

Women Worry

More than men, says Dr. McComb, and one reason is that their nervous organizations are more delicate. True, and Hood's Sarsaparilla is just the nerve-builder, appetite-giver, and blood-purifier they need.

Indigestion 3 Years—"I was troubled with indigestion for three years. I read of Hood's Sarsaparilla and tried it. After taking a number of bottles I was completely cured."

Nervous, In Pain, No Appetite—"Had poor health for years, pain in shoulders, back and hips, with constant headache, nervousness and no appetite. Took Hood's Sarsaparilla, gained strength and can work hard all day, eat heartily and sleep well."

Rheumatism—"I had rheumatism in one of my ankles, but Hood's Sarsaparilla soon gave me permanent relief. I recommend Hood's Sarsaparilla."

Hood's Sarsaparilla is sold everywhere. In the usual liquid, or in tablet form called Sarsatabs. 100 Doses One Dollar. Prepared only by C. I. Hood Co., Lowell, Mass.

It Surprised Her. "When my husband was in Spain last year," said Mrs. Swellman, "he succeeded in buying in quite a lot of the king's wines."

"Well, well," exclaimed Mrs. Nutt, "the idea of buying second-hand wines!"—Philadelphia Press.

PILES CURED IN 6 TO 14 DAYS. PAZO OINTMENT is guaranteed to cure any case of itching, blind, bleeding or protruding Piles in 6 to 14 days or money refunded. 50c.

Uncle Allen. "Not mentioning any names," said Uncle Allen Sparks, "I've noticed that the only effect an exalted position seems to have on some men is to make them light-headed. They can't stand the rarefied atmosphere."

St. Vincent's Dance and all Nervous Diseases permanently cured by Dr. Kline's Great Nerve Restorer. Send for FREE 12 trial bottle and treatise. Dr. R. H. Kline, Ltd., 501 Arch St., Phila., Pa.

Professors Honor. "Well, what do you want?" the professor asked, "As he eyed the intruder with doubt. 'I'm just a loafer,'" answered the hyphen. And the professor hustled him out.—Chicago Tribune.

How's This? We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Toledo, O.

WALDING, KINNAN & MARVIN, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is "then instantly acting directly upon the blood and mucous surface of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists. Take Hall's Family Pills for Constipation.

Stung! A tired feeling once Came over the busy bee. 'Twas when a budding post Rhymed it with via-via.

Good Judges Americans as judges are keenly discriminating. They measure everything by the success it attains, which method, considered in the light of the common experience of mankind, is certainly not a bad one.

Not the Same. "I suppose you have been pinched by penury?" "No, mum; the cop's name was O'Brien; he's Irish."

PROTECT YOURSELF! Every-day Legal Knowledge for you. Liberal examination privilege—no charge. No obligation. Buy at once. Premium of an invaluable labor and money saving CALCULATOR FREE.

MANY NEW "HELLO" JOBS OPEN FOR WOMEN

Railways Are to Use Phone in Place of Telegraph After March 1.

OPERATORS TO BE LET OUT. Block Signals Also Will Be Installed and Many Small Stations Closed.

A new field of employment for women is to be opened by the railways. This does not mean that the roads will employ women telegraphers, but on the contrary their employment will be for the purpose of taking the place of telegraphers already in the service.

The future woman railway operating employ will be engaged at the smaller stations taking train orders over a telephone, where formerly such orders were transmitted and received by telegraph.

This new field will be open to women when the new nine-hour day law governing the working time of railway telegraphers goes into effect on March 1.

It was confidently expected that this law would work a revolution in railway operation, and it was with this end in view that the Order of Railway Telegraphers procured its passage despite the determined opposition of the railway managers and even against advice direct from the White House.

The revolution is coming, all right, but it will be a revolution which will relegate the telegraph to a back seat as an adjunct to railway operation and will throw thousands of operators out of employment and annually will decrease their number until they will almost disappear from American railways.

It was expected that the reduction in the working hours of railway telegraphers to nine hours would compel the railroads to employ at least 8,000 additional men at once. It was also known that it would be impossible to secure this number of men when needed, and it was therefore hoped by the men that an increase in wages would be a part of the revolution planned.

Changes to Result. The railway managers at first took a similar view of the situation, but it soon was discovered that it would be impossible to supply the demand if all existing telegraph offices were to be maintained after March 1.

As a result of a careful study of the situation the nine-hour day for telegraphers will bring about the following changes:

1. The abandonment of all stations as telegraph stations except division headquarters and junctional points.

2. The substitution of telephones for the receipt and the transmission of orders and messages.

3. The employment of women as agents in many stations thus transformed into telephone stations.

4. The transaction of a tremendous amount of office business by letter which formerly was transacted by telegraph.

5. The rapid extension of the automatic electric block signal system, which will make telegraph stations unnecessary.

In determining to inaugurate these changes the railway managers found that they had in reality been preparing for them for years. It was discovered also that by adopting the most expensive system of block signaling train orders and telegraph stations could for the greater part be done away with.

