Mr. Johnson bore the marks of a 4th of July scrap in which he was one of the active participants. The fellow directly opposed to Mr. Johnson in the fray used for a weapon a pipe with painful effect. Charley Norris' pretty Zoelock colt is recovering from an attack of distemper. The case developed peculiar results, the like of which is said by horsemen to be of infrequent occurrence. An abscess formed under the jaw as customary and apparently discharged freely, and healed over perfectly. Later swelling appeared between the hind legs demonstrating that the former discharge had not been sufficient to relieve the system of the disease. The second swelling was lanced, when excessive discharge of pus followed, and the colt began to recover at once.

Two runaways took place in Athena and vicinity this week. The roughest team of the Bannister threshing outfit, winged through Main street without a driver, Monday and piled up against the sidewalk west of the lumber yard, without serious damage resulting. The day following, a fine big team belonging to Jerry Stone, took fright at an automobile, snapped the wagon tongue in two and before the horses could be stopped a fragment of the tongue penetrated one of the horses back of the foreleg, making a very bad wound. The animal, a valuable one, is being cared for by Dr. Baddeley, veterinary surgeon.

Cases of blood poison are becoming of frequent occurrence in this vicinity, three at the present time being under the care of Dr. Sharp. One, which for a time threatened dangerous results is that of Ray Zerba. The boy's father was driving spikes with a hand ax, which flew off the handle and struck the boy on the arm. A severe gash was cut into the muscular part of the arm, from which blood poison resulted. Chas. Downing is a very sick man. Blood poison resulted from a slight cut in the hand from a knife. The third case is that of George Brucher. A fractious cow drew a rope through his hand. The skin peeled off and a fly bit the wound. Dr. Sharp reports all three patients to be doing well.

DeLosa M. Webb comes to Athena Sunday with his famous broncho bucking exhibit, which will take place at the city park. Mr. Webb and his rough riders will ride a string of 16 bucking horses, and if there are any outlaw horses in this vicinity the invitation is made to bring them to the grounds where they will be ridden "straight up" with pleasure. Among the features of the show will be seen trick and fancy roping and riding; pony express or carrying the mail; cowboy's pastime or life in the wild west; Roman hurdle racing and the youngest broncho sorcerer in the world under salary. Mr. Webb is perhaps the best rider in the West today. For three years he traveled with Buffalo Bills Wild West show. He is also locally known, having ridden the range for Fay LeGrow and George Drumheller, and Mr. LeGrow speaks highly of him, both as a rider and a reliable man.

### Price of Beef.

The possibility of the price of beef becoming prohibitory for the table of the average workman because of decreased production in the beef producing sections of the West is the reason for calling together in convention the cattle breeders of the country. The convention will be held in Denver January 1910 and will be officially designated the National Beef Producers Congress. The call for the convention will have the backing of the packers, live stock organizations and business interests generally. It is said, and the ultimate purpose of the convention will be to awaken the West to an appreciation of its duty in the matter and opportunity for revenue through extension of cattle breeding. Unless something is done in this regard, it is said by experts that the price of beef will soar to a height where the average workman will be unable to pay and he must consequently deny himself this particular article of food.
