

Thousands Are Sick

With the grip, colds, fevers, rheumatism, neuralgia. Many might be well if they had only taken Hood's Sarsaparilla, the great blood purifier and health-regulating medicine. It is a wonderful preventive as well as cure. Keep it in your house and take it.

Never Without Hood's—I have taken Hood's Sarsaparilla for indigestion, and recommend it to others for that complaint. It is an excellent medicine and I keep it on hand. A. S. HEATH, Adams Centre, N. Y.

Kidney Trouble—I had kidney trouble. A friend recommended Hood's Sarsaparilla. I tried one bottle and found I was better, took three more and recovered. BENJ. LEVINE, 80 Village Street, Boston, Mass.

Jaundice—I had a severe case of jaundice and fell from 140 to 90 lbs. in weight. A friend advised taking Hood's Sarsaparilla and when I had taken three bottles was up and on my feet. JOSEPH LEWIS, 19 Alpine Street, Boston, Mass.

Hood's Sarsaparilla is sold everywhere. In the usual liquid, or in tablet form called **Sarsatabs**. 100 Doses One Dollar. Prepared only by C. I. Hood Co., Lowell, Mass.

Macauline Brutality

Mrs. Jenner Lee Oudgo had been compelled to abandon a contemplated trip up the Nile, in consequence of the financial stringency, and was weeping softly. "Crocodile tears," commented her unfeeling husband.

The French government has adopted a method of treating macadamized roads with hot coal tar thinned with about 10 per cent of oil. The cost is said to work out at about eight-tenths of a cent a square yard.

Korea is probably more responsive to missionary effort than any oriental country. A Methodist missionary writes: "It is my honest conviction that had we the proper missionary force Korea would be a Christian nation in five or ten years."

Red seems to be the most popular of national colors, if flags may be used as criterion. Of the twenty-five leading national flags nineteen have red in them. No other color is so much used.

Experiments made by German scientists show that butter keeps best when preserved with from 3 to 5 per cent of salt. If the proportion of salt is higher than that the results are less satisfactory.

What It Is For

Wife—Must you go to the club to-night, dear?
Husband—It isn't absolutely necessary, but I need the rest.—Life.

The Queen of Italy offered an international cup to be presented to the first aeronaut who succeeds in crossing the Alps by balloon.

HOWARD E. BURTON—Assayer and Chemist. Leadville, Colorado. Specimen prices: Gold, Silver, Lead, \$1.00; Zinc, \$1.00; Tin, \$1.00; Copper, \$1.00. Cyanide tests. Mailing envelopes and full price list sent on application. Control and Unbiased work solicited. Reference: Carbonate National Bank.

DWINDLING OF ARMY GIVES CUE TO CRITICS

Military Men Say Force Is Reduced Beyond Point of Safety for the Nation.

NEED OF REFORM IN SERVICE

Low Pay and Requirement of Hard Practice Marches Are Main Points of Attack.

The War and Navy Departments are trying to reach an agreement by which the marines are to be withdrawn from the Isthmus of Panama and two regiments of infantry are to be sent to take their places as guards. It is fully expected that before long two regiments or foot will be on their way to the canal zone. This diverting of army regulars to a new field will mean that the forces in the United States are to be depleted beyond that which officers believe to be the danger point.

The infantry problem is one of the most serious factors in the greater problem of the army's weakness. On paper we are supposed to have 30,000 infantrymen, but in truth we have nothing like that number, and unless the increase of pay bill pass Congress, it is perfectly evident that the ranks will be thinned still further. An army officer who knows conditions tells a Washington correspondent that in a case of emergency there would be less than 7,000 infantrymen who could be brought with anything like dispatch to any threatened point within the limits of the United States proper.

There are two chief army measures now before Congress, one dealing with the matter of the increase of pay and the other dealing with the matter of the increase of the infantry. A correspondent says there is precious little hope that both bills can pass. It probably would be folly to pass the second bill without passing the first, for it would be useless to provide for an increase in the ranks if no adjustments were held out by which the increase could be effected.

Objections to Army Life

Interviews with enlisted men disclose three chief objections to army life, and, in order of numerical precedent, they rank like this:

Monthly practice marches.
Poor pay.
Non-military duty required of the enlisted men.

Some of the ranking officers of the army have inveighed constantly against what they call the folly of the frequent practice marches. The men are kept in fine physical condition and as hard as walnuts through the daily drills, the guard duty, the good food, and the regular living generally. Yet they are compelled at least once a month to hike out on the road under heavy burdens and trying conditions for the purpose of keeping in trim so that they will be ready for the field in case of hostilities. The practice march, fairly long continued and to come at long intervals, has its uses, and the men like it; but they don't like it coming as it does every three or four weeks.

COAL MINE EXPLOSION

New Theory Advanced as to the Conditions Producing Them.

