ATHENA, UMATILLA COUNTY, OREGON, FRIDAY MORNING, FEBRUARY 12, 1904.

NUMBER 7

Try for Health

222 South Peoria St., Chicago, Ill., Oct. 7, 1902.
Eight months ago I was so ill that I was compelled to lie or sit down nearly all the time. My stomach was so weak and upset that I could keep nothing on it and I vomited frequently. I could not urinate without great pain and I coughed so much that my throat and lungs were raw and sore. The doctors pronounced it Bright's disease and others said it was consumption. It mattered little to me what they called it and I had no desire to live. A sister visited me from St. Louis and asked me if I had ever tried Wine of Cardui. I told her I had not and she bought a bottle. I believe that it saved my life. I believe many women could save much suffering if they but knew of its value.

Sergius Rumber

Don't you want freedom from pain? Take Wine of Cardui and make one supreme effort to be well. You do not need to be a weak, helpless sufferer. You can have a woman's health and do a woman's work in life. Why not secure a bottle of Wine of Cardui from your druggist today?

CAUSE IS UNKNOWN

MYSTERY SURROUNDS THE ROSENZWEIG FIRE.

Residence Saved by Prompt Work of the Fire Department.

Fire that broke out in a store room at the Rosenzweig residence Saturday evening came near destroying the home. As it is, the back portion of the house is a charred wreck that will have to be rebuilt.

The cause of the conflagration will ever remain a mystery. The fire originated in a small room used for storage purposes. It is located on the west end of the back porch of the residence. In it was stored a couple of trunks, clothing, papers, odds and ends that naturally accumulate in every household, and as no one of the family had been in the room for hours previous to the discovery of the fire, only theory can be advanced as to cause.

This room and the entire back portion of the kitchen was a roaring mass of flames, when the noise attracted the attention of Miss Elsa Rosenzweig, the only member of the family who had not retired for the night. She was met at the door by a sheet of flame and smoke. Arousing the family, she gave the alarm in the street, and at this juncture D. B. Jarman, who had also discovered the fire, arrived. Though nearly suffocated and blinded by heat and smoke, Mr. Jarman stood in the dining room doorway, and with a stream of water from a small garden hose, kept the fire from eating its way into the kitchen until the fire department responded. The boys of Hose Co. No. 1 "looked good" to Dan as they came rushing through the dining room and relieved him and Wm. Mosgrove just as the flames broke through a window from the outside. A few dashes of water made the interior safe, temporarily, and the firemen turned their attention to the little store room and the outside of the dwelling.

Mr. Rosenzweig showed his faith in the efficiency of the fire department, when before its arrival he requested that furniture and household goods be not removed from the house, assenting to those willing to aid in the work, that "the boys will soon be here and put the fire out quickly." After the fire was out Mr. Rosenzweig kindly thanked the fireman and others for their good work. He only carried \$400 insurance on the residence, and through an oversight insurance on the household goods had been allowed to lapse some three weeks ago, therefore the loss would have been considerable had the fire reached the interior of the building.

CHANGE IN BUSINESS.

Taylor & Jarman Have Sold the Weston Fair Store.

Taylor & Jarman have sold the Weston Fair Store to F. F. Humeaton. The change was made last week, in speaking of which, the Weston Leader says of the managers of the Athena Fair Store:

Messrs. Taylor & Jarman retire and are succeeded by F. F. Humeaton. The retiring firm opened the Fair Store at Weston in June, 1899, and by their enterprise and square dealing built up a large business from a small beginning. In fact, the old saying, "Large oaks from little acorns grow," is applicable here. After getting the Weston store safely under way they established a similar business at Athena, which has also had a remarkable growth under Mr. Jarman's management. Mr. Taylor remained here, and only ill health, from which he has suffered the past year, prevents him from continuing the business in which he has been so successful. Rest became imperative, however, and he will now take a vacation.

Whistler to Return.

