BEST RATTLESNAKE REMEDY

Strychnine is the Only Positive Antidote for a Big Injection of the Poison.

Strychnine is probably the only positive antidote for a big injection of rattlesnake toxin, a bite or rather stroke such as a four-foot snake would inflict on the fleshy part of the body, as the calf or thigh. For such a bite, carrying as it does half a teaspoonful or more of venom deep into the flesh, all ordinary cures are unavailing. Hypodermically injected, however, in sufficient quantities surely to kill the patient were he not suffering from the snake poison, strychnine is a certain counteractant. The greatest danger is said to be in administering too little strychnine. As a matter of fact but few even of skilled physicians have enough knowledge of the subject to be able to act with any assurance in administering strychnine in such cases. That rattlesnake poison and strychnine are exact opposites has been shown by experiments in which animals dying of strychnine inoculations have been cured by injections of the snake venom.—Popular Mechanics.

Fashions in Bulgaria.
Bulgaria believes in fringes, and they are over all with the rare exceptions when the underskirt, always of the best of white linen, may be scalloped at the bottom and even then the fringe effect is used in the over tunic, for the gathering of the many threads suggests to the wearer the numbers of their nations, as is their peculiar red dyed reminder of their blood, and the flowers, and grains, and fruits, embroidered on their gowns represent their industry.

Compliment Well Returned.
The story is told that Judge Story and Edward Everett were once the prominent esopages at a public dinner in Boston. The former as a voluntary toast, gave: "Fame follows merit where Everett goes." The gentleman thus delicately complimented at once arose, and replied with this equally felicitous impromptu: "To whatever height judicial learning may attain in this country, there will always be one Story higher."

Light in Ocean's Depths.

Distinct traces of light have been detected at the great depth of 500 fathoms below the ocean surface by Sir John Murray's oceanographical expedition of 1910. More recently, brightly colored organisms have been dredged up from an even greater depth, in the form of rose foraminifers with rose pink shells.

CATTLE GUARD IS EFFECTIVE

Novel Device Prevents Cow From Wandering on Rails and Meeting Injury.

Chicago.—The old story about some one asking George Stephenson, the inventor of the locomotive, what would happen to a train if a cow wandered on the line, to which the latter replied he would "be very sorry for the cow," seems to have found a sympathetic echo in the western states in the form of a novel cattle guard on railways, the practical utility of which is demonstrated in the illustration. The device claims to effectually prevent cattle straying up the railway line and thus meeting with injury or death from oncoming trains. As the cow walks along the track she meets

a tilting platform between the rails which tips up as she steps upon it. The cow, imagining her progress to be barred and not endowed by nature with a superabundance of intelligence—a fact which the wily inventor must have borne in mind—instead of walking round the obstruction proceeds to compliment the exceeding ingenuity and foresight of its originator by walking off the line altogether.

The Conundrum Club.

It was during the prune course at the boarding-house breakfast table. The thin man spoke:

"I've got a new one this morning. Why is a one-cent stamp like a sleep?"

"Because," began the stenographer with her eyes on the ceiling.

"No, that's not the reason," said the thin man.

"My guess is because a sale make it go," suggested the fat boarder at the end of the table.

"Very good," said the thin man, "but not the correct answer."

"Well, we give it up," came in chorus.

"Because it's a single sticker," said the thin man as he began to dodge things.—Yonkers Statesman.

A Long Yell.

The house of the Widow Barnes, at Beloit, Wis., took fire around the chimney in the night, and she sent her son Johnnie out to cry and arouse the neighbors. Johnnie's yells did the trick, and the fire was put out, but he still kept on yelling. As a matter of fact he yelled for seven days and nights before they could quiet him. The doctor said it was a nervous attack, brought on by his sudden fright. During that long week there was yelling enough to last the town for five years, and Johnnie will have a frog in his throat for some time to come.

The Unassertive Listener.