Experts who have made investigations of the recent mine disasters, notably those of Monongah and Jacob's Creek, have come to the conclusion that the explosions are caused by climatic conditions.

Supporting the position taken, it is a noticeable fact, they say, that the recent catastrophes have occurred at about the same hour in the day, in a zone of certain altitude, in about the same longitude and in places where climatic conditions are similar. The majority of the mines operated today are below the level of the streams in the same sections, and, owing to the moisture, the outside air forced into the mines by the fans has been laden with carbon dioxide moisture and other impurities.

It is suggested that if the air forced into the mines was gathered from a higher stratum and was heated sufficiently and otherwise treated to remove the impurities the accidents would be less numerous during the change of seasons. Proper ventilation with this purified air, it is believed, will remove to a great extent the coal dust and explosive gases which are found to a certain extent in every mine.

The Nation's Inventory

National assets, \$1,500,000,000,000.
Farm wealth, \$7,412,000,000.
Mineral production, annually, \$3,000,000,000.
Export domestic merchandise, annual, \$1,853,718,000.
Manufacturing products, annually, \$14,802,147,000.
Live stock, total value, \$4,875,000,000.
Seven cereal crops, 1907, \$2,378,000,000.
Wheat crop, 1907, \$500,000,000.
Cotton crop, 1907, \$675,000,000.
Corn, 1907, \$1,250,000,000.
Hay, 1907, \$690,000,000.

The Jar of Coughing

Hammer blows, steadily applied, break the hardest rock. Coughing, day after day, jars and tears the throat and lungs until the healthy tissues give way. Ayer's Cherry Pectoral stops the coughing, and heals the torn membranes.

"I always keep Ayer's Cherry Pectoral in the house. It gives perfect relief whenever any of us have coughs or hard colds. I have used it for a great many years and so know all about it."—Mrs. MARY GOSWELL, Vassarburg, N. Y.

Ayer's
SARSAPARILLA PILLS.
MADE BY J. C. AYER CO., LOWELL, MASS.
Also manufacturers of
SARSAPARILLA PILLS.
HAR VIGOR.

Biliousness, constipation retard recovery. Cure these with Ayer's Pills.

Its Lasting Effect.
"Rippling, did you ever convert anybody to your way of thinking by your street corner oratory?"
"I know of one, anyhow, and it made a changed man of him."
"What is he doing now?"
"He's in the insane asylum. Ruggles; in the insane asylum. A glimpse of the truth was too much for his modernized intellect."

Rocky.
Tenderfoot—I hear you have started up a new quartz mill. How are you doing with it?
Mine Owner—Gneissily, thank you.

Opinion of a Connoisseur.
"Mr. Spoonamore, don't you think a kiss 295 seconds in duration is a great deal too long to be agreeable?"
"Well, that depends entirely on the desirability of the kisser."

PILES CURED IN 6 TO 14 DAYS.
PAZO OINTMENT is guaranteed to cure any case of Itching, Burning, Bleeding or Protruding Piles in 6 to 14 days or money returned. 50c.

Have You?
The new ten-dollar gold piece has arrived. And we got one in our clutches by a squeeze.
Have you noticed that the breeches on the turkey on the coin
Are considerably baggy at the knees?
—Houston Post.

Probable Outcome.
Chronic Kicker—What do you suppose would happen to your boasted fleet if it should get into a real battle?
Phlegmatic Citizen—O, I suppose we'd get licked—same as we've always been.

Sprains.
Any sudden turn or twist which may throw a member out of its normal position is likely to cause a sprain, which is really a sudden and more or less serious wrench or twist of a ligament or of the muscles controlling the ligaments. Use hot water for bathing the sprain; dry the surface and apply St. Jacobs Oil as for soreness and stiffness.

Reduction.
The old nag was jogging up the hill with the elopers.
"Yes," said the old nag, "it is rather tough pulling them up to the parsonage, but it will be easier coming back."
"How so?" queried the friendly goose at the roadside.
"Why, can't you see that after leaving the parsonage two will be made one?"—Chicago News.

How's This?
We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.
F. J. CHENEY & CO., Toledo, O.
We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligation made by his firm.
WALLING, KINMAN & MARVIN,
Wholesale Druggists, Toledo, O.
Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists. Take Hall's Family Pills for Constipation.

His Personal View of It.
Admiral Constituent—Senator, you have your own opinion of this currency question, haven't you?
Senator Lottman—Yes, sir, and I suppose I have answered it hundreds of times. It's nobody's business how a man gets his currency.

Austrian mines are provided with rescue chambers at convenient locations underground. They are equipped with food and conveniences for miners in case of accident.

