DR. W. M. PFUNDERS' OREGON BLOOD PURIFIER

A Tonic, Alternative and Resolvent. The best remedy for Kidneys, Liver and Bowels. Eliminates Pimples, Eruptions and Disorders of the Skin. Purifies the Blood and gives Tone, Strength and Vigor to the entire system.

No Time Wasted.

Olaf Larson, working in a millinery warehouse, backed into an elevator shaft and fell down five stories with a load of boxes. Horror-stricken, the other employees rushed down the stairs, only to find him picking himself unharmed out of the rubbish. "Esa de boss mad!" he whispered cautiously. "I'm ay had to come down for nails anyway."—Success Magazine.

A Lost Art.

Another art has been lost! There was a time when the elegant woman took a legitimate pride in her manner of ascending a stair. In this day of elevators, if there still exist women who have the manner, there are few stairs worthy to serve as a stage on which they may exhibit it.

IT REPELLENT

Drives away Flies, Mosquitoes and Gnats. It protects horses and cattle from attacks of insects, enabling them to feed and sleep in peace. It prevents loss of weight and strength from worry caused by attacks of insects, and from the irritation of their bites and stings. There is a satisfaction in the relief it affords domestic animals from the stings of maddening parasites and flies, besides the profit in return. Horses do more work on less feed and cows yield more and better milk when relieved from the frenzy incited by constantly fighting a swarm of voracious, insatiable insects.
Four sizes, 25c, 50c, 75c and \$1.25. Ask your merchant for it.

DEATH BEFORE 100 YEARS IS SUICIDE

Ignorance of Laws of Health Explains Early End of Life.

Noted Scientist Has Encouraging Word for Despondent Men and Women.

"Death before 100 years of age has been reached is nothing more or less than slow suicide. A man (or woman) who dies at an earlier age is simply ignorant of the laws of health."

Such was the original and rather startling statement made by Professor James M. Munyon, the famous Philadelphia health authority, who is establishing health headquarters in all the large cities of the world, for the purpose of getting in direct touch with his thousands of converts.

Professor Munyon is a living embodiment of the cheerful creed he preaches. Virile, well-poised, active and energetic, he looks as though he would easily attain the century age limit which he declares is the normal one. He said:

"I want the people of the world to know my opinions on the subject of health, which are the fruit of a lifetime devoted to healing the sick people of America. There isn't a building in this city big enough to house the people in this State alone, who have found health through my methods. Before I get through there won't be a building big enough to house my cured patients in this city alone."

"I want, most of all, to talk to the sick people—The invalids, the discouraged ones, the victims of nerve-weariness, body racking diseases and ailments—for these are the ones to whom the message of hope I bear will bring the greatest blessing."

"I want to talk to the rheumatists, the sufferers from stomach trouble, the ones afflicted with that noxious disease, catarrh. I want to tell my story to the women who have become chronic invalids as a result of nervous troubles. I want to talk to the men who are 'all run down,' whose health has been broken by overwork, improper diet, late hours and other causes, and who feel the creeping clutch of serious chronic illness."

"To these people I bring a story of hope. I can give them a promise of better things. I want to astonish them by showing the record of cures performed through my new system of treatment."

"I have taken the best ideas from all schools, and embodied them in a new system of treatment, individually adapted to each particular case. I have no 'cure alls,' but my present method of attacking disease is the very best thought of modern science. The success which I have with these treatments in this city, and all over America, proves their efficacy. Old methods must give away to new medical science moves. I know what my remedies are doing for humanity everywhere. I know what they will do for this city. Let me prove my statements—that's all I ask."

The continuous stream of callers and mail that comes to Professor James M. Munyon at his laboratories, 53rd and Jefferson streets, Philadelphia, Pa., keeps Dr. Munyon and his enormous corps of expert physicians busy.

Prof. Munyon makes no charge for consultation or medical advice. Not a penny to pay. Address: Prof. J. M. Munyon, Munyon's Laboratories, 53rd and Jefferson Sts., Philadelphia, Pa.

Our Life's Work.

We are not sent into this world to do anything into which we cannot put our hearts. We have certain work to do for our bread and that is to be done strenuously; other work to do for our delight and that is to be done heartily; neither is to be done by halves or shifts, but with a will; and what is not worth this effort is not to be done at all.—John Ruskin.

Wealth Not Always Advantage.

Advantage, opportunity, chance, luck! They are all on the side of the boy born in obscurity, brought up in poverty. Provided he be endowed with the will that brooks no obstacle, with the mental ability to conceive great thoughts, to plan great undertakings, the boy is all the more blessed who is not handicapped by wealth!

Victoria Fond of Jewelry.

Queen Victoria, although simple in her tastes, had an almost oriental liking for beautiful and costly jewelry. Even if she rarely wore it, its possession gave her pleasure and she is reported to have spent hours in looking over her collection.

Foolish Wager Caused Death.

A workman named Celestin Leroy, aged fifty, died in Paris, France, the other day while trying, for a wager, to eat a large beefsteak at one mouthful.

Naturally Opposed to Change.

