A Tribute.
"In E. H. Harriman's obituary notices," said a New York clergyman, "due prominence wasn't given to his fondness for little children. That children were also fond of him was proved by a remark my little daughter made last month."
"Mr. Harriman is dead, my dear," I said to her.
"Her eyes filled with tears, and she said, with a gulp:
"Oh, papa, how happy the angels will be!"

CASTORIA
For Infants and Children.
The Kind You Have Always Bought

Bears the Signature of *Dr. J. C. Ayer*

A Modern Instance.
The mighty Casey had struck out. "I had to do it or spoil the poem," he explained.
Years afterward, however, when he saw how the elocutionists had overworked it, he bitterly regretted the act.

BREAKS A COLD IN A DAY.
And Cures Any Cough That is Curable. Noted Physician's Formula.

This prescription is one of the very best known to science. The ingredients can be gotten from any good druggist, or he will get them from his wholesale house.

"Mix half pint of good whiskey with two ounces of glycerine and add one-half ounce Concentrated pine compound. The bottle is to be well shaken each time and used in doses of a teaspoonful to a tablespoonful every four hours."

The Concentrated pine is a special pine product and comes only in half ounce bottles, each enclosed in an air tight case, but be sure it is labeled "Concentrated."

Does Sometimes.
Youthful Customer (at book store)—What does "Bridge Whist for Beginners" cost?
Sombre Salesman—It will probably cost you your entire wad.—Chicago Tribune.

Headache

"My father has been a sufferer from sick headache for the last twenty-five years and never found any relief until he began taking your Cascarets. Since he has begun taking Cascarets he has never had the headache. They have entirely cured him. Cascarets do what you recommend them to do. I will give you the privilege of using his name."—E. M. Dickson, 1120 Resiner St., W. Indianapolis, Ind.

Pleasant, Palatable, Potent, Taste Good. Do Good. Never Sicken, Weaken or Grip. 10c, 25c, 50c. Never sold in bulk. The genuine tablet stamped C.C.C. Guaranteed to cure or your money back.

They knew.
"And now, children," said the teacher, addressing the question to the class in anatomy and physiology, "can you tell me what milk is?"
"Eight cents a quart," shouted the children, in unison.—Chicago Tribune

Stops Hair Falling

Ayer's Hair Vigor, new improved formula, will certainly stop falling of the hair. Indeed, we believe it will always do this unless there is some disturbance of the general health. Then, a constitutional medicine may be necessary. Consult your physician about this.

Does not change the color of the hair.

Formula with each bottle. Show it to your doctor. Ask him about it, then do as he says.

Ayer's

The reason why Ayer's Hair Vigor stops falling hair is because it first destroys the germs which cause this trouble. After this is done, nature soon brings about a full recovery, restoring the hair and scalp to a perfectly healthy condition.

—Made by the J. C. Ayer Co., Lowell, Mass.

AGRICULTURAL

No More Walking.
What the inventor says will be a great boon to small farmers, as the invention, it is claimed, will do the work of six horses, is in use in California, but it can be adapted to any locality. It is a gasoline tractor and is a help in plowing, harrowing and harvesting. It will keep running as long as it is fed gasoline.

Built with a two cylinder motor, the tractor has plenty of power. It has two speeds, forward and reverse, and is easily operated from an extension seat, from much the same position a driver would occupy with his team.

It is particularly an orchard tractor, having low, wide wheels, narrow tread, short wheel base and short turning radius. A special feature is that the tractor may be driven from the seat of the ordinary wheel plow or harrow, enabling one man to drive and operate the levers of this plow and cultivator with perfect ease and convenience. It is a one man machine, light in weight, with all control levers conveniently arranged.

To obtain the greatest efficiency the front wheels are made the traction wheels; also the steering wheels. In the rear are smaller plain wheels, close together, with flanges to hold against side slipping, used simply as trailers, to which the plow, cultivator, harrow or farm wagon is hitched the same as though coupled to the small wheels used on the rear of the ordinary tongue when plowing with a team.

The power plant is built in a stiff steel frame, mounted rigidly to the main axle, and is composed of a two cylinder opposed engine of standard make, rated at twenty-four horsepower.

THE HORSELESS CULTIVATOR.

Snails and Slugs.
A woman gardener wrote to State Zoologist H. A. Surface at Harrisburg, Pa., asking for instructions how to overcome the snails in her garden. Prof. Surface replied: "Snails and slugs, although very great and serious garden pests, especially where the gardens are damp and the vegetation rank, can be prevented by the use of an impassable barrier of powdery substance around the beds of plants to be protected. Soot is excellent for this, although dry ashes will serve the purpose, and air-slaked lime will be found very good. Also, you can kill them by dusting them with some freshly slaked lime mixed with paris green, using about thirty parts of the lime to one part of the paris green, which is dusted abundantly over their bodies. Also dusting their food plants with flour and paris green will destroy them. Another method is to poison some leaves of plants of which they are particularly fond, and put this where the snails will find and eat them and be destroyed. Another method is to place boards loosely on the ground, as traps, and in the morning examine them and pick out and gather the snails and brush them into a vessel containing salt, which will kill them. If the ground is dry and cracked pour salt water into the cracks and thus destroy them. The barriers mentioned above should be kept dry, or renewed every time after a rain. Keep the vegetation around the garden mowed low, or keep the ground cultivated, so that these pests will not find suitable places where they can multiply."

