### Working the Grounds.

### Card of Thanks.

We desire through the columns of the Press to extend our heartfelt thanks to our friends and neighbors for the many kindly acts extended us in our bereavement.

L. J. Foss and Family.

### A German Title.

In the matter of titles the Germans show more courage than we do. On a card which reached London the other day the sender describes herself as Frau —, Rasiermesserhohlschleifeldirektorswitwe. Would any English woman venture to describe herself as widow of the razor-shaver's collar-buttoning works? When this was shown to a German friend he produced a card on which the sender was entitled "Staats-schuldentilgungsbureauausgeber's witwe," a description which she held to be her due as the widow of an official in the national debt office.—London Chronicle.

### More Territory.

"I envy you," says the very thin man. "I wish I had your weight. Here I am, a skinny, dyspeptic creature, suffering half the time with stomach ache."

"Envy me!" chuckles the very fat man. "Why, what if you do have the stomach ache half the time? Think what a little bit of a stomach ache you can have. Now, when I have the stomach ache it amounts to something."—Life.

### Perfectly Natural.

"The supposed young millionaire bought an airship just before he was declared bankrupt."

"That was a perfectly natural proceeding."

"How so?"  
"Most people do buy airships before they go up."—New York Journal.
