Subscription Rates: - \$2.00 per year, in advance  
Single copies in wrappers, 5c.

ATHENA, ORE., OCT. 21, 1910

If the people of the State of Oregon actually want the Oregon Railroad & Navigation Co. for their governor; then and in that event, let them all vote for Jay Bowerman for governor, as he is one of this railroad's attorneys, its first choice for governor, and every conductor and official on its roads are working tooth and nail for him. Many of the laboring men on this railroad who cannot be forced into line for Bowerman and who know that Oswald West is their friend, will not vote for Bowerman. Nearly all of the big railroad lawyers and other big corporation lawyers in Oregon are working for Bowerman. He is one of their kind; but the farmers, laboring men, merchants, the people who are the backbone and sinew of this great State—who believe in honesty and fair play—will not stand for Bowerman, but will rally to the army fighting for Oswald West. George E. Chamberlain is now touring the state for Mr. West. He has known Mr. West from boyhood and believes he will make a far better governor than Bowerman, the railroad lawyer, the assemblyite, the man who stabs the primary law, dynamites Statement No. 1 and kills the Normal schools. When the railroad gets busy for a candidate for governor, as they are now busy for Bowerman, it is high time for the people to "get wise" and, in this election, vote for Oswald West.

It is well known that a small coterie of prejudiced politicians in Pendleton, composed of about half a dozen "sore-heads," known as the "Furnish Push," worked for several months trying to get a candidate with whom to defeat Dr. Smith. They tried Billy Ferguson of Pendleton, Frank Carl, Thomas Thompson, Asa Thompson, W. L. Thompson, Tom Morris, Dr. Cole, Dr.

Vincent and others, but each of these men knew too well the strength of Dr. Smith, his splendid ability and qualifications, his wide popularity as a clean, upright, manly man; his high standing with the people of Umatilla county; his faultless record in the State Senate; his triumph over his enemies at all times heretofore, and each of them said: "Nay, verily, Mr. Furnish; not for me." Then, as a last resort, they persuaded J. N. Burgess, an assemblyite, a tool of "higher ups," to make the race. Now who is Burgess? How many people in Umatilla county ever saw him? He came here two or three years ago and identified himself with a sheep ranch in the southern part of the county. Very few people know him. He was never known to take any interest in public education, good roads, public improvements, nor in anything else except his sheep ranch. Although there are many bright young republicans in Umatilla county, he has imported from Portland or elsewhere a campaign manager by the name of Orton E. Goodwin, who writes "dope" for him in the Pendleton "Live Wire." To elect him State Senator over Dr. Smith would be a political calamity. Every voter, regardless of political or religious affiliations, who is in favor of good schools, good moral conditions, good public improvements, [able representatives in our legislative halls, should vote for Dr. Smith; should work for him openly and aboveboard, and return him to the State Senate by more than a thousand majority. To place Burgess in Smith's place as a senator would be like trying to fill a barrel with a mustard seed or to make a mountain out of a molehill.

Ben Hill, of Pendleton, a bright, clean, moral, upright man—one in favor of the direct primary law, Statement No. 1, and who is unalterably opposed to the assembly idea is making a brilliant race for joint representative for Umatilla and Morrow counties. His opponent is T. J. Mahoney who was endorsed by the assembly and who went to Portland and sought the assembly nomination. Mahoney is a Heppner tanker who went as a delegate to the assembly to boost for Jay Bowerman for governor. He has always been opposed to Statement No. 1 and the direct primary law; and to make it all the worse for Mahoney, he voted for that infamous Bean-

Brooke bill in the last legislature to make it a crime for any man to subscribe to Statement No. 1. Any believer in Statement No. 1 who votes for Mahoney, votes for his enemy and for the enemy of the people of this state. Candidates of his small and pinched calibre who try to make it a crime to subscribe to Statement No. 1 deserve no recognition from the friends of popular government. Ben Hill is a different man; he stands squarely for Statement No. 1, and the laws of the people and is a highly educated, able, clean man.

Dr. M. K. Hall, democratic candidate for joint senator for Umatilla, Union and Morrow counties, was mayor of La Grande during the two years preceding March last, and during that time the people installed a new gravity water system costing \$160,000 adopted all the preliminaries, bond election, etc., and commenced the construction of a complete sewer system that will cost about \$250,000 as well as street improvements consisting of twelve blocks of bitulithic pavement and about three miles of macadam. Dr. Hall is a wideawake, progressive business man, ever on the alert for the good of his own community, and if elected will look well to the interests of the citizens of these three counties.

A new triangular debating league has been formed between Stanford University and the Universities of Oregon and Washington. It is the opinion of the 'varsity men that this new debating league will bring the Coast institutions into much closer relations. For several years Oregon has had practically no intercourse with the California Universities, her relations being confined to the northwest colleges and to Utah.

### A Good Position

Can be had by ambitious young men and ladies in the field of "Wireless" or Railway telegraphy. Since the 8-hour law became effective, and since the Wireless companies are establishing stations throughout the country there is a great shortage of telegraphers. Positions pay beginners from \$70 to \$90 per month, with good chance of advancement. The National Telegraph Institute of Portland, Ore., operates six official institutes in America under supervision of R. R. and Wireless officials and places all graduates in positions. It will pay you to write them for full details.
