### DESCHUTES SETTLERS' ASSOCIATION BEFORE LAND BOARD

#### State Land Board Has Lively Session Methods of Irrigation and Power Co. are Discussed.

Their eyes opened to the conditions surrounding their settlement in the Deschutes irrigation district through the publication of the proceedings had before the state land board, in the adjustment of the differences between the Deschutes Irrigation and Power company, and the state engineer, in which the latter demanded that the company be required to establish and submit a set of rules, in accordance with the provisions of the Carey act before he would consent to approve applications for patent to alleged reclaimed arid lands, the Deschutes Settlers' Association, recently formed, appeared by counsel before the state land board at Salem Tuesday afternoon and entered a vigorous protest against the manner in which the irrigation company is binding them down to contract without legal recourse in case the provisions are in any sense violated. The question was argued animatedly until late in the afternoon, when further consideration was postponed until the irrigation company can be represented by legal counsel, which will probably be a week hence.

The difficulty arises between the settlers and the irrigation company in the discovery that, through the alleged misrepresentations of the company's representatives in submitting that the form of application for the purchases of land which was approved by the state land board as provided in the Carey act, when the application blank approved by the land board was supplemented by an agreement on the inside, the effect of which is claimed to deprive the settler of all of his rights in the premises and convert the use of his money to the development of the project, beside the charge of a regular rate of interest on deferred payments.

It was shown that it has been the practice of the company to require the settlers to sign the application and agreement to take the land and make half payment upon it, the balance running for a specified period, bearing interest. The settlers were also required to sign personal notes for the balance of the contract price, which notes, it is represented, had been negotiated for "convenience only," were transferred to a third party, and an issue of so-called collateral trust bonds is being made founded upon a deposit of those notes, which were supposed to be the settler's personal obligations, and free from any and all conditions.

The attorney for the settlers suggested that this was a proper time to require rules to be submitted and approved before application for patent was allowed, that settlers intending to use water may definitely know their rights and status before entering into contract with the company. After patent, under the contract which the settlers are now required to sign, the board would have no authority under the law to require the company to submit its rules and regulations.

#### WILL HELP WALLOWA.

#### O. R. & N. Actively at Work Building Branch from Elgin.

Charles Hood, formerly engaged in farming near Walla Walla, but now an extensive farmer of the Wallowa country, passed through the city yesterday en route home after a visit in Walla Walla, says the Pendleton Tribune.

"It is beginning to look as if we are going to get a railroad into the Wallowa country at last," Mr. Hood said. "The O. R. & N. is actively at work building the branch from Elgin. The road will go through the town of Wallowa where I am now located and we have hopes that it will be constructed to Joseph next year."

"The lack of transportation facilities is all that has retarded the development of the Wallowa country. As an instance, a few days ago I bought 2,000 pounds of fine timothy hay delivered at my barn for \$5.50 per ton. The same hay in Pendleton would have brought from \$12 to \$14. The only market farmers have for their produce is among themselves and the few towns in the vicinity. Once a railroad is completed in that country it is going to boom and land values will double."

#### Few Prisoners at Pendleton.

Only six prisoners are now confined in the county jail. Three are awaiting trial and three are serving jail sentences. This is an unusual record at the opening of the superior court.

#### Like Finding Money.

Finding health is like finding money—so think those who are sick. When you have a cough, cold, sore throat, or chest irritation, better act promptly like W. C. Barber, of Sandy Level, Va. He says: "I had a terrible chest trouble, caused by smoke and coal dust on my lungs; but, after finding no relief in other remedies, I was cured by Dr. King's New Discovery for Consumption, Coughs and Colds." Greatest sale of any cough or lung medicine in the world. At McBride's drug store; 50c and \$1; guaranteed. Trial bottle free.

#### WARD OFF DISEASE

By fortifying your system with a reliable blood medicine. An alcoholic stimulant would do more harm and the reaction would leave you nearer complete prostration than ever before.

With stomach and blood in good order you can fight the battle of life successfully against all odds. GOLDEN SEAL, root (Hemodistis), is a famous remedy for dyspepsia, and QUEEN'S ROOT (Siliquaria), has a direct action in promoting the renewal of the blood. Both of these are used in Dr. Pierce's Golden Medical Discovery in such a way, by skillful extraction, combination and solution without alcohol, that their best effects are secured.

Many years of actual practice convinced Dr. Pierce of the value of many native roots as medicinal agents and he went to great expense, both in time and in money, to perfect his own peculiar processes for rendering them both efficient and safe for continuous use as tonic and rebuilding agents.

The enormous popularity of "Golden Medical Discovery" is due both to its scientific compounding and to the actual medicinal value of the ingredients. The publication of the names of the ingredients on the wrapper of every bottle hereafter to be sold, gives full assurance of its non-alcoholic character and removes all objection to the use of an "unknown remedy."

The Original LITTLE LIVER PILLS, first put up by old Dr. J. C. King, R. V. Pierce over 40 years ago. Much imitated, but never equaled. Little pill, Little dose, but give great results in a curative way in all derangements of Stomach, Liver and Bowels.

# PNEUMONIA

follows a cold, but never follows the use of

# FOLEY'S HONEY AND TAR

It stops the cough and heals the lungs and prevents a cold from settling on your lungs and resulting in Pneumonia, Pleurisy, or Consumption.

You are in no danger of serious results if FOLEY'S HONEY AND TAR is taken, as it soothes and heals the inflamed air passages and the cough disappears.

Be sure and get FOLEY'S HONEY AND TAR, as preparations containing opiates stop the cough temporarily by paralyzing the nerves in the throat and leave the germs of serious lung trouble and you get one cold on another because the first one was not cured perfectly.

#### Saved Her Life from Pneumonia.

"My wife had a severe attack of Pneumonia which followed a severe attack of La Grippe and I believe that FOLEY'S HONEY AND TAR saved her life," writes James Coffey, of Raymond, Missouri.

Dr. C. J. Bishop, Agnew, Mich., writes: "I have used FOLEY'S HONEY AND TAR in three very severe cases of Pneumonia with good results in every case."

#### Cured When Very Low With Pneumonia.

J. W. Bryan, of Lowder, Ill., writes: "My little boy was very low with Pneumonia. Unknown to the doctor we gave him FOLEY'S HONEY AND TAR. The result was magical and puzzled the doctor, as it immediately stopped the racking cough and he quickly recovered."
