Use of Attar of Roses.

More than \$50,000 worth of attar of roses is brought into this country every year. The best is from roses grown near Constantinople. Not only does this bring a higher price than the product of the Bulgarian rose fields, but its superiority is recognized by a separate classification in the trade. Where does the \$50,000 worth of this oily perfume go? Some of it as "base" for other perfumes, and some of it where few suspect—to the manufacturers of smoking and chewing tobacco.

The Perpetual Change.

The things of the world are ever rising and falling, and in perpetual change; and this change must be according to the will of God, as he has bestowed upon man neither the wisdom nor the power to enable him to check it. The great lesson in these things is that man must strengthen himself doubly at such times to fulfill his duty, and to do what is right, and must seek his happiness and inward peace from objects which cannot be taken away from him.—Wolfram von Humboldt.

MADE HIS OWN WAY

Immigrant Boy Becomes a Law School Professor.

Samuel Want Was Penniless When He Came From England Ten Years Ago—Now an Expert Commercial Lawyer.

Baltimore, Md.—At twenty-two years of age, Samuel Want, who came to this country a penniless immigrant ten years ago, has been appointed a member of the law faculty of the University of Maryland. Mr. Want is also an assistant editor of the American and English Encyclopedia of Law, Lawyers' Reports Annotated and several other legal publications. He is instructor in commercial law at the eastern high school, a member of the Maryland bar, and is engaged in other activities and labors.

The appointment by the faculty of the University of Maryland, of which Chief Judge Harlan is dean, is the result of sheer force of merit and effort on the part of young Want. He entered the university in 1907 as a freshman and was graduated from the school in June, 1908. He made the three-year regular course in less than 12 months and the faculty were quick to appreciate the intellectual and gifted qualities of the young man. His special duties on the faculty are to instruct students in the selection of books and authorities. The young professor has had a varied and picturesque career made interesting because he came to this country penniless and without friends at the age of twelve years from Newcastle, England.

Young Want knew a former Englishman who lived in Darlington, S. C., and straightway made for that southern town. He astonished the residents of that city when he ambled from a freight train into the post office and inquired for the man whom

WEAPON OF THE PAMPAS

Primitive, but Formidable, is the Bola, Effectively Used by the Patagonians.

In pre-ergetic days, terminating with the Spanish invasion, these sons of the pampas lived a much more athletic existence; for today the Tehuelche, like the gaucho, will not walk a hundred yards if his horse is close at hand, and it usually is. To the horse is probably due the disappearance of the sling and the bow and arrow, as well as the more prevalent use of that unique and characteristic weapon of the pampas, the boleadoras, or bolas.

This consists of two or three rawhide-covered balls, connected by rawhide, to be swung around the head, and hurled from the saddle by one of the balls, slightly egg-shaped, called the manilla, or hand-ball, with the result that the quarry is entangled around the legs, and incidentally struck and pounded by the balls themselves. The more primitive bolas were round stones, to which rawhide guano was attached in a groove. Later these were covered with rawhide for horses, and the lines doubled, and now many bolas leathers are filled with shot or iron. Three-balled bolas are used for horses, while two-balled serve for ostrich and sometimes guanaco, which are bolted about the neck. A single ball, called the bola perdida (lost ball), with an attached string, used as a hurling-stone, was undoubtedly the most primitive form of this formidable weapon. Horses are never bolted by a man on foot, for the obvious reason that they must be taught not to fear a man coming thus, this precaution enabling a lone dismounted man to approach his horse—Charles W. Furlong, F. R. G. S., in Harper's Magazine.

Phillips on Matrimony.

The late David Graham Phillips had, like many bachelors, a cynical view of matrimony. Mr. Phillips, at a reunion of Princeton's class of '87, at the Princeton club, said of marriage: "The Persians have a proverb that every young man should consider well before proposing. It runs: 'He that venturath on matrimony is like unto a sack containing many thousands of serpents and one eel. Yet, if the prophet so will it, he may draw forth the eel.'"

