troubled with a peculiar spasmodic affection of the throat. It would seize me suddenly and for a few minutes I would be unable to speak audibly, and my breath would be greatly interfered with. I would be obliged to gasp for breath.

"I finally concluded that it was some catarrhal affection which probably excited the spasm. It interfered with my vocation as a preacher, attacking me occasionally in the pulpit.

"I had heard so much about Peruna as a catarrh remedy that I determined to try it. After taking two bottles, my trouble has disappeared. I feel sure that Peruna has greatly benefited me."

CONSCRIPTION IN ARMY OR MORE PAY TO MEN

Enforced Service Faces American People, Declares Adjutant General Ainsworth.

Unless radical measures are enacted to induce men to enlist in the United States army, conscription must be resorted to, declares Major General F. C. Ainsworth, adjutant general, in his annual report.

"Notwithstanding the most strenuous efforts on the part of the War Department and the recruiting officers," says General Ainsworth, "it has been found impossible wholly to make good the losses, to say nothing of increasing the enlisted strength to the authorized limit. If present conditions continue there will be nothing for the government to do but meet this competition by materially increasing the soldiers' pay or to evade competition altogether by a resort to conscription."

Never before has such a suggestion, come from an officer clothed with the authority to make recommendations. The idea of compulsory enrollment of individuals for the military service has been held abhorrent to republican principles and the absence of such a law is one of the most forceful arguments used in attracting desirable immigration from Europe.

Officials of the War Department anticipate that the possible necessity for such action outlined by General Ainsworth will prove efficacious in securing consideration by Congress of the increase of pay bill. It is with the greatest reluctance that army officers entertain the thought of conscription, but generally they agree with General Ainsworth that it either must come to that extremity or more money must be provided for the soldier if the standing of the army is to be maintained.

TASTE OF HER OWN MEDICINE

Europe in Sad Straits with Horde of Returning Immigrants.

It is a curious commentary on the economic conditions of the old world that the turn in the tide of American immigration is causing serious trouble in Italy, Austria, Germany, Sweden and Norway. If the industrial conditions of the United States of America threaten to be bad, they are infinitely worse in the countries named. Italy complains the loudest because the situation there is the most serious. Her returning hordes do not bring sufficient money to support them more than a few weeks at most, while many land practically penniless. The authorities there confess themselves unable to deal with the problem.

The Germans, however, are much better provided with money on an average than the Italians. Business conditions in Sweden and Norway are so bad this unexpected influx is truly appalling and much distress is inevitable in the severe northern winter.

RHEUMATISM CAN NOT BE RUBBED AWAY

It is perfectly natural to rub the spot that hurts, and when the muscles, nerves, joints and bones are throbbing and twitching with the pains of Rheumatism the sufferer is apt to turn to the liniment bottle, or some other external application, in an effort to get relief from the disease, by producing counter-irritation on the flesh. Such treatment will quiet the pain temporarily, but can have no direct curative effect on the real disease because it does not reach the blood, where the cause is located. Rheumatism is more than skin deep—it is rooted and grounded in the blood and can only be reached by constitutional treatment—IT CANNOT BE RUBBED AWAY. Rheumatism is due to an excess of uric acid in the blood, brought about by the accumulation in the system of refuse matter which the natural avenues of bodily waste, the Bowels and Kidneys, have failed to carry off. This refuse matter, coming in contact with the different acids of the body, forms uric acid which is absorbed into the blood and distributed to all parts of the body, and Rheumatism gets possession of the system. The aches and pains are only symptoms, and though they may be scattered or relieved for a time by surface treatment, they will reappear at the first exposure to cold or dampness, or after an attack of indigestion or other irregularity. Rheumatism can never be permanently cured while the circulation remains saturated with irritating, pain-producing uric acid poison. The disease will shift from muscle to muscle or joint to joint, settling on the nerves, causing inflammation and swelling and such terrible pains that the nervous system is often shattered, the health undermined, and perhaps the patient becomes deformed and crippled for life. S. S. S. thoroughly cleanses the blood and renovates the circulation by neutralizing the acids and expelling all foreign matter from the system. It warms and invigorates the blood so that instead of a weak, sour stream, constantly depositing acid and corrosive matter in the muscles, nerves, joints and bones, the body is fed and nourished by rich, health-sustaining blood which completely and permanently cures Rheumatism. S. S. S. is composed of both purifying and tonic properties—just what is needed in every case of Rheumatism. It contains no potash, alkali or other mineral ingredient, but is made entirely of purifying, healing extracts and juices of roots, herbs and barks. If you are suffering from Rheumatism do not waste valuable time trying to rub a blood disease away, but begin the use of S. S. S. and write us about your case and our physicians will give you any information or advice desired free of charge and will send our special treatise on Rheumatism.
