### AGENTS AND THEIR PRICES.

We would impress these two things upon your minds: 1st, the dealer cannot afford to be crooked with you—he expects to sell you more goods right along. Second, the up to date dealer does and can afford to give you more for your money than the man on the wagon can afford to give you. It costs close to \$20 per machine on an average, to sell Sewing Machines from wagons. We formerly thought differently, but three years trial with the best men we could get convinced us that this is very nearly correct. This is about four times what it costs us to sell them from the store, even if we do have to pay taxes, chip in on Fourth of July celebrations, fairs and the hundred and one things needed to build up the community. We have good reason to believe that ranges cannot be sold from wagons at much smaller expense than sewing machines. This in most cases is more than our selling expense and profit combined. 'Tis said that "Distance lends enchantment to the scene," but not so when things go wrong, as they are bound to now and then. The dealer is in easy reach, and such matters are easily and quickly rectified. We know we are in a position to save you money on both machines and ranges and yet give you goods that are Really Superior to those sold from wagons. When Mr. Peddler comes, see what he has, get his price and then put him off until you can investigate. This costs you nothing—will save you money. If you don't think we are all right after you have seen our goods and learned our price, you can still buy the other fellow's goods, but you will not if you see what we are doing.

#### BUCK'S STEEL RANGE

has no equal. That's not mere talk, but facts. If you will give us a chance to show you the range, you will agree with us. Costs nothing to look, and less than peddler's prices should you decide to buy.

#### DAVIS VERTICAL FEED SEWING MACHINE

Our price for drop head style complete with all attachments, instruction book and accessories is.....\$28.50

#### WHEN YOU COME TO WALLA WALLA

always remember that you are welcome to make this store your headquarters while in town. Welcome to our rest rooms, to use our phone, to write letters, to meet your friends—in short, to make yourself at home. If you can't come to town, but would like to know about anything, remember our mail order department is at your disposal, and any inquiries you may make will be answered promptly.

### LIVELY WON MINES

SUCCESSFUL IN LITIGATION FOR MINING STOCKS.

He Is In Absolute Possession of Over 1,000,000 Shares of Fargo and 136,000 of Eureka.

L. D. Lively, who is located at Lewiston, has won his big mining suit. For some time he has been in litigation with the Eureka Mining Co. and with the Fargo Mining Co.

In the Fargo suit over a million shares of stock was involved and in the Eureka 136,000 shares was sued for by Mr. Lively. In winning the suit he is now in absolute possession of the stock. The mines are a gold and copper proposition and are located on Snake river near the mouth of the Innaha. J. W. Smith has valuable property adjoining the mines mentioned.

#### Magnitude of Power Plant.

Milton, June 4.—Five miles of pipe line carried along the face of a bluff in places over 1000 feet high, involving cuts 20 feet deep through solid rock and bridging deep ravines on trestlework 50 feet high; a head of water 360 feet, perpendicular height, and flowing through a pipe 36 inches in diameter at the wheel, an auxiliary reservoir blasted out of the crest of a knoll, and the possibility of developing 3000 horse power, or in cases of emergency, even more, and transmitting it to a distance varying from 6 to 35 miles—these are some of the factors of the enterprise well on its way to completion by the Washington & Oregon Power Co., whose power plant is now under construction six miles above this city on the Walla Walla river.

#### Walla Walla Singfest.

The Walla Walla Maennerchor has decided upon a date for their annual picnic. It will be Sunday, June 13, and will be held at the Walla Walla fair grounds. The committees are now at work arranging for the event, which they promise to be the biggest one ever given under the auspices of the society.

## DEMOCRATS WILL GET THEIR SHARE

Taylor, Strain, Chamberlain and Blake-ly Safe—Hartman Stand Chance of Beating Bean Out.

It is reasonably certain that the democrats have elected Chamberlain and Blakeley on the legislative ticket. The race between Hartman and Bean is remarkably close and it may take the official count to determine the result. Taylor for sheriff and Strain for assessor are elected over their opponents by sweeping majorities. Raley is probably defeated by Phelps, of Morrow county, for district attorney, though the majority will be small. Botkin, republican, and Henderson, are having a tussle for coroner. Incomplete returns give every indication of the certain election of four democrats and a fighting chance of others winning.

Election day in Athena closed in a whirl of interest and excitement. In the forenoon interest apparently lagged, but under the surface, work of the indomitable kind was being done. Gradually local option became the lively issue. Favorite candidates seemed to be entirely lost sight of, and excited men discussed local option to the exclusion of all else save voting the democratic ticket.

