Discontent and Progress.

The pessimist who refuses to believe in any advance is quite as wrong as the optimist who denies that there is any necessity for a forward movement. Now, as always, discontent is a duty, for it is condition precedent to progress. It is not discontent that throws the dynamite bomb; it is despair .--Brander Matthews.

Desperate Coughs

Dangerous coughs. Extremely perilous coughs. Coughs that rasp and tear the throat and lungs. Coughs that shake the whole body. You need a regular medicine, a doctor's medicine, for such a cough. Ask your doctor about Ayer's Cherry Pectoral.

Any good doctor will tell you that a medicine like Aver's Cherry Pectoral cannot do its best work if the bowels are constipated. Ask your ductor if he knows anything better than Ayer's Pills for correcting this sluggishness of the liver. Made by the J. C. Ayer Co., Lowell, Mass.

Absent-Minded Pedagogue Didn't Know Whether He Had Put Baby or Wife's Hat in Oven.

The people didn't merely look at Professor Branefog-they stared. He knew he was absent-minded at times, and he wondered whether he had rubbed his face with boot polish instead of cold cream after he had shaved, or whether he had forgotten to change his dressing-gown for his frock-coat. But a kindly policeman put things right.

"Are you aware, sir, that you are carrying a joint of beef in your arms?" he asked.

"Goodness me!" said the professor. 'I knew something was wrong. My wife told me to put her Sunday hat on the bed, to place this roast in the oven, and to take the baby and the dog for a walk."

"You've not put the baby in the oven, surely?" said the law's guardian. "I put something in it." said Branefog; "but I don't know whether it was the baby or the dog."

With bated breath they hurried to the professor's house. Here, on the bed, lay the baby and the dog; but it was just as bad for Branefog. It was his wife's Sunday hat that was in the the ordinary people, who are so used

Eczema All Over Baby's Body. "When my baby was four months old his face broke out with eczema, and at sixteen months of age, his face, hands and arms were in a dreadful state. Du Quesne's First Fight,

A monument of the gallant Admira; Du Quesne has fust been provided at fore apposite. He was the son of a man, and that it was Mr. Atchley's deship builder, and at the age of 17 was placed in command of one of his father's vessels. He sailed forth, espied a Dutch vessel, boarded it, compelled it to surrender and brought it into port. Not until he had been carried through the streets in triumph on the shoulders of his fellow townsmen did it occur to the officials that France and Holland were at peace. That fact being admitted, legal proceedings had to follow, as the result warned to be more careful another exploit, and without considering the comity of nations offered him a commission in the navy.

The Exiled Bucket.

It can't be possible that this new law affecting drinking cups and other receptacles really abolishes the 'old oaken bucket!" It is true, of course, that in several towns of the state the well and its bucket are still in public use, and a man with an inordinate thirst prefers the bucket to the tin cup that generally accompanies it. But for sentiment's sake somebody should have been shrewd enough when the law was enacted to exempt the wellsweep from the clutches of scientific progress. Hail to the disappearance of the public drinking cup, but "weeps" for the exiled oak bucket!
