ATTENTION, FARMERS!

Every honest, upright American citizen should declare war against the accursed liquor traffic, which has destroyed more victims than war, famine and pestilence combined. Who can picture that horrible business in our own country, sending its 100,000 every year to drunkards' graves, beside the untold misery and poverty following in its wake? Chief Justice Noah Davis said in the Homiletic Review: "Eighty percent of all crimes is due to intoxicants."

The principle of the business is wrong. Shall we blindfold ourselves and let this violator of sacred law—this breeder of lust and murder—this greatest foe of mankind, slaughter our own fellow citizens, destroying peace and happiness in homes?

Temperance people, if you ever had an opportunity to help your fellowmen, you will have it on November 8th. Be sure and vote against that un-American "constitutional amendment, giving to cities and towns exclusive power to license, control, suppress or prohibit the sale of intoxicating liquors within the municipality."

If this amendment should pass, the farmer's right of suffrage has been taken away from him, and cities have the legal right to wreck the farmer's boys and girls, and tax the farmer for court expenses. A crime in the city affects the country as well, and why should they be separate? The so-called "Home Rule" is a snare and a delusion, used by the liquor people.

Vote 329 x No; 342 x Yes; 844 x Yes.

IS A STATEMENT ONE MAN

J. N. Burgess, for State Senator, is Also Practical Farmer.

J. N. Burgess, the unanimous Republican nominee for State Senator, who is now engaged in making a tour of the country in the interests of his campaign, has received encouragement from end to end of the county.

Mr. Burgess is a practical farmer. He does not dabble in theories and for that reason the farmers of Oregon have determined to support him irrespective of party.

With the members of the Republican Party thoroughly reunited and determined to vote the ticket straight, there does not seem any possibility of the Democrats electing their man. The long agreement between the Democratic representatives of this county and Bourne and Chamberlain appears about to be dissolved.

In place of "farming" a large area in the manner of the Democratic representative—that is by visiting it annually to see that he receives the proper number of sacks from his tenants, Mr. Burgess is a practical farmer a practical irrigationist, a prac-

tical wheat raiser and a practical stockman. He does those things himself, too. He is not afraid to work, and never has been.

He intends to be elected to the State Senate because the farmers of the county have long felt that they are getting inadequate representation and have wanted to have one of their own class to represent them.

Mr. Burgess will be able to give his undivided attention to his legislative work. He will not be compelled to spend his time on the cars trying to attend both to patients in Umatilla County and to legislative duties in Salem—both often getting neglected.

Mr. Burgess is a splendid representative man and the voters of this great banner county cannot go far off in electing him to the position of State Senator, to which he aspires.

Mr. Burgess is a supporter of State-ment No. 1 and promises that he will continue to support it and the Direct Primary Law.
