## The Great Driving Wheel

of a locomotive traveling a mile a minute, makes 408,361 revolutions in 24 hours. The tiny balance wheel of a watch makes 432,000 in the same time, and yet we find watches that have been allowed to run five or ten years without cleaning or being oiled. If you have a good watch, treat it as you would treat any other piece of machinery. I do all repairing promptly and to the satisfaction of my customers.