Syrup of Figs and Elixir of Senna
acts gently yet promptly on the bowels, cleanses the system effectually, assists one in overcoming habitual constipation permanently. To get its beneficial effects buy the genuine.
Manufactured by the **CALIFORNIA FIG SYRUP CO.**
SOLD BY LEADING DRUGGISTS—50c per BOTTLE

POULTRY RAISING IN OREGON.

Extracts From Oregon Experiment Station Bulletin.

The climate of Oregon from a poultryman's standpoint is discussed by James Dryden in Bulletin No. 96 of the Oregon Experiment station which has recently been published. Among other things the writer says:

It is of course worth considering by the man looking for a location whether Western Oregon with its open winters and freedom from snow and zero temperatures does not offer opportunities for the production of eggs and poultry that are not found in Eastern and Middle West states. That poultry thrive in cold sections where snow and zero weather prevail is not to be denied, but the labor and expense of caring for them is undoubtedly greater there. To secure an egg yield in winter where the climate is severe entails more expense for housing and more care in the feeding. It is probably true that the smallest profits are made during the winter months though the prices are very much higher than in spring and summer, because the egg yield is so small from the average flock as to leave little or no margin of profit. It is also true that the egg yield is quickly affected by changes in the weather, especially in the temperature. A sudden change from mild to cold weather means a certain check in the egg production, and although the weather soon moderates it will often take several weeks before the egg yield gets back to where it was. The only way to prevent this is to provide housing that will protect the fowls from too sudden changes in temperature. This entails more expense in housing and consequently diminished profits, but what is of more importance is the highly artificial conditions that it necessitates.

It would appear therefore that there are certain advantages that this state possesses over sections of the country where zero weather and snow prevail. First, a milder climate and less severe changes in temperature than is characteristic of Eastern states. Second, in sections of the state with no snowfall the poultry can range over the fields and find animal food and green food which are often hard to get where the snow covers the ground. The heavy rainfall of Western Oregon, and small percentage of sunshine may be set down as a disadvantage, but when the nature of the rainfall is understood it is doubtful whether it is very much of a detriment. Owing to the moderating influence of the Pacific ocean these rains are warm and have not the chilling effect of the rains in Eastern states. The temperature of Western Oregon in the winter months is usually higher when it rains than when the sky is cloudless, and the fowls will usually be found out in the rain except when it is very heavy, which is not often the case. One poultryman in Marion county said to the writer in November, before the rainy season set in, that he wished it would rain, because, he said, his hens laid better when it rained. The explanation of this, if it is true, may not be in the rain itself, but in the fact that it brings to the surface many angleworms, which supply the lack of animal food in the ration.

Turkeys are successfully raised in Oregon, and turkeys are known to be easily affected by rain, but the fact that the rains are warm no doubt largely accounts for the success in turkey raising in this state. Douglas county in Oregon produces several times more turkeys than the state of Rhode Island, noted for turkeys. Another thing in favor of the mild climate and freedom from snow is that the fowls are able to secure practically the year round all the green food necessary in the fields. And finally, the fields in their search for food in the fields get the exercise which is necessary for it is worthy of mention in this connection that the largest special poultry district in the United States is found in Northern California, that has no snowfall. That district is somewhat similar to that of Western Oregon, with its open winters, mild and humid climate and meanness to the ocean.

My investigations of the poultry industry of Oregon have been confined to the western part of the state, the region west of the Cascade mountains. This section at the present time produces more poultry products than the larger area of the state east of the Cascades. As the agriculture of Central and Eastern Oregon becomes developed we may expect greater development of poultry-keeping, and probably in time that great agricultural area may produce more poultry products than the older section of the state in Western Oregon. The climatic conditions are different east of the mountains, the heavy rainfall is absent and snow covers the ground during part of the winter. The climate there is more characteristic of the Rocky mountain region, though no such severe weather prevails as in the Middle and Northwestern states. If it should prove that a dry climate with plenty of sunshine but lacking the severe winter changes of temperature of the East is the ideal one for poultry, we may expect a great growth of the poultry industry east of the Cascades in Oregon. Undoubtedly on the grain ranches of Central and Eastern Oregon where food is cheap there is opportunity for great profit in poultry raising.

Danish Macaroni Salad.
Break one-fourth pound of macaroni into 2-inch pieces, cover with a quart of cold water, salted, and boil briskly until tender. Whip a half-pint of whipping cream, mix with one-half as much boiled salad dressing, season and add vinegar or lemon juice to taste. Mix the macaroni with this heap in center of round dish and garnish with a border of hot boiled fish, or of overlapping slices of cold meat.

