For Business Use

There are a great many places and occasions when the possibility of getting extra heat immediately effects an economy by decreasing the discomfort of the worker. In the office, in the early morning or late at night, before or after the steamheat is on, it is of importance to have extra heat. In the builder's outside office, in the shipping room, in the checker's shack, on exposed lofts, in railroad stations, in studios, the

PERFECTION
SMOKELESS
OIL HEATER

Absolutely smokeless and odorless

Is often a necessity. It is safe, smokeless and odorless. Apply a match, and it gives heat quickly. With four quarts of oil it burns nine hours. Has automatic-locking flame spreader, which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so that the wick can be cleaned in an instant.

It has a cool handle and a damper top. An indicator always shows the amount of oil in the font. The filler-cap it is put in like a cork in a bottle, and is attached to the font by a chain.

The burner body or gallery cannot become wedged, because of a new device in construction, and consequently, it can always be easily unscrewed in an instant for reworking.

The Perfection Oil Heater is finished in Japan or nickel. It is strong, durable, well made, built for service, yet light and ornamental.

Note Your Exceptions.
One of the philosophers says that everything is sweetened by risk, but we must except bank deposits.—Louisville Courier-Journal.
And how about matrimony?

Remedies for Scallothness.
Among curious remedies for scallothness is that which is popular among the mariners in the Levant—the daily swallowing of iron rust, which is obtained by scraping it off the anchor or anchor chain. But this is only part of the necessary treatment, for a small pouch containing roasted salt and flowers of thyme must be tied upon the abdomen as firmly as can be borne—this being considered to counteract the effects of the internal disturbance caused by the rolling of the vessel.

Loss of Appetite

Loss of vitality, vigor or tone, and is often a forerunner of prostrating disease.

It is serious and especially so to people that must keep up and do or get behindhand.

The best medicine to take for it is the great constitutional remedy

Hood's Sarsaparilla

Which purifies and enriches the blood and builds up the whole system.

MAN WAS TOO ENTHUSIASTIC

Noted Horse Trader Would Not Lie About Horse's Good Traits—Merely Suppressed Truth.

Hank Dobbs was noted as an "hon est" horse trader. He would not lie about a horse. He would merely suppress the truth. Incidentally, he always beat the customer who dealt with him. The way he could slur over the defects and buzz about the virtues of an animal amounted to genius.

Once Hank was trying to sell a neighbor a horse that had an eye which was nearly sightless. The neighbor knew Hank would not lie outright to him, so he questioned the horse trader as to the various points of the brute.

"How about his eyesight? Can he see out of both eyes?"

"Sure," said Hank, "he's got good eyes." Here he leaned forward, his eyes fairly scintillating with suppressed honesty. "One eye is particularly good."

Hank's enthusiasm for the truth had carried him too far. The deal was off.

Between Neighbors.
"That thermometer I bought is a fraud. It hasn't brought on an extraordinary weather." "You've got the wrong idea, Peleg. A thermometer won't act like a lightning rod."

Betty and the Kitten.
Betty is only four, and often in her excitement she makes very odd remarks. The other day she cried out: "Oh, mother, there's a dear maltese kitten all curled up in the corner!"

Touch of Sarcasm.
Le Sage: I wish you all sorts of prosperity with a little more taste.

Costly Articles.

The most costly book in the world is a Hebrew Bible, owned by the German government, which a few years ago refused the Pope's offer of \$125,000 for it. The most costly medicine a few years ago was metallic gallium, which sold for \$150,000 a pound; but radium is now the priceless gem of the mineral world, selling for more than that price an ounce.

Human Life as National Resource.

The gradual lowering of the death rate is one of the great achievements of science and civilization. Conservation of life is the most important of the many current projects for conserving national resources. But human life is still held far too cheap and methods of checking waste are still more or less rudimentary.

Anxious Father's Advertisement.

A Frenchman's advertisement, in a Boston paper, ran in the following singular strain: "Lost, last evening; a child about five years old; whoever will return him to his home, in Fore street, shall be handsomely rewarded by his afflicted father, Jean Baptiste, who likewise deals in French brandy."—From a London Newspaper, 1807.

Bulls Haul Street Cars.

Four miles of street railway and some bulls are making a rich man out of a resident of Daet, in the Philippines. The little railroad runs from Daet to the port, and has no lack of passengers or of freight traffic. The cars are of the small street railway type, and they make the four miles uphill from the port to Daet in twenty-eight minutes, although the bulls who draw the cars do not exert themselves unduly.

Real Courtesy.

"Say," said our Country Cousin, "you was wrong when you said that Mr. B Jones wouldn't have time to talk to me. Why, he hadn't read that letter of introduction you gave me half through before he told me to call again. Yes, sir, he seemed to want me to come and see him real often. While I was explainin' who I was, he invited me to call again at least six times. And I'll bet I wasn't there more'n an hour!"

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Strange Hobby.

William James, probate court deputy, tells of a pest extraordinary that comes about that office. She is a woman, a middle-aged, heavy jowled person, who comes around shortly after she has read in the paper of the death of a prominent man. And she comes because she wants to read the dead man's will as soon as it is probated. She has no hopes of receiving a bequest in any of the wills. She just likes to look them over. Reading wills is her hobby.—Cleveland Plain Dealer.

Remington REPEATING RIFLE

We are just as proud of the REMINGTON .22 Repeaters as we are of the Remington Big Game high power rifles—for just as good reasons. No other make of the .22 class is built to as high a standard.

The features that place the REMINGTON .22 in a class by itself are the real big REMINGTON features—Hammerless and Solid Breech. You clean the barrel from the breech—not forcing the dirt back into the working parts as in other .22's, insuring life-time usefulness and maintaining constant shooting condition.

There is perhaps a greater difference between the REMINGTON and other .22 Repeaters than is to be found between rifles of any other class.

A REAL RIFLE—the REMINGTON .22 Repeater. Shoots without adjustment. .22 short, .22 long or .22 long rifle cartridges.
