## LATE INVENTIONS.

A draining rack for wet dishes, to be hung on one side of a dishpan, is a new convenience for the housewife. It is claimed for a new electrical melting pot for glue that it keeps its contents at a perfectly even temperature.

An improved cover for street manholes, recently patented, screws into its socket so that wagons cannot knock it out of place.

A new tool for painters consists of a reservoir for paint, which is fed out upon an embossed roller to stripe flat surfaces or to apply ornamental designs.

For thawing dynamite a metal ket-Melar Crews....\$5.00 For thawing dynamite a metal ket-22k Bridge Tesh \$3.50 tle has been invented in which the explosive is placed in an inner compartment, which is surrounded by hot water.

About the size of a lawn mower is a new machine designed to sow lawn grass seed, disks cutting into the earth receive the seed, which is covered by a following roller.

A single turn of the handle of a new letter stamping machine cuts a stamp from a strip, moistens, and affixes it, registers the transaction, and ejects the stamped letter.

A double frying pan, hinged in the center, has been patented by an Iowa man, so that two articles can be cooked at once and to save space by folding it when not in use.

To test the speed of projectiles driven by modern high power explosives British scientists have perfected play." a chronoscope which measures time to the millionth of a second.

A new range employs both electricity and steam, a current of the former, used to cook food on the top of the range, also heating water to produce steam to operate the oven economically.

A new shoe salesman's stool is provided with small mirrors on each side of the foot rest, to enable the customer on and also to afford a degree of privacy.

REPARTEE ENDS IN DISASTER DEATH IN HOT SAND Fresh Young Man in Quick Lunch Room is Unexpectedly Show-SURVIVOR TELLS OF DEATH ered With Oatmeal.

The young man with the fron cheel entered the guick lunch room and seated himself at the third table. "Belinds," he called familiarly, "you

look fresh this morning." "Not half as fresh as some others, retorted the pretty waitress with an vievation of her nose.

"Well! Well! Have you calf brains?" "If I did you wouldn't order them, for you have an oversupply now." "My, but you are getting good for

the matinee. With the high price of meats, eggs come in handy these days, don't they?"

"No; they come in crates."

"Wow! Did you ever hear the story of the incubator chick? It's not out yet?"

"That will do, sonny. Did you eve hear the story of the cold porridge! Well, it's on you!"

There was an unexpected tilting of a dish and the young man with the iron cheek was showered with oat meal.

of His Experiences at Seance

member of a Borax lake expedition in which Charles Stracher Davidson, a graduate of the University of California Mining college, lost his life in the intense heat recently, has returned to his home in this city. He left five others of the party at Randsburg after she burial of Davidson in a rude desert grave on the shore of the lake, where

he met his death. All of the others suffered terribly, but reached camp after twenty-four hours of torture in the broiling sun.

"We arrived at Randsburg and started on our trip across Borax lake," said Masters. "The lake is a mud deposit covered by a heavy crust. Our objective point was an old camp on the opposite shore, where we believed

we would find prospectors. When we began drawing our line Davidson was prostrated with the heat, which was terrific. A little later he collapsed. Then he broke from us, and, running about fifty feet, fell on his face. One of the boys went back to him. He died shortly afterward.

"One by one we followed a course toward the opposite shore. When I arrived I discovered that there was no water. After several hours we found

an old well, but the water was sulphurous and salty and at the bottom was a dead rattlesnake. Two of the original party of seven had gone to Randsburg for batteries when we started on the trip across the lake and dents for success, by individual instruction if that left four of us huddled together- desired, in a short time and at small expense. Thomas A. Graves, a mining expert Position for each as soon as competent. Open all of Olean, N. Y.; David Eunkers, Norman Stein and myself.

"In the morning before sunrise we took a roundabout trail skirting the lake. When halfway across we met an automobile party and were carried the rest of the way in the machine.

"That afternoon we went on the seething mud lake again and got the body of Davidson. The boys made a rough pine box and we gave George the most decent burlal we could give. His grave is out there in the sun, near the place where he died. The others of the party are used up, but they will

recover. It was a terrible experience and I am through with the desert." SAYS GHOST ATE A BISCUIT

London.-Ghost stories of a highly interesting nature to believers and skeptics alike were related at a meeting of the City Temple Debating society.

The stories were told by George Spriggs, at one time a spiritualistic medium, and now the president of the Psycho-Therapeutic society. Every story, he said, was well authenticated. His own conviction was "that spirit communion is not only a possibility,

but an actual and realized fact." On one occasion, he said a seance was held round a table at the residence of Rees Lewis of Cardiff. All the "sitters," including Father Butcher, a priest, and Rev. David Jones.

kept their hands on the top of the table. In about five minutes raps were heard, and on looking under the table there were found small bunches of grapes, a branch from an apple tree,

one from a pear tree, bunches of wheat and barley and some peas. One of the reverend gentlemen exclaimed: "This is as near a miracle as possible.

Describing some of his experiences in Melbourne, Mr. Spriggs said that at one seance a spirit form, dressed in a white gown and red girdle, Crank half

a tumbler of water and ate a biscuit. Weighing machines were used to ascertain the distinguishing features between the medium and the materialized forms, "and," said Mr. Spriggs, "i found that as a result of the seance had lost about three pounds in weight." The first spirit form who

at 100 pounds, but subsided so rapidly in weight as to prevent a successive record being taken. Indeed, failing to turn the scale at 89 pounds, he hurriedly retreated. Returning again, his weight was registered at 104 pounds,

then 102 pounds, and then under 100 pounds.

Doctor Mueller, who was present, distinctly felt the pulsation of the forms, the medium being shown sitting on his chair immediately afterwards. Doctor Motherwell also found the beating of the heart to be quite natural.

One of the "sitters" contrived to smear his hands with printer's ink before grasping that of the materialized form. When the medium was exam-

ined, however, the skeptic was grievously disappointed to find no traces whatever of the ink which he had impressed upon the hand of the form.

A Tinge of Suspicion. "That speaker always starts off, said Farmer Corntossel, "by tellin" what the country needs."

"I s'pose so. Only I notice that when a man goes out of his way to tell me what I need it's always somethin' in his particular line o' goods."

Liquid Form, 25c, 50c. Salve Tubes, 25c, \$1.00.

Their Desperation. Worthington-Do the subscribers to Turgler's Weekly seem to appreciate the paper?

Slappers-Well, they held a meeting a few days ago and unanimously agreed to offer Turgler \$500 if he would stop sending the publication to them.