Taking into account Australia and all of the islands of the tropical seas, the world may have 10,000 millionaires, outside of North America and Europe, Russia excluded. The United States alone must have more millionaires than the total for continents which contain two-thirds of the people in the world.

A Groomsman's Weapon.

A certain English family owns a stiletto which inspires every one who holds it with a horrible and almost irresistible desire to kill some woman. This weapon belonged to an ancestor whose wife deceived him and drove him mad. He swore revenge against the whole sex, and with the dagger killed his wife, his wife's sister and another woman before he was disarmed and secured.

How Good Health Tells.

Poor physical health handicaps many girl workers and prevents the highest development of their powers. An anemic brain produces poorer work than one that is nourished by blood rich in red corpuscles. The dyspeptic girl is irritable, seedy, and out of sorts when all her vitality is called on to make a special effort in her work. "Nerves" may make all the difference between success or failure.

To keep her health up to a good standard ought to be the aim of every girl who wishes to make something of her life. Too many girls allow themselves to drop into poor health, which is so apt to become chronic unless the tendency is checked at the beginning. A girl owes a duty to herself to keep fit and well and attend to her digestion, her muscles, her breathing. The habits of breathing properly, chewing the food thoroughly, daily exercises out of doors, are all small matters; but one or two rules of daily conduct occasionally broken contrive after a time to affect physical health and personality both. Once let a girl make her mind up to cultivate a habit of self-development, and she follows these rules almost automatically.

Each detail may be unimportant in itself, but the sum of them is not. They are the points that tell in the making of what should be every girl's aim to obtain—health and personality.

Weak Heart

Many people suffer from weak hearts. They may experience shortness of breath on exertion, pain over the heart, or dizzy feelings, oppressed breathing after meals or their eyes become blurred, their heart is not sufficiently strong to pump blood to the extremities, and they have cold hands and feet, or poor appetite because of weakened blood supply to the stomach. A heart tonic and alterative should be taken. Such is Dr. Pierce's Golden Medical Discovery, which contains no dangerous narcotics nor alcohol.

The ingredients, as attested under oath, are Stone root (Collinsonia Canadensis), Bloodroot (Sanguinaria Canadensis), Golden Seal root (Hydrastis Canadensis), Queen's root (Sillaria Virginiana), Black Cherry bark (Prunus Virginiana), Mandrake root (Podophyllum Peltatum), with triple refined glycerine, prepared in a scientific laboratory in a way that no druggist could imitate.

This tonic contains no alcohol to shrink up the red blood corpuscles; but, on the other hand, it increases their number and they become round and healthy. It helps the human system in the constant manufacture of rich, red blood. It helps the stomach to assimilate or take up the proper elements from the food, thereby helping digestion and curing dyspepsia, heart-burn and many uncomfortable symptoms, stops excessive tissue waste in convalescence from fevers; for the run-down, anemic, thin-blooded people, the "Discovery" is refreshing and vitalizing. Stick to this safe and sane remedy, and refuse all "just as good" medicines offered by the druggist who is looking for a larger profit. Nothing but Dr. Pierce's Golden Medical Discovery will do you half as much good.

Many people think it strange that I am not broken down with hard work and the care of my family, but I tell them of my good friend, your Vegetable Compound, and that there will be no backache and bearing down pains for them if they will take it as I have. I am scarcely ever without it in the house.

"I will say also that I think there is no better medicine to be found for young girls to build them up and make them strong and well. My eldest daughter has taken Lydia E. Pinkham's Vegetable Compound for painful periods and irregularity, and it has always helped her.

"I am always ready and willing to speak a good word for the Lydia E. Pinkham's Remedies. I tell every one I meet that I owe my health and happiness to these wonderful medicines."—Mrs. J. G. JOHNSON, Scottville, Mich., R.F.D. 3.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases.