When a new government is established, by whatever means, the people are commonly dissatisfied with it.—Hume.

You May Need It

Ask your doctor about the wisdom of your keeping Ayer's Cherry Pectoral in the house, ready for colds, coughs, croup, bronchitis. If he says it's all right, then get a bottle of it at once. Why not show a little foresight in such matters? Early treatment, early cure.

Ayer's

We publish our formulas. We banish alcohol from our medicines. We urge you to consult your doctor.

Many a boy is called dull and stupid, when the whole trouble is due to a lazy liver. We firmly believe your own doctor will tell you that an occasional dose of Ayer's Pills will do such boys a great deal of good. They keep the liver active.

Made by the J. C. Ayer Co., Lowell, Mass.

BLACK HAWK STATUE

Colorado Taft's Monument to Vanishing Race.

Red Man, Towering Over Valley Long Indians' Sole Property, Seems Leaving the Site Reluctantly—Made of Concrete.

Oregon, Ill.—With impressive ceremonies the statue of the famous Indian chief Black Hawk was dedicated at Eagle Nest camp, the summer colony of Chicago artists and writers, near here. The statue of the great chieftain is the work of Lorado Taft and stands on a 200-foot bluff across the river from the town and just outside the limits of the camp. Among the members of the party at the dedication were some of the best known of Chicago's artists, sculptors and writers. Edgar A. Bancroft was the principal speaker and presented the statue to the people of Illinois. Responses were made by Dr. Charles C. Eastman and Miss Laura M. Cornelius.

The statue of Black Hawk occupies a position on the highest point in Rock river valley. It is mammoth in size—being 47 feet high—and represents the work of four years. It is built of concrete and is expected to be a permanent monument to the red men who once roamed this section. The facial lineaments are of Black Hawk, but the sculptor's idea was to make the statue typical of the vanishing North American Indians.

The figure of Black Hawk is represented in a blanket, reluctantly leaving the valley which served his tribe as council grounds long before the white man came to this continent. This remarkable statue, which is made of re-enforced concrete by a new process, is itself imposing, and has been placed upon a rock 200 feet above the water, the highest point in the picturesque Rock river valley. The statue

Statue of Black Hawk.

is visible from many miles, and hundreds of people came from adjacent cities in Illinois to view and admire it. Should this work weather well and preserve its fine contour and lines, Mr. Taft thinks it is probable it will mark an era in the erection of statuary in re-enforced concrete.

On leaving the grove which bordered the roadway climbing the bluffs, the statue appeared in its majesty on the bank of the river. There was no unveiling, as Mr. Taft wished the first sight of the monument to be one of its entire mastery.

Below, midstream, lies Margaret Fuller's island, sacred to the memory of Madam de Ossoli, the poetess who once lived here. Two miles distant, beyond the oak groves, rise the spires of Oregon. Mr. Taft's other works, the Indian "Paducah" in the city of that name in Kentucky and "The Eternal Silence," the Graves monument in Graceland cemetery, Chicago, have a similar feeling of majesty to that of his latest creation.

QUEBEC BRIDGE IS BIGGEST

Time of Construction Shows Advance in Engineering Since Brooklyn Bridge Was Built.

Quebec, Ont.—The new bridge across the St. Lawrence river near here supplants the mighty structure that fell when half finished in the summer of 1907. The site of the new bridge is the same but the north pier is moved out 50 feet further into the river, thus appreciably shortening the central span. The new bridge contains 120,000,000 pounds of steel, as compared with the 100,000,000 of its predecessor. It will cost when completed not less than \$12,000,000, and will have the longest truss span of any bridge in the world—1,800 feet, or 90 feet more than that of the great Fifth of North bridge in Scotland.

The construction of this bridge, which has taken two and a half years, is an impressive indication of the progress of mechanical and civil engineering since the Brooklyn bridge was opened to traffic, May 24, 1883. The latter required 13 1/2 years to erect, and to date has cost over \$22,000,000, of \$10,000,000 more than the prospective cost of the new Canadian giant.

The length of the river span of the Brooklyn bridge is 1,600 feet—200 feet less than that of the bridge at Quebec. Of the other bridges across the East river the Manhattan has a river span of 1,470 feet; the Williamsburg bridge has a span of 200 feet shorter than that over the St. Lawrence; the longest span of the Queensboro bridge is 1,200 feet.

Old Church as Garage.

Long Hill, Conn.—The old white First Methodist church building, steeped and all, for many years used as a place of worship and the first church built in the town of Trumbull, has given away to the progress of the times and garage. The edifice, which stands almost in the center of the village, has long been a landmark. The steeple will be retained, the galleries will be made into waiting rooms for women and the pulpit and platform show place for accessories.

The Difference.

European cities certainly have a laughing, contented air, people seem to take life easily, they have time for pleasures. It's only a chair hired for two cents on one of the broad, shaded boulevards to watch the crowds pass of a Sunday afternoon, says Orison Sweet Marden in Success Magazine. What smiling, care-free faces! One remembers with a shiver the faces in a New York crowd—grim, anxious, frowning, self-centered.

