Spring Medicine

There is no other season when medicine is so much needed as in the spring. The blood is impure and impoverished—a condition indicated by pimples, loils and other eruptions on the face and body, by deficient vitality, loss of appetite, lack of strength.

The best spring medicine, according to the experience and testimony of thousands annually, is

Hood's Sarsaparilla It purifies and enriches the blood,

ures eruptions, builds up the system. Get it today in usual liquid form or chocolated tablets known as Sarsatabs.

Look Out, Boys! A German professor has found that boy in walking a mile through the streets of a town is exposed to 10,000,-000 germs and microbes that may cause his death. It seems they never do cause his death, but the only safe way for a boy to do is to remain at home and take out the ashes and bring in the coal. If he feels any danger he can black the cook stove and whitewash the cellar.

Does Radium Extat?

This rather surprising question is raised by Dr. Gustav Le Bon, a well known scientist, who calls upon the friends of science to contribute \$10,000. the sum which he imates as probably necessary to cover the cost of experiments to prove whether radium really exists. His own idea is that there is no such metal, and that the phenomena from which its existence has been inferred are due to unknown combinations analogous to those which impart the property of phosphoresence to certain sulphides. He calls attention to the fact that what we usually call radium is simply the chloride or bromide of an unknown substance. A pure chloride, he says, is never phosphoresent, but becomes so. when mixed with traces of certain other substances. He predicts that the result of the research that he proposes would be to derive from the so-called chloride of radium nothing more than the well known metal barium, and holds that the observed radio-activity results simply from certain now unknown chemical combinations.

Strict Women Who Love.

The strictest women are at times the most loving. When this happens their attachment is as strong as death, their fidelity as resisting as the diamond. They are hungry for devotion and athirst for sacrifice. Their love is a plety, their tenderness a religion, and they triple the energy of love by enshrining it as a duty.-Henri Frederic Amiel.

The Patent office is some \$7,000,000 ahead on revenue from patents, nearly \$1,000,000 last year alone. Two "Green" Reporters.

The inexperienced reporter is likely to have an undeveloped "news sense." Every one will recall the story of the journalist who was sent to report a fashionable wedding. He returned an hour or so later empty-handed. When asked what happened, he said, "Nothing at all; the groom didn't come." A writer in Lippincott's Magazine recounts an incident not dissimilar.

At a certain school of journalism a part of the practical work is to do regular reporting. One time a student was sent in haste to "cover" a railroad wreck at a town a few miles away.

It grew to be almost time for the paper to go to press, and still no word from the young man on the assignment. In desperation, the dean of the school telegraphed to ask why the story was not forthcoming. The reply

"Too much excitement. Wait till things quiet down."

KASPARILLA

This sterling household remedy has long been recognized as the best and safest Blood Purifier, the most successful prescription for spring humors and such lisorders of the blood as boils, pimples, pustules, blotches, sores and cutaneous eruptions. Kasparilla is admitted to be he best remedy for that lack of energy and the peculiar debility so prevalent furing the close of winter and the opening of spring. For derangements of the digestive organs it is a natural corrective, perating directly upon the liver and ali-nentary canal, gently but persistently stimulating a healthy activity. Its peneficial influence extends, however, to every portion of the system, aiding in the processes of digestion and assimilation of lood, promoting a wholesome, natural appetite, correcting sour stomach, bad oreath, irregularities of the bowels, constipation and the long list of troubles lirectly traceable to those unwholesome

conditions. Kasparilla dispels drowsiness, headache, backache and despondency due to inactivity of the liver, kidneys and digestive tract. It is a strengthening tonic of the highest value. THE BEST SPRING MEDICINE HOYT CHEMICAL, CO. Portland, Oregon

JOHN I. BROWN & SCH. Boston, Mass.

Dr. Carl Webber, still practicing in New York City, performed in 1866 the first operation for appendicitis. There was no knowledge of stomach cuttings at that time. The operation was performed without antiseptics. The instruments and appliances were comparatively primitive. The patient is alive and well in New York te-day.