John T. Whistler, government engineer in charge of the irrigation surveys in Oregon, is expected to return from Washington, D. C., about March 1, and will begin work on further surveys in the Echo irrigation district. Mr. Whistler's report will be made public in the near future, all reports coming from Washington, so far, having been outlines and reviews of the actual report, and when this is made public the department will determine just what measures will be necessary this season.

STRICT ON HOMESTEADS.

Special Agent Will See to Literal Compliance with Law.

A Walla Walla special says: The sternest setback homesteaders in Oregon and Washington have yet received in their endeavors to prove up on government land without having lived up to a literal compliance with the homestead law was contained in orders received from the department of the interior at the land office here yesterday. Under the new ruling a man will find it practically impossible to prove up on a

FOR POWER PLANT

THE APPROPRIATION NOTICE WAS FILED MONDAY.

Will Furnish Electricity for Towns of Pendleton, Walla Walla and Intermediate Points.

Notice of appropriation for the big electric power plant was filed Monday in the office of County Recorder Folsom, says the Pendleton Tribune. The filing of the notice and appropriation of the water was made by the Washington & Oregon Water Power company, but is for the use and identical with the Northwest & Electric Light plants both in Pendleton and Walla Walla, and the purpose of the company is to erect this plant in Umatilla county, and to furnish electricity for lighting and power purposes for both Pendleton and Walla Walla and any and all intermediate towns, and perhaps in time extend the field of operation further. In time the same company may construct and operate an electric railway between Pendleton and Walla Walla as they will have abundant power.

SENATE HELPS THE FAIR.

Passes the Bill Appropriating \$2,000,000—To Close Sunday.

After listening to speeches by Senator Hopkins and Senator Clay in support of the Panama canal treaty, the senate Monday passed the bill granting assistance to the proposed Lewis and Clark exposition at Portland. The bill was amended so as to close the exposition on Sundays, and the provision for a permanent memorial to Lewis and Clark was eliminated.

When the bill appropriating \$2,000,000 for the Lewis and Clark exposition at Portland was reached Senator Gallinger suggested that the bill go over.

"Why?" asked Senator Mitchell. "You may as well let it pass now as at any time."

Senator Gallinger withdrew his objection.

Senator Bailey entered a formal objection to the passage of the bill but did not press it.

Senator Platt of Connecticut offered an amendment prohibiting the opening of the exposition on Sunday, and it was agreed to, 25 to 17.

On motion of Senator Mitchell the 16th section of the bill appropriating \$250,000 for the building of a permanent memorial to Lewis and Clark was stricken out.

The bill was then passed.

Hunters Fined.

A. W. Nye, deputy game warden for Eastern Oregon, came to Heppner Monday to investigate the reports that have gained circulation of the unlawful killing of deer in the Blue mountains south of Heppner, says the Heppner Gazette. Mr. Nye went to work immediately and with the help of Deputy District Attorney Woodson and Sheriff Shutt, the result is that 13 warrants were issued and 12 men have already been arrested and fined. A warrant is out for the arrest of E. Roberts, in whose possession a number of skins were found.

Waived Preliminary.

After consulting with their attorney, says the East Oregonian, it has been decided by Judge G. A. Hartman and Joe H. Parkes to waive their preliminary hearing in the case brought against them and others by the government, charging conspiracy to defraud the government, and this morning both of the gentlemen furnished bonds in the sum of \$2000 each to insure their appearance before the federal grand jury when it meets in Portland. It is thought the jury will meet some time during the next month.

Tournament in May.

At the meeting of the Athena Rod and Gun Club Tuesday evening, the members decided to hold the annual shooting tournament for this year sometime during the month of May. Dr. A. B. Stone, Chas. Gay and F. B. Boyd were named by President Flammendon to serve as committee on arrangements.

Pioneer Dies.