The railroads, therefore, decided that they would rather spend millions in providing and maintaining automatic block signals which never go to sleep and which never fail unless they spell "danger," than to spend the same money in maintaining telegraph stations and telegraph operators.

The closing of stations as telegraph stations is made possible by the fact that with an automatic electric signal all that is necessary is to start trains as fast as the terminal block is empty and keep them going until a semaphore says "stop."

Surgeon's Knife Cures Headache. After suffering excruciating pains in his head for twenty-five years, Louis Wolfson of Cincinnati has secured relief by having the surgeons cut out two nerves. The pain was above the eyes and at the temples and recurred four or five times a week.

He had consulted the leading specialists, tried medicines, various forms of massage and electrical treatment in vain. The two offending nerves, one on each side, were between one and two inches long and about as thick as a pin. They are termed sensory nerves—that is, nerves which give the sense of feeling and not control of the movements of muscles. The headaches have not returned since the operation. Local surgeons say this is the first case of the kind on record.

Bonds Find Ready Market. Of the \$30,000,000 of equipment trust bonds of New York Central lines recently offered for public subscription \$24,000,000 was taken the first day. They were offered at prices to yield from 4 to 5% per cent. It is understood that several millions of these certificates were placed abroad.

Impromment for the manipulators of trust funds is the recommendation of E. E. Rittenhouse, commissioner of insurance for Colorado, in a report of the investigation of the Provident Savings Life Assurance Society of New York.

A Doctor's Medicine

Ayer's Cherry Pectoral is not a simple cough syrup. It is a strong medicine, a doctor's medicine. It cures hard cases, severe and desperate cases, chronic cases of asthma, pleurisy, bronchitis, consumption. Ask your doctor about this.

"I have used a great deal of Ayer's Cherry Pectoral for coughs and hard colds on the chest. It has always done me great good. It is certainly a most wonderful cough medicine."—MICHAEL J. FITZGERALD, Medford, N. J.

Made by J. C. Ayer Co., Lowell, Mass. Also manufacturers of Sarsaparilla, Pills, Hair Vigor.

You will hasten recovery by taking one of Ayer's Pills at bedtime.

The Niagara Limited. "Where are all those honeymoon parties?" exclaimed the reporter as he hurried into the station. "Are they gone?" "Yes," laughed the station master as he pointed to the turtle doves in the waiting room, "far gone."

Only One "BROMO QUININE." That is LAXATIVE BROMO QUININE. Look for the signature of E. W. GROVE. Used the World over to Cure a Cold in One Day. 25c.

His Interference. Clittiman—Look here, sir, didn't you warrant the horse you sold me yesterday to be without fault? David Harum—Yes. Ain't he? Clittiman—No, sir, he is not. He interferes. David Harum—Waal, I don't see as you hev any reason for complaining about that. He don't interfere with anybody but himself, does he?—Lippincott's.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Said She—You men seem to be fond of hugging delusions. Said He—Well, we are not to blame. You women are such delusive creatures.

Painless Cancer. There is a prevailing opinion that cancer is always painful from the beginning, whereas it is really painless in the majority of cases. It is desirable to ascertain how far the public ought to be instructed in the early signs of cancer, with a view to the adoption of earlier diagnosis and consequently earlier operation.—London Hospital.

A Way Out. It was at a theater in Manchester. The king, aged and infirm, was biased with two sons. He was pacing up and down the stage with a worried, troubled look, exclaiming aloud: "On which of these, my sons, shall I bestow my crown?" Immediately came a voice from the gallery: "Why not 'arf a crown apiece, guv'nor?"—London Mail.

Pome. Said a poetry teacher named Pell, To his pupil who wrote a riddle, "You would not know from Peter A muse, should you meter? Thus gave he the young villanelle. —Yale Record.

What is said to be the largest telegraph circuit in the world is that between London and Teheran, the capital of Persia. It is 4,000 miles long and is divided into twelve sections.

Chinese coffins are made of timber eight inches to ten inches thick. It is calculated, therefore, that over 8,000,000 feet of timber is utilized yearly for coffins in China.

Live and Let Live. "Do you preach without notes," queried a member of the church committee that was seeking a pastor to fill a vacancy. "Well," rejoined the good man with a merry twinkle in his eye, "I sometimes have occasion to use bank notes."

The General Demand of the Well-Informed of the World has always been for a simple, pleasant and efficient liquid laxative remedy of known value; a laxative which physicians could sanction for family use because its component parts are known to them to be wholesome and truly beneficial in effect, acceptable to the system and gentle, yet prompt, in action.

