ATHENA, APRIL 29, 1904

The good people of Portland, headed by some of the most prominent citizens in all walks of life, are about to inaugurate a crusade against vice. The papers of the metropolis are teeming with articles on the subject and long editorials tell how "to save the young." Gambling places and the denizens of White-chapel are to be cleaned out bag and baggage. The leading spirits in the movement say that this crusade is to be conducted on different lines from any other. Absolute proof is to be offered of every individual crime and evil sought to be eradicated. Similar movements have been started in other cities east and west. Similar movements have met defeat in the past, but the character of the crusade now being waged lends belief that right and purity can accomplish something. It is understood that such a movement will be started in Baker City in the near future, and that this wide open mining camp will, metaphorically speaking, be put in a straight jacket. It remains to be seen whether the church people and leaders here have the courage of their convictions or not. —Baker City Democrat.

Sunday will be a great day in Athens for church people. The event will be the dedication of the beautiful new Methodist Episcopal church building, and a large number of visitors from abroad will be here. In the long chapter of church work in this city the dedicatory exercises on this occasion will be one of more than local interest. Every Methodist congregation in Eastern Oregon and Washington is interested in the dedication of the splendid edifice, for the reason that it stands as a monument to the spirit of progress in the work of Methodism.

The development already made is sufficient to justify Kansas in the claim that she now has one of the largest oil fields in the world. Every day is extending the limits of that field. There are strong indications that counties on its borders, and detached from it will eventually be brought within the producing area. The discoveries in Indian Territory and the Osage reservation indicate that there are well defined trends or connecting pools extending indefinitely toward the south. No limit can yet be placed upon the possibilities.

Governor McBride is a thorn in the side of the corporationists in Washington. He has captured several county conventions, but his most important scoop was when he rounded up the republicans at Spokane and got a delegation to the state convention that is favorable to his renomination. McBride will hardly be the nominee of the republicans of Washington for governor, but will give the opposition a run for their money.

Dandelions are becoming a great hindrance to lawn making in Athens. The nuisance of this obnoxious plant is becoming more manifest each successive year. Apparently the custom of applying the knife to the dandelion root has no blighting effect that is noticeable. On the contrary some aver that the practice tends to increase the size of the plant. A pinch of salt administered after the plant has been cut is claimed to be the only effectual method of destruction.

The fire that wiped out the business section of Toronto last Wednesday was beyond doubt one of the most destructive ever known. The Toronto Daily

Star estimates the total loss to have been \$15,000,000. The heaviest individual loser is W. R. Brock & Co., who had property destroyed valued at \$700,000. The insurance companies had risks ranging from a few thousand to half a million.

A Harvard professor says college students are singularly lacking in imagination. But some of the professors seem overstocked with it, so the supply is about normal after all.

Now the fashion editor says that no self-respecting woman will try to get along without a new hat for every month in the year. This is too much.

"Show me your garden and I will show you what you are like," says Alfred Austin. By jingo, we'd like to see Alfred's.

As Colombia has reduced her standing army from 11,000 men to 5,000 this country may breathe easier.

A Great Sensation.

There was a big sensation in Leesville, Ind., when W. H. Brown, of that place, who was expected to die, had his life saved by Dr. King's New Discovery for Consumption. He writes: "I endured insufferable agonies from Asthma, but your New Discovery gave me immediate relief, and soon thereafter effected a complete cure." Similar cures of consumption, pneumonia, bronchitis and grip are numerous. It's the peerless remedy for all throat and lung troubles. Price, 50c. and \$1. Guaranteed by A. B. Stone, druggist. Trial bottles free.

Is a black stallion 16 hands high, and weighs 2200 pounds. He is now five years old and is the handsomest stallion in the Northwest. He won first prize in standard bred class at the Walla Walla county fair in 1902. He has every quality of an ideal trotting bred stallion, being large, good bone, good head and a well-formed body. He has action, determination and disposition that will make him a trotter. He combines the best blood lines on the trotting turf. Don't breed your mares before seeing this handsome young stallion. He will make the season of 1904 at the J. A. Baddeley Stock Farm and at Athens, Oregon.

Drying preparations simply develop dry catarrh; they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, fumes, smokes and snuffs and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. A trial size will be mailed for 10 cents. All druggists sell the 50c. size. Ely Brothers, 56 Warren St., N. Y.
The Balm cures without pain, does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation. With Ely's Cream Balm you are armed against Nasal Catarrh and Hay Fever.