Harry Morse, a pioneer of Eastern Oregon, died at his home in Froward Sunday night after a lingering illness of 12 years' duration. He was widely known all over the county and had lived for many years in Oregon. His death, although having been expected for many years, came rather sudden and he passed away very quietly.

A Devastated City.

Baltimore is beginning to realize the extent of the great disaster. On every hand the signs of misfortune are visibly read. At a meeting of insurance representatives the loss was estimated at \$125,000,000, and the insurance at \$90,000,000.

After Twenty Months.

John L. Cox the Camas Prairie stockman, who had his back broken in a runaway 20 months ago, died Sunday morning at the home of his sister in Washington, D. C.

FOR POWER PLANT

THE APPROPRIATION NOTICE WAS FILED MONDAY.

Will Furnish Electricity for Towns of Pendleton, Walla Walla and Intermediate Points.

Notice of appropriation for the big electric power plant was filed Monday in the office of County Recorder Folsom, says the Pendleton Tribune. The filing of the notice and appropriation of the water was made by the Washington & Oregon Water Power company, but is for the use and identical with the Northwest & Electric Light plants both in Pendleton and Walla Walla, and the purpose of the company is to erect this plant in Umatilla county, and to furnish electricity for lighting and power purposes for both Pendleton and Walla Walla and any and all intermediate towns, and perhaps in time extend the field of operation further. In time the same company may construct and operate an electric railway between Pendleton and Walla Walla as they will have abundant power.

The notice of location designates the point from where the water will be taken from the south fork of the Walla Walla river as the center of the southwest quarter of section 10, township 4, north of range 37 east. This would be about 16 or 17 miles due east of the Blue Mountain station. The water then would be conveyed through pipes ranging in size from 80 to 62 inches in diameter for a distance of six miles down the river, discharging the water over the top of a spur of the Blue mountains, giving them a fall of almost any height which they may wish. It is at this point the power plant will be erected, which will generate the electricity for the lighting of the two towns.

It is the intention and purpose of the company to erect this power plant during the coming summer and get it in working order by the first of September, if possible, when the old power plant in this city will be done away with. Pendleton put on the existing circuit. It will then be possible to burn as many lights during the daytimes as during the night and electricity will be furnished for power purposes. Considerable money will also be expended in improving the system in Pendleton and additional lights will be put on the streets.

This company has a capital stock of nearly half a million dollars, and considerable of that amount will be expended this summer in construction work and improvement. The president is Isaac W. Anderson; secretary, R. E. Allen, and Samuel Storvick, manager and acting engineer.

RIGHT OF WAY FOR CANAL.

O. R. & N. Officials and State Commissioners are Negotiating.

Negotiations are still in progress between the O. R. & N. and the state commissioner for right of way for the Cello canal. The two parties are modifying their lines of survey to suit each other's purposes. At Five-Mile Rapids they are endeavoring to reach an agreement whereby the canal will be built near the Columbia river than first intended, and whereby the O. R. & N. can relay its track nearer the river and take out a curve. As soon as the O. R. & N. and the state can determine on lines that will be satisfactory to each party, they will take up the question of damages which the railroad will suffer from the canal.

The commissioners are negotiating also with other owners of land, and hope to reach a settlement with them soon. It is now known that there is sufficient room for the O. R. & N. tracks the portage road and ship canal at the narrowest points.

Masons Build.

Work will be commenced on a Masonic temple for Walla Walla to cost from \$20,000 to \$30,000 as soon as the building committee secures a suitable site. The structure will be a two-story brick, possibly lighter, and will probably be located on Alder street as three of the sites under discussion are on Alder street.

Nearly Forfeits His Life.

A runaway almost ending fatally, started a horrible ulcer on the leg of J. B. Orner, Franklin Grove, Ill. For four years it defied all doctors and all remedies. But Bucklen's Arnica Salve had no trouble to cure him. Equally good for burns, bruises, skin eruptions and piles. 25c. at A. B. Wood's drug store.