SKIN DISEASES HUMORS IN THE BLOOD

When the blood is pure, fresh and healthy, the skin will be soft, smooth and free from blemishes, but when some acid humor takes root in the circulation its presence is manifested by a skin eruption or disease. These humors get into the blood, generally because of an inactive or sluggish condition of the members of the body whose duty it is to collect and off the waste and refuse matter of the system. This unhealthy matter goes to sour and ferment and soon the circulation becomes charged with the poison. The blood begins to throw off the humors and acids through the pores and glands of the skin, producing Eczema, Acne, Tetter, Psoriasis, Salt Rheum and skin eruptions of various kinds. Eczema appears, usually with a slight redness of the skin followed by pustules from which there flows a sticky fluid that dries and forms a crust, and the itching is intense. It is generally on the back, breast, face, arms and legs, though other parts of the body may be affected. In Tetter the skin dries, cracks and bleeds; the acid in the blood dries up the natural oils of the skin, which are intended to keep it soft and pliant, causing a dry, feverish condition and giving it a hard, leathery appearance. Acne makes its appearance on the face in the form of pimples and black heads, while Psoriasis comes in scaly patches on different parts of the body. One of the worst forms of skin trouble is Salt Rheum; its favorite point of attack is the scalp, sometimes causing baldness. Poison and Ivy are also disagreeable types of disease. The humor producing them lies dormant in the blood through Winter to break out and for sufferer with the return of Spring. It neutralizes the acids and removes humors so that the skin instead of irritated and diseased, is nourished with a supply of fresh, healthy blood. External applications of salves, washes, lotions, etc., while they soothe the itching caused by skin affections, can never cure the trouble because they do not reach the blood. S. S. S. goes down into the circulation and forces out every particle of foreign matter and restores the blood to its normal, pure condition, thereby permanently curing every form of skin affection. Book on Skin Diseases and any medical advice desired sent free to all who write. S. S. S. is for sale at all first class drug stores.

I suffered with Eczema for forty years and could find nothing to cure me until I tried S. S. S. I suffered intensely with the itching and burning pustules would form from which there flowed a sticky fluid; crusts would come on the skin and when scratched on the skin was left as raw as a piece of beef. I suffered agony in the long years I was afflicted, but when I used S. S. S. I found a perfect cure. There has never been any return of the trouble since.
C. H. EVANS,
Stockman, Neb.

PURELY VEGETABLE
because they do not reach the blood. S. S. S. is for sale at all first class drug stores.
THE SWIFT SPECIFIC CO., ATLANTA, GA.

An Oversight.
"I want to pay this bill," he said at the hotel bar, "but I think you have made a slight error here in my favor. I've been reading over the extras, and I cannot find that you have charged anything for telling me you thought it might rain."

Wayside Commings.
Wareham Long—Wot started the hard times, anyway?
"Tufold Knutt"—We did, ye ole fool. We was sufferin' with 'em long 'fore anybody else caught 'em.

Only One "BROMO QUININE."
That is LAXATIVE BROMO QUININE, L. for the signature of E. W. GROVE. Used World over to Cure a Cold in One Day.

Neighborly Cordiality.
Mrs. Gaddier (rising to depart)—W, you must come and call on me some day, it's your own now.
Mrs. Chillicothe—Kearney—Yes; I it has been my turn for the last five or six times, hasn't it?—Chicago Trib.

He Dodged.
"So Borroughs owes you money. Well, I think he'll pay you back some day, but you can't make him hurry."
"Don't you believe it. The mere sight of me walking along the street has made him hurry several times lately."—Philadelphia Press.

Most Direct Route.
"How did your husband get out of the building after he had located the leak?" asked the reporter.
"As nearly as he could remember it afterward," said the woman, "he went out through the roof."

Recognized His Fattling.
Woman of the House—A big, strong fellow like you ought to be willing to work and earn his own living.
Languid Launcelet—That's wot ails me, ma'am. Me muscles is all right, but me will power is all gone.

Name Had Escaped Her.
"Professor," said Mrs. Gaswell to the distinguished musician who had been engaged at a high price to entertain her guests, "what was that lovely selection you played just now?"
"That, madam," he answered, glaring at her, "was an improvisation."
"Ah, yes, I remember now. I knew it was an old favorite, but I couldn't think of the name of it, to save me."

Short-Sighted.
"Why don't you farmers do something to improve your roads?"
"What for?" asked the old settler.
"It would improve the value of your farms."
"Yes; and the more value we get up, the more taxes we might have to pay."—Washington Star.

Solitude.
"Cyru," hastily exclaimed Mrs. Jymes, "you ought to be careful how you let Fido eat out of your hand!"
"Why, there isn't a bit of danger," said Mr. Jymes. "He wouldn't harm a fly."
"O, I know there's no danger to you," impatiently rejoined his wife. "I was thinking of Fido."

Couldn't Take the Job.
An inland graduate came to New York to seek employment. Through a friend he received an offer of a place as shipping clerk to a certain firm. In reply he wrote as follows: "I regret that I cannot accept your kind offer of a position as shipping clerk, but the fact is that I am always sick when on the water."—Success Magazine.