Newest Posthole Auger.
An invention that will be found useful by fence-makers and farmers generally, is the post-hole auger designed by a Michigan man. This implement digs a narrow, fence or other post hole and digs it quickly. In appearance the auger resembles a clean hole, just the right diameter for a huge auger of the ordinary carpenter's kit. It is pressed down into the earth, the jaws taking in the amount of dirt a post would replace, and then withdrawn, bringing up the dirt just as a dredger would. Indeed, the implement works much like a dredging machine. The advantage of auger is in the small, clean hole it makes. Without it a post hole must be dug with a spade and the smallest spade not only makes a hole too big, but one that necessarily slants from the rim to the bottom and must be filled again. It is easy to understand that a post will stand much more firmly in a hole that does not have to be filled in.

Thumps in Pigs.
Thumps in pigs is caused by a surplus of fat and a lack of exercise. The thumping is due to violent beating of the heart, causing shaking movement of the sides and flanks of the animal. Often it is so violent that the whole body trembles and shakes with the movements. In aggravated cases the pig is weak and uncertain in his walk, and lies down most of the time. Before death the nose, ears and other parts of the body become red and purple with congested blood, due to weak circulation.

Advanced cases of the thumps are difficult to cure. When first symptoms are noticed reduce the bedding if there is much in their sleeping quarters; reduce the feed and compel the pig to exercise in the open air. Fresh air will purify the blood and exercise will promote circulation. When pigs become fat and lazy they will lie in bed a great part of the time, often completely covered with bedding, so that they breathe impure air and dust. This poisons the blood and reduces the vitality in general, which, with compression of the heart with surplus fat, causes the malady.

In the spring or summer when pasture is good it is well to change pasture of hogs afflicted with the thumps so that they will be induced to take more exercise and eat green food. Reduce heavy feeding and keep the bowels of the animal loose by doses of castor oil. A little turpentine in the slop or drinking water is said to be good.

Check-Rein on Horses.
When a horse stumbles he is far less likely to go down when his head is left free. In England, where they are far ahead of us in everything pertaining to horses, the check-rein has been abolished, the last surrender being that of the artillery and commissariat trains of the British army, the change having been made by Sir George Bourgoyne, the late commander-in-chief, and he testifies to the beneficial results attending it.

A Valuable Cow.
Grace Fayne II's Homestead a Holstein-Friesian cow, valued at \$8,000, died recently at the Harvey A. Moyer Farm, just north of Syracuse, N. Y., from pneumonia. The animal was heavily insured and held the world's butter record of 35.55 pounds of butter in one week and the thirty-day record of 134.18 pounds. She broke a former record of 35.22 pounds for a week. One of her calves sold recently for \$2,000.

Homemade Feed Cutter.
Here is a feed cutter which anyone can make from a little cheap lumber. The knife, a, is a common broad ax, which most farmers have. Put a handle in, as shown, and build a frame of 2x2-inch hard wood and inch boards. The end of the handle is fastened to the standard at b with a piece of strap iron. Another piece of strap iron, c, acts as a guard and keeps the ax close to the edge of the box.—Farm and Home.

The Poultry Yard.
Eighteen hens that were fed milk last winter laid more eggs than 100 fed on cut bone and meat.

A flock might just as well roost in trees as in a house full of cracks and holes, which chills the birds in spots and produces bad colds.

Some people are willing to pay an extra price for eggs on one color. Many people get a cent or more a dozen for sorting their hen fruit according to size and color.

Take no chances by having too many chickens together in one flock. If you see they are getting to be crowded in their winter quarters, make thrift and health a certainty by dividing them up, or selling some of them.

You may have an idea that poultry can hunt their own grit. You are wrong. Grit is as essential as feed. Get a grit box, fill it with crushed rock and oyster-shell, and hang it on the wall where dirt will not be scratched into it.—Farm Journal.

FREE! HARP-GUITAR! FREE!

A new and wonderful musical instrument, which is a combination of the grand Italian harp and guitar. It has a beautiful tone and is positively the easiest instrument to play ever made. We teach you at your own home. As an advertisement we are

GOING TO GIVE AWAY
one of our \$12.50 Harp-Guitars to each of the first ten persons in each county who send us their name, address and whom the harp is for. Sit down RIGHT NOW and drop us a card and be one of the lucky few.

How He went.
"And if you really ascended that awful mountain why did you leave no visible trace?"
"The footprint left by the astral body is not a tangible thing," responded the explorer with a dignity almost frigid.—Philadelphia Ledger.

The Separation.
"I understand that she is separated from her husband."
"Yes."
"Oh, tell me all about it. What did she do?"
"Nothing. He died."

If You Have Common Sore Eyes, if lines blur or run together, you need **PETIT'S EYE SALVE, 25c.** All druggists or Howard Bros., Buffalo, N. Y.

New Idea in Weddings.
News comes from Vienna of a new idea at weddings—the wearing of a wreath of roses by the mother of the bride. Upon arriving home after the ceremony the bride's mother removes her hat and puts on a half circle of roses, composed of buds with silver petals and foliage.
