WHAT IS MEANT BY MILL ENDS? WHERE DO THEY COME FROM?

Mill Ends are goods that fall short in length of requirements, for export purposes, but identical in quality, style and design with the pieces, but still, not to be classed with the regular goods. Because they are wanting in length, or a slight imperfection of the weave, careless stitching of underwear, or a thread dropped in hose, these are Mill Ends. None of these slight flaws hurt the wear or looks of the goods to the customer, but they prevent the mills or factory from selling them at a profit. The enormous stock of mill ends we have purchased for this sale are all new goods, fresh from the looms and are offered today at the loom cost. You will never know what loom cost is if you fail to attend this sale, for the prices given

you are but an inkling of the money-saving opportunities offered. You pay two or three times the price for the same goods at any other stores in the country. Below are found just a small portion of the items and prices.

Eight Cases of Mill Ends
