

# OWES HER HEALTH

To Lydia E. Pinkham's  
Vegetable Compound

Scottville, Mich.—"I want to tell you how much good Lydia E. Pinkham's Vegetable Compound and Sanative Wash have done me. I live on a farm and have worked very hard. I am forty-five years old, and am the mother of thirteen children. Many people think it strange that I am not broken down with hard work and the care of my family, but I tell them of my good friend, your Vegetable Compound, and that there will be no backache and bearing down pains for them if they will take it as I have. I am scarcely ever without it in the house.

"I will say also that I think there is no better medicine to be found for young girls to build them up and make them strong and well. My eldest daughter has taken Lydia E. Pinkham's Vegetable Compound for painful periods and irregularity, and it has always helped her.

"I am always ready and willing to speak a good word for the Lydia E. Pinkham's Remedies. I tell every one I meet that I owe my health and happiness to these wonderful medicines."

—Mrs. J. G. JOHNSON, Scottville, Mich., R.F.D. 3.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases.

## HOW PHAROAH WAS DROWNED

Beloved Minister Insisted Egyptians Broke Through Ice After Children of Israel Had Crossed.

There is a story of an old colored minister, which I am fond of telling, that illustrates what I mean. The old fellow was trying to explain to a Sunday school class how it was and why it was that Pharoah and his party were drowned when they were trying to cross the Red sea, and how it was and why it was that the Children of Israel crossed over dry shod. The old minister explained it in this wise:

"When the first party came along it was early in the morning and the ice was hard and thick, and the first party had no trouble crossing over on the ice, but when Pharoah and his party came along it was 12 o'clock in the day and the sun was shining hot on the ice, and when they got on the ice it broke, and they went in and were drowned."

Now, there happened to be in this class a young colored man who had had considerable schooling, and this young fellow turned to the old minister and said:

"Now, Mr. Minister, I do not understand that kind of explanation. I have been going to school and have been studying all these conditions, and my geography teaches me that ice does not freeze within a certain distance of the equator."

The old minister replied: "Now, I've been expecting something just like this. There's always some fellow ready to spile all the theology. The time I've talkin' about was before they had geographies or 'quators either."

Now, this old man, in his plain and simple way was trying to brush aside all artificiality and to get down to bedrock. So it was with me.—Booker T. Washington, in World's Work Magazine.

**Depends on Crops.**  
The financial barometer rises or falls with assurances of promise or greater or lesser crops. With large crops every interest of manufacturers, trade, transportation and commerce are active with promise of general prosperity, and no private interests should be able in any manner to obtain preference or advantage over an industry upon which the prosperity of all great interests are so largely dependent.

**Never an Overproduction.**  
So long as there are thousands of poorly nourished and underfed men, women and children in every large city, many of whom are sustained by charitable aid, there can be no overproduction of foods. In every large city there is an enormous underconsumption not only of foods but of other necessities that are having a serious effect upon the best development of cities.

Constipation causes many serious diseases. It is thoroughly cured by Doctor Pierce's Pleasant Pellets. One laxative, three for cathartic.

**Industry in Switzerland.**  
Dairy farming constitutes an important industry in Switzerland. The production and handling of large quantities of milk, consumed in numerous chocolate factories and milk-condensing concerns in the confederation, the domestic consumption of milk, butter and cheese and the manufacture of cheese for export engage the attention and services of a large number of people.

**Specialized Farming.**  
Miss Jessie Nicholson inherited a farm of 225 acres in New Jersey, which her father had farmed in the old way. When she took it she realized that the new way to do things is to specialize, so she began to do this on the farm. She raises Canada field peas, her own hay and makes a silo, sells chickens and milk, and that is all. There are 100 cows and she puts away \$3,000 each year.

## A WARNING TO MANY

Some Interesting Facts Regarding Health Statistics.

Few people realize to what extent their health depends upon the condition of the kidneys.

The physician in nearly all cases of serious illness, makes a chemical analysis of the patient's urine. He knows that unless the kidneys are doing their work properly, the other organs cannot be brought back to health and strength.

When the kidneys are neglected or abused in any way, serious results are sure to follow. According to health statistics, Bright's disease which is really an advanced form of kidney trouble, caused nearly ten thousand deaths in 1909, in the state of New York alone. Therefore, it behooves us to pay more attention to the health of these most important organs.

An ideal herbal compound that has had remarkable success as a kidney remedy is Dr. Kilmer's Swamp-Root, the great Kidney, Liver and Bladder Remedy.

The mild and healing influence of this preparation is soon realized. It stands the highest for its remarkable record of cures.

If you feel that your kidneys require attention, and wish a sample bottle, write to Dr. Kilmer & Co., Binghamton, N. Y. Mention this paper and they will gladly forward it to you absolutely free, by mail.

Swamp-Root is sold by every druggist in bottles of two sizes—50¢ and \$1.00.

## SHE TRIMMED HER OWN HAT

Pretty Girl Designed Neat Piece of Headgear but Left the Price Tag on the Feather.

Half a dozen pretty girls were discussing millinery. Said one of them, in reference to an absent friend: "Her hats certainly are stunning and she trims all of them herself." Said another: "I hope she may never have such an experience as I had recently. My sense of humor enabled me to live through it, but I'd not like to see any one else have it. I, also, trim my own hats.

"This fall I designed one that I thought was about the most effective I ever had, though it was extremely simple. It consisted only of a feather and a twist of velvet around the crown of a big, stylish shape. The first time I wore it was to church. I felt gratified to think that the eyes of the whole congregation were resting, at one time or another, on that hat, because the style was one to challenge attention and nobody could avoid seeing it. That is, nobody within a radius of a mile or so. When I returned home and removed the hat there was a large white ticket dangling from almost the tip of the feather, and on it was marked in large figures '35c.' The ticket had been cunningly concealed underneath the feather, so that all the time I was trimming the hat I never had seen it, but wearing the hat had jarred the ticket into sight. I had picked up the feather at a bargain counter. It was a showy one and really looked as if it might have cost two or three dollars. Of course, I had the pleasure of knowing that the whole congregation had read the price."

**Thrashing Machines.**  
The fall was the only instrument formerly used for threshing grain. The Romans used a machine called the tribulum—a sledge loaded with stones or iron, drawn over the grain sheaves by horses or oxen. The first machine attempted in modern times was invented by Michael Menzies at Edinburgh, about 1732. Another was invented in 1776. It is only within the past thirty-five years that the threshing machine was brought to anything like perfection.

**Beating the Bachelor.**  
In Sicily the fir tree is unknown. As a Christmas adjunct, but the very ludicrous custom of "beating the bachelor" is observed by the women. All of the unmarried men in the village are driven into the church after mass by the outnumbering women and run until they declare (often falsely) that they will wed ere another Christmas comes around.

**But Marts of Trade.**
