If State Printer Duniway has made a saving to the taxpayers of the state of \$10,000 in three years why does he not show it by facts and figures? All this great saving is credited to utterances by the state press through articles probably written or inspired by the state printer himself. In fact all such savings were made by the Secretary of State under conditions over which Duniway had no control. The figures quoted by William J. Clarke, the Republican, flat salary candidate, who stands alone as pledged to this great reform, are taken from the records in the Secretary of State's office. They are "material and contain facts and figures which the voter and taxpayer should know," says Judge Galloway, (democratic) circuit judge of the Third District.—(Paid adv.)