"That man agreed with every opinion I expressed," said the positive woman.

"Indeed," replied Miss Cayenne; "he must have been very much interested or very much bored."

Build the Fence Strong.

Build the line fence strong enough to keep your own and your neighbor's stock on the right side, but do not have it so high that it will prevent you from being neighborly.

Aurora Borealis.

According to a theory recently enunciated, the aurora borealis is formed of cathode rays, emitted by the sun and deflected by the terrestrial magnetic field in the upper strata of the atmosphere. The velocity of these cathode rays must be nearly equal to that of light, and very much greater than the velocity of cathode rays produced in the laboratory. Lenard concludes that these extremely "hard" cathode rays are emitted by unknown radio-active substances in the sun.

The Idiot Again.

The turkey was not a very large one and Mrs. Pedagog's boarders began to be a little anxious on the subject of its going around. Finally the last bit was distributed and the idiot, glancing at his portion, observed that he had drawn the neck and the pope's nose.

"Ab, Mrs. Pedagog," said he, with a genial smile, "you are a wonder at making both ends meet!"—Lippincott.

Algebra to Be Made into Poetry.

It is reported that a French teacher has invented a system for teaching algebra in poetry. About fifty-five years ago there was an educational system in vogue by which a considerable share of the academic curriculum was set to music and sung by the teachers and classes. Even the multiplication table was one of the songs, sung to the tune of "Yankee Doodle."—American Educational Review.

Why Australia Has Thrived.

We believe it to be the case that the conditions of Australia, where reward is more proportionate to ability and effort, and less dependent than in an old country upon birth and favor, lead to the development among natives of the commonwealth, on the average, of greater activity of mind and body than is found among the natives of the United Kingdom.—British Australasian.

Backache

Is only one of many symptoms which some women endure through weakness or displacement of the womanly organs. Mrs. Lizzie White of Memphis, Tenn., wrote Dr. R. V. Pierce, as follows:

"At times I was hardly able to be on my feet. I believe I had every pain and ache a woman could have. Had a very bad case. Internal organs were very much diseased and my back was very weak. I suffered a great deal with nervous headaches, in fact, I suffered all over. This was my condition when I wrote to you for advice. After taking your 'Favorite Prescription' for about three months can say that my health was never better."

Dr. Pierce's Favorite Prescription

Is a positive cure for weakness and disease of the feminine organism. It allays inflammation, heals ulceration and soothes pain. Tones and builds up the nerves. Do not permit a dishonest dealer to substitute for this medicine which has a record of 40 years of cures. "No, thank you, I want what I ask for."

Dr. Pierce's Pleasant Pellets induce mild natural bowel movement once a day.

PAINLESS DENTAL METHODS

Are demanded these days, but expert Dentistry should not end with Painless methods. After the work is all done you have a right to expect your own teeth to be restored to their former usefulness and beauty, or new teeth that give the same service as healthy ones of your own.

Physician Said Appendicitis

Gall Stones Expelled by the Great Kidney Preparation

I thought I would do you a favor and let you know what Swamp-Root has done so far for me.

About one year ago I was taken sick with a terrible pain in my right side. My family physician pronounced it appendicitis. About two weeks ago I received your Almanac and read in it about weak kidneys, and my back hurting me so much, I thought I would try your Swamp-Root and to my great astonishment, after using one bottle, I expelled three gall stones, which weighed 135 grains—just think of it. My kidneys are not well yet, and so I have concluded to continue with Swamp-Root. Mr. Schwabe, the druggist, thought that it never was appendicitis and that the doctor had made a mistake. It was no doubt, gall stones that caused the trouble, or they would not have come away so soon after commencing with Swamp-Root.

I shall always praise Dr. Kilmer's Swamp-Root to all those who suffer from kidney, liver and bladder troubles and am very thankful that I ever discovered such a worthy remedy. I feel confident that it will cure me entirely of all kidney and liver trouble.
