

ROAD DOWN SNAKE

FROM HUNTINGTON DOWN TO LEWISTON, IDAHO.

Proposed Line Will Give an Outlet to a Rich Mineral Country in Oregon and Idaho.

Articles of incorporation of the Lewiston & Owyhee Railroad company were sent to Spokane to be filed for record, by M. O. Reed, a prominent attorney of Colfax, who is president of the new road which is to be built from Huntington, Oregon, down Snake river to Clarkston, Wash., or Lewiston, Idaho, the final destination not having been definitely settled. Clarkston is just across the river from Lewiston.

The capital stock of the company is \$3,000,000, divided into 30,000 shares of the par value of \$100 each. The route of the proposed road is set forth as follows: "This railroad is connected with the Oregon Short Line railroad of Huntington, Or., which point is also the terminus of the Oregon Railroad & Navigation company's line of road; and extending thence down to the Snake river, on the Oregon side, through Baker, Union and Wallowa counties in the state of Oregon, and perhaps into Lewiston, through Nez Perce county, Idaho, a distance of some 200 miles; extending along the well-known mining district known as the Seven Devils district, in Idaho and the Iron Dyke, Cornucopia and Innaha districts in the state of Oregon."

The company has just completed the purchase of the right of way of the Northwest Railroad company, which began building a line down the Snake river from Huntington several years ago, and had graded about 30 miles when work was suspended. The right of way extends from Huntington, a distance of 60 miles. M. O. Reed, who was elected president, returned a few days ago from Erie, Pa., and New York, where he purchased this right of way and grade and succeeded in interesting New York capitalists, who agreed to take \$400,000 of the bonds at 5 per cent, for 30 years. Work is to begin on the road as soon as possible and it is the intention to have the first 60 miles completed by May 1, 1904.

The completion of the first 60 miles of the road will give an outlet to some of the rich mining districts of Idaho and Oregon. It will tap the mineral belt of which Mineral City, with its 100-ton smelter, is the center, and this district alone promises 100 tons of freight daily. It will also tap Eagle Valley, a rich agricultural district, and give an outlet for the products of the valley. At a distance of 58 miles from Huntington the road passes through the property of the Iron Dyke mine, which promises 125,000 tons of ore for shipment as soon as the road is built. A large amount of rich ore is also waiting shipment in the Seven Devils district, and the building of this road will put new life into all the mining districts along the river.

One of the great advantages of the new road will be the closer relationship it will create between the north and south of Idaho. It will bring the "Panda" 200 miles nearer Boise, the capital of the state, and it is thought the agitation for a division of the state, which has been made by the north half because of the difficulty of reaching the capital, will be abolished by the building of this road. It will open a rich district where livestock, mining and farm products are abundant, and will give a new outlet to the East to the fruit growers of the upper Snake river, whose fruit to reach the eastern market must go via either Spokane or Pendleton.

Notice to Tax-Payers. Pendleton, Oregon, Aug. 3, 1903. Notice is hereby given that the board of equalization of Umatilla county, state of Oregon, will meet at the office of clerk of said county on the last Monday in August and publicly examine the assessment rolls, correct all errors in valuation description or qualities of land, or other property. It is the duty of all persons interested to appear at that time and place. If it shall appear to the said board that any lands or other property are assessed twice, or in the name of a person or persons not the owner thereof, or assessed under or beyond its value, or any lands or other property not assessed, the said board shall make proper corrections. C. P. SWEENEY, County Assessor.

Teachers Are Scarce. J. A. Paxton, the school superintendent of Baker county, has warned the country districts of his county that teachers will be scarce this year and that directors will do well to hire their teachers early. The prevailing salaries will be from \$40 to \$50 for country schools.

No Room for the Increase. E. H. Sparks, of the Black Bottle Livestock company, of Crook county, has 4500 sheep in Lake county for sale. His company controls quite a range in the Cascade forest reserve, and is allotted pasturage for 12,000 sheep, the same as last year, allowing nothing for increase, consequently it became necessary to dispose of all the increase. The same condition prevails with Morrow & Keenan of Prineville, who have 2000 now in Lake for sale. Mr. Sparks gave out the impression that 70,000 sheep were about the increase of Crook county. Most of the sheepmen of that county were allotted

range for a certain number of sheep on the reserve, about the same as last year, but nothing allowed for increase. These Crook county people are offering their sheep at \$2 and \$2.25 for lambs, and \$3 to \$3.25 for ewes. Muttons are worth from \$2.50 to \$3.

Robbed the Grave. A startling incident is narrated by John Oliver of Philadelphia, as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. Then I was advised to use Electric Bitters; to my great joy the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they robbed the grave of another victim." No one should fail to try them. Only 50 cents, guaranteed, at G. C. Osburn's drug store.
