### MAN ALWAYS GIVING ADVICE

#### is Effectually Squelched by Tattered Hobo in Most Characteristic Manner.

The man who is always giving advice sauntered up the street and found the tattered hobo sitting on the curb.  
 "My good man," began the former, "why are you idling away your time like this? Don't you know the world owes you a living?"  
 "That so?" responded the hobo, nonchalantly. "Well, I guess I better call up a collection agency and get dem to collect it for me."  
 "But this is serious, my man. You deserve something in this world."  
 "Sure, boss, the last Judge I ran up against said I deserved six months."  
 "Tut! Tut! Don't be facetious. Why, you could rise up in the world and wear broadcloth."  
 "Thanks, but I am wearing dat now, boss. Dis suit is so broad it is three sizes too big for me."  
 "Well, what in the dickens are you sitting on the curb for, anyway?"  
 "To curb my temper, boss. To curb my temper when such smart alecks as you ask me such questions."

### DRINK DOLE'S Pure Hawaiian Pineapple Juice

Drink it Pure The Drink Delightful!

All the bouquet of the ripe pineapple field, all the snappy acid tang, with none of the rude "bite" you are accustomed to in the unripe fruit-structure product you have known: all that's good and nothing that's in the least unwholesome; all that's delicious; all that's satisfying—all this is yours in Dole's Pure Hawaiian Pineapple Juice. Non-alcoholic, of course. The Dole process of refining the juice of the Hawaiian Pineapple adds no water, no sugar, absolutely nothing to the pure juice. Serve it cold—the colder the better; cracked ice in the glass is a help. An olive, a saline, a cheese straw, a Welsh-rarebit emphasizes the flavor. It adds interest to any afternoon or evening entertainment, at home or at the club.

Every bottle of Dole's Pure Hawaiian Pineapple Juice has the signature of *James D. Dole* in red ink across the label. At Druggists and Grocers

### SCHOOL EXAMINATIONS.

Pennsylvania Educationalist Think They Should Be Abolished.  
 Public school students have a champion in the person of Dr. Nathan C. Schaeffer, superintendent of public instruction in Pennsylvania, in their antipathy to examinations. Dr. Schaeffer has gone so far as to say that he hoped he would see the day when examinations would be abolished. "They are," he said, "like drugs, since they have a primary as well as secondary effect in that they cause depression if kept up."  
 Dr. Schaeffer is himself a keen student and observer. He has profited by his years of experience since his connection with the public schools of the state and he knows whereof he speaks, says the Philadelphia Inquirer. But his opinion in this respect is not the result of deductions on the part of one man alone. There are many others who think with him, some of whom have so expressed themselves and others who, while convinced themselves, are too timid to take a decided stand in the matter.  
 There is little doubt that the examination is in many respects a barbarous institution. Education is, in the last analysis, only a means to an end, a process of gradual mental development, a plan by which each day the mind is broadened. To expect a child to pass successfully on details which it has used only as mental food and forgotten for five, six, seven or nine months seems not only unjust, but ridiculous. The consequence is that an examination time approaches there is a cramming of matter into the mind, mental indigestion ensues and, not infrequently, even the brightest students are injured physically.  
 In the big world where results count, a man is not examined at the end of each year as to his work during the past 12 months. The caliber of his work and endeavor at the end of each day is what counts, and so it should be in the preparation for this real work.

### FASHION HINTS

The way the embroidered and plain linen is combined here is very good style. There is a certain dash to it that's due partly to the plain little banding of a contrasting shade.

### BIRD CHAT.

What species of bird lays the smallest egg in proportion to its size; likewise the largest?  
 It has been computed that 300,000,000 birds are annually slaughtered for plumes and other decorations.  
 The Chinese eat "rotten" eggs—that is, eggs preserved in lime until they get a consistency like that of hard butter.  
 A fossil raphoryucus, a bird of 50,000,000 years old, sold for \$9,000 recently, the highest price ever paid for a bird.  
 Cranes are used as watchdogs in Venezuela by the natives, who call them "yakanuk," and are said to be excellent guards of poultry.  
 Cardinals have been known to alight upon window sills of houses and peck at the panes, probably attracted by their reflection in the glass.  
 Birds are not the only higher animals that lay eggs, two quadrupeds, the duck-billed platypus and the Australian porcupine ant-eater, also lay them.  
 The rpr n'dooh, or "bird of death," is the only venomous bird known to science, but there is very little known regarding its habits, and especially its venomous qualities.  
 The hyacinthine macaw is one of the strongest as well as one of the rarest birds of its kind. There is one in the New York Zoo. There appears to be absolutely nothing known regarding its habits.

Love's Market.  
 She—Harold, do you speculate?  
 Harold—Well, I'm engaged to you.—Life.

Gold Comfort.  
 "We shall be rescued. Don't lose your head."  
 Said the traveler lost on the arctic shore.  
 "Oh, I'm keeping cool!" his companion said,  
 As he shifted his seat on the ice once more.—Puck.
