1907 at the postoffice at Athena, Oregon
Under an Act of Congress of March 3, 1879

Subscription Rates : - cear, in advance

Single copies in wrappers, 5c.

For the third time Mr. Eryan has been defeated for President and it is needless to say that the democratic party can not win with him as its exponent and leader. Bryan is perhaps but many of his pronounced policies are in direct conflict with the interests of the money power, and when Ameriagainst the tide of any man's aspirations, he goes down and out. Bryan will never be president, but many meritorious reforms he advocates and stands for will eventually find their way into the scrolls of political platforms, and some other leader will thus garner the sheaves that should have been won by the peerless Nebraskan.

A new bulletin of the Correspon deuce-study department of the University for Oregon has just been received. The scope of the work has been greatly enlarged over the beginning made last | fied to vote; year, and now covers courses in English Classics, Shakespeare, Pedagogy, Botany, History Algebra, Geometry, Trigonometry, Analtyic Geometry and several courses in Mathematics for teachers. By means of this work any student who has not time to attend college or high school, can pursue, with hardly any cost, practically the same work by correspondence through the University courses, and receive credit for it.

From a purely local affair, originating in the Spokane County Horticultural Society, the apple show to be held in Spokane, December 7 to 12 has become international in scope. Advices were received the past week that Japan, England, Germany and Norway will all have national displays at the Spokane show. British Columbia and the other Canadian provinces have already reserved space for approximately 200 exhibits, and the in- duction of the rates of ocean postage dications are that they will double between Great Britain and the United aggregate 650.

Eugene surprised the people of this entire country last year by raising a great advertising fund and paying a grown-up daughters has a cheerful salary of \$5,000 annually for an ex- disposition, it's a sign that he has a pert. Up to last Saturday night there | pretty good income.

had been subscribed for the coming year \$13,661, to which will be added \$1400, the total being more than a dollar and a balf for every man, woman and child in the city, and this will be used in advertising the resources and advantages of Eugene and Lane Connty. Eugene is determined to go ahead and doesn't mind a little thing like a national election. What other town of 10,000 people in Oregon, Washington or California can match this record?

Present wastes in lumber production are enormous. Take the case of yellow pine, which now heads the list in the volume of annual cut. In 1907 it is estimated that only one-half of all the yellow pine cut during the season was used, and that the other half, amounting to 8,000,000 cords, was wasted. Such waste is typical. Mr. the most brilliant statesman of the age, R. A. Long, in his address on "Forest Conservation" at the Conference of Governors last spring, pointed out that 20 per cent of the yellow pine was can business interests puts its pressure simply left in the woods-a waste which represents the timber growing on 300,000 acres.

> According to the "clean politics" measure passed by the voters of Oregon last June the old-time election practices are no longer lawful. These are some of the things that were observed in Athena last Tuesday as unlawful:

To bire vehicles to haul voters to and from the polls;

To hire any one to work at the polls except to challenge persons not quali-

To wear any political badge or insignia at the polls; To distribute cards or campaign lit-

erature at the polls; or to work at the polls in any way to influence voters;

To do anything to influence voters.

The press bureau of the Alaska-Yukon-Pacific Exposition sends out mouthly about four columns of stuff to each country paper, expecting the same to be published for the benefit of Seattle. The dear editor is told that the matter is free and won't cost him a cent to publish it. If the A.-Y.-P. E. wants to do business in a legitimate way and advertise their show this paper will send a rate card. Otherwise do not send any more copy for the waste basket.

John Henniker Heaton has been praised in England because of the success of his long campaign for the re-Connecticut blacksmith, on behalf of cheap ocean postage.

THE VALUE OF THE NEWSPAPER

his daily or weekly paper, and to the great majority of people it is the only avenue open to their minds accessible to those who have things to sell. The peculiar strength which is all his own is well put by a recent writer in the following words: "The newspaper carries suggestion into the family circle at leisure moments in parlor or library, where no salesman is ever permitted to enter." It is in closer touch with and exerts a greater influence in the home than any other printed thing. To start with; there are in the older communities a vast number of people who have inherited the continuance of the paper which their parents read. It is as real to them as "proofs of holy writ." To practically all others, gence of the world's doings is gleaned from its pages. That which many deem their own judgment, as related to current topics, is merely a reflection paper. What reaches them for the first time in today's issue, in a week or a day later, has become their belief mand your constant attention.

paper reading is more or less of an effort. Because such reading can be deferred, it is. No other printed matter except, of course, the weekly, can not be put off even if we wish to do so. The newspaper in its field has Like the car, it is a burry-up affair. With the introduction of electric and took notice. They had to. They found they had to catch the car and Formerly the car

COR. MAIN AND THIRD, ATHENA, Or.

That one American corests abound in plants which poscess the most valuable madefinal virtues is abundantly attested by scores of the most eminent medical writers and teachers. Even the untutored Indians had discovered the usefulness of many native plants before the advent of the white race. This information, imparted freely to the whites, led the latter to continue investigations until to-day we have a rich assortment of most

valuable American medicinal roots.

00 Dr. Pierce believes that our American for-ests abound in most valuable medicinal roots for the cure of most obstinate and fatal disand in behind the of this conviction, he points with pride the almost marvelous cures effected by his "Golden Medical Discovery," which has proven itself to be the most efficient stomach tonic, liver invigortor, beart tonic and regulator, and blood cleanser known to med cal beience. Dyspep-sla, or indigestion, to out liver, functional and even valvular and other affections of the heart yield to its curative action. The reason why it cures these and many other affections, is clearly soown in a little book of extracts from the standard medical works which is mailed free to any address by Dr. R. V. Pierce, of Buffalo, N. Y., to all sending request for the same.

0 Not less marvelous, in the unparalleled cures it is constantly making of woman's many poculiar affections, weaknesses and distressing derangements, is Dr. Pierce's Favorite Prescription as is amply attested by thousands of unfolicited testimonials con-tributed by cateful patterns who have been cured by it of catarrhal pelvic drains, painful periods, irregularities, prolapsus and other displacements, caused by weakness, ulcer-ation of uterus and kindred affections, often after many other advertised medicines, and physicians had failed.

Both the above mentioned medicines are holly made up from the alycene extracts of ative, medicinal roots. The processes emholly made up from the giverner extracts or sive, menteinal roots. The processes em-loyed in their manufacture were original inh Dr. Pierce, and they are carried on by silled chemists and plantmacists with the idle of apparatus and appliances specially estimed and built for this purpose. Both edicines are entirely free from alcohol and il other harmful, he teforming drugs. A all has of their ingredients is printed on arch harms were open. each bouth wrapper.
