Nursery "Don'ts."

Don't treat children's troubles lightly; their trials are as big to them as those of grown-up people. Don't fail to instill a deep sense of kindness to dumb animals—a cruel boy generally makes a cruel man. Don't neglect an untruth or dishonorable action—teach your children to face these out and it will make them courageous. Don't encourage whining or tale-telling. Don't lose your children's confidence—try to live close to their hearts.

Not Her Way.

Elderly Relative—Lucy, you surely don't think of marrying Geoffrey to reform him!

Miss Lucy—Gracious, no, auntie! I'm trying to reform Geoffrey in order to marry him, and I'll either succeed in doing it or I'll break his neck!

PREVENTION THE BEST SAFEGUARD

If for any cause the horse or other domestic animal exhibits a lack of energy, proper relish for food, or an appearance of general debility, timely action should be taken for the restoration of its health. In the natural food of our domestic animals Nature provides certain peculiar medicinal herbs, leaves, barks and roots which seem necessary for their health. **Pacific Stock Food** in greatly condensed form is intended to supply the essential virtues of those health-giving natural remedies and is prepared expressly for those animals deprived by man of their natural food. It is an alternative tonic which stimulates the various organs of the body, promotes the secretions, tones up the general system and restores the disordered conditions to a normal state. It stimulates the appetite, improves the digestion and assimilation of food, purifies the blood and insures a good, healthy condition. Booklet free.

Many Women who are Splendid Cooks

dread having to prepare an elaborate dinner because they are not sufficiently strong to stand over an intensely hot coal range. This is especially true in summer. Every woman takes pride in the table she sets, but often it is done at tremendous cost to her own vitality through the weakening effect of cooking on a coal range in a hot kitchen.

It is no longer necessary to wear yourself out preparing a fine dinner. Even in the heat of summer you can cook a large dinner without being worn out.

New Perfection WICK BLUE FLAME Oil Cook-stove

Gives no outside heat, no smell, no smoke. It will cook the biggest dinner without heating the kitchen or the cook. It is immediately lighted and immediately extinguished. It can be changed from a slow to a quick fire by turning a handle. There's no drudgery connected with it, no coal to carry, no wood to chop. You don't have to wait fifteen or twenty minutes till its fire gets going. Apply a light and it's ready. By simply turning the wick up or down you get a slow or an intense heat on the bottom of the pot, pan, kettle or oven, and nowhere else. It has a Cabinet Top with shelf for keeping plates and food hot, drop shelves for coffee, teapot or saucepan, and even a rack for towels. It saves time, worry, health and temper. It does all a woman needs and more than she expects. Made with 1, 2, and 3 burners; the 2 and 3-burner sizes can be had with or without Cabinet.

FASHION HINTS

This amethyst linen suit was charming with its simply shirred waist, and the embroidery of amethyst and white. The shirred sleeves were of very sheer batiste. The jaunty black and white hat had an owl's head as the only trimming.

SINGULAR JEWELRY.

The esthetic and decorative uses to which barbarians will turn objects which to civilized races are things of the humblest utility are amusingly illustrated by this "fashion note" from West Africa, taken from an Italian newspaper:

For some time the officials of the German colony in Southwest Africa noticed that the telegraph wires and other accessories of the electrical plant disappeared as by magic immediately after they had been put up. The most diligent inquiries remained fruitless. From other parts of the German possessions came reports of strange predilections for articles of German commerce, as, for example, rubber heels, garters, buckles and so forth, things which the natives of those countries do not generally use.

The governor of the colony gave an entertainment one year in honor of the emperor's birthday, and invited the chiefs of the different tribes to it. What was his surprise when he saw these native gentlemen appear with his stolen telegraph wires twisted round their illustrious necks. The higher the dignity the more rings of the wire were round the neck.

Inquiries were soon started in the outlying villages, and it came to light that the white china insulators of the telegraph poles had become ear rings. A young lady of the highest distinction in native society wore a rubber heel hanging from her nose, and a young man who was a well known dandy wore dangling from his ears a pair of beautiful pink silk garters.

A Substitute for Alcohol.

The tendency of people to contract some sort of another habit is shown by the common use in various countries of tobacco, tea, coffee, opium and the like. In Abyssinia and parts of Arabian Turkey the place of alcohol is taken by the kat plant, which the natives almost universally chew. In parts of Abyssinia certain tribes chew the leaves of the kat plant commonly when they are compelled to exert special or long-continued effort, the immediate effect of which is to produce an agreeable sleeplessness and stimulation. The freshly-out leaves have a rather pleasant taste, and produce a kind of intoxication of long duration, with none of the disagreeable features of ordinary inebriety. Messengers and soldiers are enabled, by chewing the leaves, to go without food for a number of days.

In parts of Arabian Turkey there are cafes for the consumption of the kat plant which correspond to the cafes in Europe and America where coffee and alcohol are used.

Ready to Exchange.

"I was reading to-day about the cat exchange they have in Paris."

"I wish we had one here. I've got a cat at home that I'd exchange for a bogus check on a busted bank and hrow in the car fare to boot!"—Cleveland Plain Dealer.
