

CALL A CONVENTION

TURNER WOULD AMEND CONSTITUTION.

Provision Is Made in the Instrument Itself Which Has Never Been Put to Use.

A convention to amend the constitution of the United States, so that many of the reforms and laws demanded by the people may be carried out, is advocated by Judge George Turner, ex-United States senator, who has recently returned to Spokane from Washington, D. C. A provision for the calling of such a convention is made in article V of the Constitution, although never in the history of this country has it been applied.

"I am in favor of having a convention to amend the constitution called," said Judge Turner. "Experience has demonstrated that there are omissions and corrections which it would be wise to regulate.

"In article V of the United States constitution it is provided that 'congress, whenever two-thirds of both houses shall deem it necessary, shall propose amendments to this constitution, or, on the application of the legislatures of two-thirds of the several states, shall call a convention for proposing amendments, which in either case shall be valid to all intents and purposes, as part of this constitution, when ratified by the legislatures in three-fourths of the several states, or by convention in three-fourths thereof, as the one or the other mode of ratification may be proposed by congress.'"

TEETH Ruined by Fake DENTISTS

During the past number of years there has been some residents of this place and vicinity who have been faked, robbed and had their teeth ruined and mutilated by transient quack dentists, who have from time to time swooped down suddenly vulture like in our midst to prey on the innocent. These pretensions, pious, self-styled skilled dentists; but in fact and truth, brazen, dishonest, incompetent quacks whose word and guarantee are valueless, have done fake dental work for some people, and may it be said with hardly a single exception to these trusting, innocent people's sorrow, as in the majority of cases their teeth have been ruined, besides suffering terrible agony and being out of cash, and when the work panned out unsatisfactorily, as was nearly always the case, the grafter was far away preying on other innocent people. Persons contemplating having dental work done who think well of themselves, and wish to get value received for their money, should have no experimenting with their teeth, but should patronize some dental surgeon who has proved himself worthy of confidence and patronage by a permanent residence in a place, and thereby take no chances. I will state that I perform all the latest up to date dental operations, and in conjunction am using my own original painless method to alleviate the suffering of patients. My prices are consistent with good, first class, honest work. I am permanently located here, and my guarantee is, if any work should possibly prove unsatisfactory, return and it will be replaced free of charge.

I defy any knocker to produce or cite a single instance where I have ever failed to keep a contract or agreement during my residence here. If any reader should wish a list of people to consult personally relative to my charges of quackery and who have been faked by fake dentists who have made indefinite stops here, call and I will furnish the same. If you get their own story of their sorrowful experience of suffering, ruined teeth and of having been flim flammed out of hard earned cash, and then in the end having to go to a good, reliable, honest and capable dentist and have the work all done over and right. If you are in need of dental work remember your reliable resident dentist.
