworth League that sum and promised in return for 6:30 p. m. Preaching 7:30 p. m. Teachers Meetthat sum, and promised in return for that gift to invest \$400,000.

The belief is current that Ward's people, or the Swift people, as some citizens identify them, will soon make some move toward a project at Portland, and that they will perhaps acquire a site this year. But they will go about this business very quietly so as to prevent landowners from running up prices to

The promoters of the plan to consoli est of the coast industsial corporations be laid aside for good.

The condition of the money market, especially in New York, killed the flour

mill deal. The moneyed men of New York are unable at present to take up no new and outside scheme and have only turned down the project for that reason. Had it been presented to them six months earlier it is believed that the scheme would have been successful. T. B. ilcox, president of the Port-land Flouring Mill company, has re-turned from New York.

Ward preferred the Kittredge tract, north of Portland, to all others. This tract contains about 70 acres, but it could be enlarged by moving the line of the Northern Pacific westward. Another proposed location is north of St. Johns. on the Columbia river, where several hundred acres are available. This land is owned by the P. T. Smith estate, and R. C. Judson, industrial agent of the O. R. & N. Co., has held an option on it for some time. It is reported that the op- all darger will be avoided. Among the tion now has passed to other persons. A packing plant together with stockyards would require about 150 acres of land. A FIRST-CLASS SHOW.

Electrical Production of the Great Passion Play.

Of Flemming Bros. electrical picture production, which will be given at the opera house Saturday evening under the auspices of the Epworth League, the following from the Marysville (Calif.) Globe will be of interest:

The Marysville Globe, without hesitation or equivocation of any kind, wishes to add its mite to the unqualified praise that Flemming Bros. Big Electric Show is receiving on all sides. That company showed at the opera house last Saturday night, and it is not putting it t to strongly to say that the big audience went home delighted with the show. Of course, averybody has seen a moving Show is receiving on all sides. That went home delighted with the show. Of course, everybody has seen a moving to Jerry St. Dennis, Jr., the above named defendant: that there are moving picture machines and then again, moving picture machines. There's just as much difference between the shows produced as there is between the outfits producing the shows. Floming Bros. pictures are of exceptionally large size, wonderfully distinct, every figure standing out upon the sheet and "that flicker," the bane of moving pictures, is conspicuous by its absence. The subjects treated are many and varied, that of the "Passion Play" alone being worth twice the price of admission Their illustrated songs excel anything ever seen in the town; "A Picture no Artist can Paint" and "The Tie That Binds," especially receiving the applause of the audience. Should Fleming Bros ever come this way again, and we hope they will, they will find Marysville's

latch string out and a cordial welcome ready for them.

It stops the cough and heals the lungs and prevents a cold from settling on your lungs and resulting in Pneumonia, Pleurisy, or Consumption.

You are in no danger of serious results if FOLEY'S HONEY AND TAR is taken, as it soothes and heals the inflamed air passages and the cough disappears.

Be sure and get FOLEY'S HONEY AND TAR, as preparations containing opiates stop the cough temporarily by paralyzing the nerves in the throat and leave the germs of serious lung trouble and you get one cold on another because the first one was not cured perfectly.