In supplying that demand with its excellent combination of Syrup of Figs and Elixir of Senna, the California Fig Syrup Co. proceeds along ethical lines and relies on the merits of the laxative for its remarkable success.

That is one of many reasons why Syrup of Figs and Elixir of Senna is given the preference by the Well-Informed. To get its beneficial effects always buy the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists. Price fifty cents per bottle.

"SPIRIT OF THE GOLDEN WEST"

All Oregon Represented by Floats Indicative of Its Resources.

Portland's great annual institution, the Rose Festival, which was inaugurated last June under such auspicious circumstances, will, this coming June, be commemorated on a scale so broad and grand that it will have a general appeal to the whole state of Oregon, and an individual appeal to every community in the commonwealth.

The grand jubilee, which will be one round of pleasure for the whole week beginning Monday, June 1, and ending in a blaze of glory the following Saturday night, is not for Portland or Portland people alone.

One of its most spectacular and brilliant features is to be the magnificent street pageant. This is a competitive event open to all cities and towns of Oregon outside of the Rose City. There will be grand prizes, the capital prize being a princely sum in cash with a number of costly souvenir cups and other trophies of great value and beauty.

Up to the present time about 20 cities and towns of Oregon have been heard from, each showing great interest in the special parade, and several of these towns, through their business organizations and "boosting" clubs, have sent representatives to this city to confer with the Festival management with reference to character of the floats which will make the most effective showing for their communities.

The Festival association has secured the services of a master float builder from the East, who is now here with a corps of assistants ready to advise with all who desire to enter the lists.

The railroads of Oregon, and the whole West, in fact, are planning to give special reduced rates on all lines, good for the whole week of the Festival. Special low rates from Portland to all points in Oregon.

Every town in Oregon is invited to enter some characteristic float in the "All Oregon" parade, and the Festival association invites correspondence and personal conference with cities and towns, large and small, in this all important matter.

Publications for Farmers. The following publications of interest to farmers and others have been issued by the Agricultural department of the Federal government and will be furnished free, so long as they are available, except where otherwise noted, upon application to the Superintendent of Documents, Government Printing Office, Washington, D. C.:

Bulletin No. 119.—Report of Irrigation Investigations for 1901, under direction of Elwood Mead, chief of irrigation investigations. Pp. 401, pls. 64, figs. 12. Price 50 cents. This is the third of the annual reports of the irrigation investigations of this office. It deals chiefly with the duty of water, but contains also reports from four stations in the humid states, where irrigation is not a necessity, but a means of increasing the returns from farm lands; a report on the underground water supply of the San Bernardino valley, California, and the second progress report on silt measurements.

Bulletin No. 88.—The Use of Water in Irrigation. Report of investigations made in 1899, under the supervision of Elwood Mead, expert in charge, and C. T. Johnston, assistant. Pp. 263, pls. 50, figs. 18. Price 30 cents. This bulletin explains the methods in use in the arid states in the distribution and use of water in irrigation. It gives a large number of measurements made to determine the duty of water and the losses by seepage and evaporation from canals, and discusses the methods by which the water supply may be more effectively and economically utilized in the production of crops.

Bulletin No. 104.—Report of Irrigation Investigations for 1900, under supervision of Elwood Mead, expert in charge of irrigation investigations. Pp. 334, pls. 25, figs. 29. Price 50 cents. This report covers the second year of investigations relating especially to the duty of water. The reports of the field agents contain also a large amount of information on laws and customs, agricultural methods, crop returns and other subjects related to irrigation. A progress report on the quantities of silt carried by a number of southern rivers is also contained in this volume.

Idaho Corn Show. On the 2d, 3d and 4th of December, 1908, there will be held at Moscow a state corn show under the management of the Idaho Agronomy association. Not only will there be a show, but also a rousing program, which in itself would pay the farmer to come to Moscow. The subject of corn will be taken up and discussed from a practical and scientific point of view; the soil will be considered in its different phases; irrigation and dry farming will be talked about and the various live stock, dairy and horticultural subjects will be considered.

There will be some good premiums offered to the winners of the show. Now is the time to begin preparing by planting some good corn and getting in line.

Tell your neighbors about it. Do not forget the date. Mark those days on your calendar and plan to come. For further information address, R. E. Hyslop, Superintendent Idaho Agronomy Association, Moscow, Idaho.

Preserves. Make a syrup of five pounds sugar and two cups water; boil until clear. Wash, stem and seed one gallon cherries, drop in the syrup and boil thirty minutes; skim well. Fill air-tight jars, seal and put in a cool place.

To Clean a Steel Knife. Cut an Irish potato in half, dip one of the pieces in the brickdust which is generally used for cleaning knives. Rub the blade of the knife and the stain will immediately disappear.