Local option carried in both precincts and while it was a surprise to many, to others the success of the issue was a foregone conclusion. The vote in South Athena precinct was 46 for and 27 against local option; in North Athena precinct 118 for and 99 against.

### DITCH IS COMPLETE

BROWNELL WILL IRRIGATE LAND AT UMATILLA.

Will Turn on the Water and Will Seed Many Acres to Alfalfa Which Does Well There.

Pendleton, June 6.—D. C. Brownell, the pioneer and veteran irrigator of Umatilla, just completed a new ditch above his tract of land near Umatilla and after hay harvest will turn the water on the tract and seed it to alfalfa and barley. The new ditch is now in readiness for the water, a large culvert having been built under the O. R. & N. track, near the gravel pit at Umatilla, and the sandy portion of the ditch having been constructed from clay hauled in from a distance.

The tract of land to be irrigated lies adjoining the town of Umatilla, on the Columbia river, and is adapted to the growing of any kind of fruits or crops known to this climate. Mr. Brownell hopes to get a first-class crop of alfalfa from the land next year, by seeding it this fall and will sow barley with it to shelter the young alfalfa from the hot sun and wind. He has sufficient water to flood the land from October to May, and with this amount of winter irrigation this land will yield enormous crops of forage and grain.

#### LYNCHING AT WHITEBIRD.

Masked Mob Take Prisoner From Officers and Hang Him.

Thomas Myers, who on May 18 shot and killed George Brownlee and wounded Wallace Jarrett met death Saturday at the hands of a mob near Whitebird. Myers was in the custody of Deputy Sheriff John Seay, who was trying to get him from Whitebird, when they were surrounded by a masked mob who took the prisoner and ordered the officer to turn south and not look back. The members of the mob were masked and were armed with revolvers and Winchester rifles. As soon as the prisoner was out of the hands of the officer the masked men with Myers entirely surrounded started over a low ridge. That was the last seen of Myers or the party but the word was given out that Myers was lynched a short distance from where the party was last seen.

#### BUYING FREEWATER ACREAGE.

Irrigated Tracts Bring From \$150 to \$400 Per Acre.

Freewater, June 6.—Real estate is moving quite actively around Freewater, at prices ranging from \$150 to \$400 an acre for improved, producing irrigated tracts. The inflow from other sections has been steady for many months, and the population of the district tributary to Milton and Freewater is steadily growing.

C. G. Rogers has just sold a 20 acre tract to Geo. Dexter of Wallowa. This acreage is about a mile and a half from Freewater. A. E. Gandy has bought a six and one half acre tract near town from C. S. Andrews. Mr. Gandy is a Kansas man. C. W. Clark, who comes from Grand Ronde valley, has bought 10 acres from M. Martison, paying \$3,000. It is said the purchasers will remain in this vicinity.

#### Great Fields of Barley and Potatoes.

C. M. Pierce, who returned recently from California, is showing some remarkable specimens of barley grown on Victoria Island, owned by W. M. and Henry F. Pierce. The heads are twice as long as those with which Eastern Oregon people are familiar, and the yield from 3000 acres is estimated at 100 bushels per acre. Victoria Island has subsoil irrigation and is very fertile. The barley was sown on potato ground, harrowed in, and then tramped down with bands of sheep—a favorite method of cultivation in that locality. There are also 1600 acres of potatoes on this island—the largest "potato patch" in California and probably in the world. It costs but little to plant these crops, and the owners will reap a handsome profit.—Weston Leader.

#### Cures Old Sores.

Westmoreland, Kansas, May 5, 1902. Ballard Snow Liniment Co.: Your Snow Liniment cured an old sore on the side of my chin that was supposed to be a cancer. The sore was stubborn and would not yield to treatment, until I tried Snow Liniment which did the work in short order. My sister, Mrs. Sophia J. Carson, Allensville, Pa., has a sore and mistrusts that it is a cancer. Please send her a bottle. Sold by Wm. McBride.

### Athena Decides Celebration

Athena will celebrate on July 4. Sufficient funds are assured to make the celebration a success, the fact having been reported to Mayor Taylor, by Mr. Wells, Chas. Gay and Ed Manasse, committees on finance. The mayor will shortly call the committees together, when plans of entertainment will be

formulated. The committee on general arrangements is composed of A. M. Gillis, Wm. Mosgrove, Dr. J. D. Plamondon, Sam Booher, Dr. A. W. Botkin and Alf. Johnson. David Taylor will be president of the day and H. A. Barrett, marshal of the day. The big, flashy posters of announcement will be sent over the county at once.