BAD BLOOD THE SOURCE OF ALL DISEASE

Every part of the body is dependent on the blood for nourishment and strength. When this life stream is flowing through the system in a state of purity and richness we are assured of perfect and uninterrupted health; because pure blood is nature's safe-guard against disease. When, however, the body is fed on weak, impure or polluted blood, the system is deprived of its strength, disease germs collect, and the trouble is manifested in various ways. Pustular eruptions, pimples, rashes and the different skin affections show that the blood is in a feverish and diseased condition as a result of too much acid or the presence of some irritating humor. Sores and Ulcers are the result of morbid, unhealthy matter in the blood, and Rheumatism, Catarrh, Scrofula, Contagious Blood Poison, etc., are all deep-seated blood disorders that will continue to grow worse as long as the poison remains. These impurities and poisons find their way into the blood in various ways. Often a sluggish, inactive condition of the system, and torpid state of the avenues of bodily waste, leaves the refuse and waste matters to sour and form uric and other acids, which are taken up by the blood and distributed throughout the circulation. Coming in contact with contagious diseases is another cause for the poisoning of the blood; we also breathe the germs and microbes of Malaria into our lungs, and when these get into the blood in sufficient quantity it becomes a carrier of disease instead of health. Some are so unfortunate as to inherit bad blood, perhaps the dregs of some old constitutional disease of ancestors is handed down to them and they are constantly annoyed and troubled with it. Bad blood is the source of all disease, and until this vital fluid is cleansed and purified the body is sure to suffer in some way. For blood troubles of any character S. S. S. is the best remedy ever discovered. It goes down into the circulation and removes any and all poisons, supplies the healthful properties it needs, and completely and permanently cures blood diseases of every kind. The action of S. S. S. is so thorough that hereditary taints are removed and weak, diseased blood made strong and healthy so that disease cannot remain. It cures Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison, etc., and does not leave the slightest trace of the trouble for future outbreaks. The whole volume of blood is renewed and cleansed after a course of S. S. S. It is also nature's greatest tonic, made entirely of roots, herbs and barks, and is absolutely harmless to any part of the system. S. S. S. is for sale at all first class drug stores. Book on the blood and any medical advice free to all who write.

S.S.S. PURELY VEGETABLE

THE SWIFT SPECIFIC CO., ATLANTA, GA.

Discouraging Prospects. "This government is becoming more and more centralized every year," said the student of politics.

"Yes," answered Colonel Stillwell of Kentucky. "It's getting so that the States don't do much more than furnish titles for battle ships and popular songs."—Washington Star.

Sometimes Happens That Way. Throgmies—Did you ever try making a comrade of your boy? Phogy—Yes; but it didn't work. I found he was too old for me.—Chicago Tribune.

Insulting. "I'm not going to that female barber shop again. There's a rude girl there, don't you know?" "What did she say?" "Why, she looked at my mustash and asked me if I would have it sponged off or rubbed in."

O, Professor! The professor was complimenting the violin virtuoso on the excellence of his playing. "By the way," he said, "do you play the 'Doctor of Divinity'?" "That is a piece I have never heard of," answered the violinist. "Never heard of it!" exclaimed the professor. "Fiddle D. D."—Chicago Tribune.

Tracing Alice's Gloomy Forecast. "I'm not going to that female barber shop again. There's a rude girl there, don't you know?" "What did she say?" "Why, she looked at my mustash and asked me if I would have it sponged off or rubbed in."

The Orphan. "Please, sir, will you give a penny to a poor orphan?" "Certainly, my boy! Has your father been dead long?" "No, sir. He's the orphan. This money's for him."

WHAT CAUSES HEADACHE From October to May, colds are the most frequent cause of headache. LAXATIVE BROMO QUININE removes cause. E. W. Grove on box. 25c.

Calorie Hypnotism. Inquisitive Passenger—How are these cars heated? Shivering Passenger—By suggestion, I think.

His Luck. "Luckiest man I ever knew! Everything succeeded with him. He had only to say what he wanted, and he got it. Why, confound it, I was walking with him one day—the very last day of his life—and he said to me 'When I die, I want to die suddenly. Got run over that very night. Eyes see such luck!'—London Mail.

Racing Joke. "Charles, dear," said young Mrs. Tokkus, "why do you call racing calculations 'dope'?" "I thought that was a slang name for a drug."

"You're quite right," was the answer. "They call it that because all it generally gets you is a pleasant dream and a rude awakening."—Washington Star.

His System. "How do you dispose of your garbage here?" asked the stranger, who was gathering data for purposes of publication. "We always throw ours in the garbage can," said the man with the chin beard, "but I don't know, of course, about the neighbors."

RHEUMATISM Is most painful. What's good? ST. JACOBS OIL Gives instant relief. Removes the twinges. USE IT, THEN YOU'LL KNOW 25c.—ALL DRUGGISTS—50c.