No doubt this atmosphere of joyousness, along with the external beauty and picturesque of European cities, has its attraction for our helms, but, of course, that alone would not make them live abroad and marry foreigners. There are other considerations which bring them to this important decision.

Mothers Will and Mrs. Winslow's Soothing Syrup

the best remedy for their children during the teething period.

In His Power.

"How effectively sweet" that Mrs. Blondest is to you, Jonesey," said Witherell. "What's up?" Any tender little romance there?" "No, indeed—why, that woman hates me," said Jonesey. "She doesn't show it," said Witherell. "No; but she knows I know how old she is—we were both born on the same day," said Jonesey, "and she's afraid I'll tell somebody."—Harper's Weekly.

AVOID LIQUID BLUING.

The reason so many housewives prefer RED CROSS BALL BLUE is because it is all blue. Liquid blue contains a large percentage of water. Why buy water when you have it by the tub full?

Buying solid RED CROSS BALL BLUE is real economy. Dissolve it as you need it. A large four-oz. pack, all blue, for 10c. Used in thousands of homes. FOR SALE AT ALL GROCERIES.

Pleasure of the Children.

There should be some time during the day, even in the busiest household, an hour at least, set apart in which the older members of the family should devote themselves wholly to the children. Little object lessons, stories containing practical knowledge, told in an interesting way will be sure to hold their attention. The story of the gradual formation of the fruits, flowers and vegetables will delight them and will be eagerly looked forward to and always remembered.

The Craze for the Weird.

The artistic craving today is for novelty—for new expressions of form and combinations of color, the more strange and weird the better; hence the passing fashion for post-impressionism and other kindred cults, in which neither truth nor beauty is the inspiring motive.—Connors.

SAVED FROM AN OPERATION

By Lydia E. Pinkham's Vegetable Compound

Peoria, Ill.—"I wish to let every one know what Lydia E. Pinkham's remedies have done for me. For two years I suffered. The doctor said I had tumors, and the only remedy was the surgeon's knife. My mother bought me Lydia E. Pinkham's Vegetable Compound, and today I am a healthy woman. For months I suffered from inflammation and your Sensitive Wash relieved me. Your Liver Pills have no equal as a cathartic. Any one wishing proof of what your medicines have done for me can get it from any druggist or by writing to me. You can use my testimonial in any way you wish, and I will be glad to answer letters."—Mrs. CHRISTINA REED, 106 Mound St., Peoria, Ill.

Another Operation Avoided.

New Orleans, La.—"For years I suffered from severe female troubles. Finally I was confined to my bed and the doctor said an operation was necessary. I gave Lydia E. Pinkham's Vegetable Compound a trial first, and was saved from an operation."—Mrs. LILY PEBROUX, 1111 Kerlere St., New Orleans, La.

The great volume of unsolicited testimonies constantly pouring in proves conclusively that Lydia E. Pinkham's Vegetable Compound is a remarkable remedy for those distressing feminine ills from which so many women suffer.

Whittemore's Shoe Polishes

Finest in Quality. Largest in Variety. They meet every requirement for cleaning and polishing shoes of all kinds and colors.

Aids Nature

The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bodies, weak lungs, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making materials, in condensed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering, obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves—in short establishes sound vigorous health.

If your dealer offers something "just as good," it is probably better FOR HIM—it pays better. But you are thinking of the cure not the profit, so there's nothing "just as good" for you. Say so.

Dr. Pierce's Common Sense Medical Adviser, in Plain English, or, Medicine Simplified, 1008 pages, over 700 illustrations, newly revised up-to-date Edition, paper-bound, sent for 21 one-cent stamps, to cover cost of mailing only. Cloth-bound, 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

GILLESPIE SCHOOL OF EXPRESSION

534 Morrison St., Portland, Oregon.

Two-year courses for teachers, readers and public speakers. Graduates after completing two years of post-graduate work, granted professional diplomas. Continuous classes from 9 to 10 p.m. five days a week, with either the principal or the assistants, afternoons and evenings.

EMMA W. GILLESPIE, Principal.

Canadian Heroine.

"Monument to Madeline de Vercheres to be erected at Vercheres—\$15,000." This item, which appears for the first time this year in the estimates of the public works department, marks the tardy recognition by Canada of one of the heroines of French Canadian history—the maid of fourteen who for one long week in 1693 defended her father's seignior against the attacks of hostile Iroquois. After two centuries the little heroine of the Castle Dangerous is to have her memory perpetuated by a bronze statue to be erected at Vercheres, P. Q., on the spot made memorable by her exploit.

Dr. Pierce's Pleasant Pellets first put up 40 years ago.

They regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules.

Y. M. C. A. EXPANDS.

New Booklet Just Out Can Be Had for the Asking.

The Portland Young Men's Christian Association is about to enter upon a new era in its work, in extending the advantages of its educational department to the entire state. While a great majority of the 1400 students enrolled in night and day classes are residents of Portland, yet a large and increasing number are now enrolling from towns and cities outside of Portland.

The different courses offered include a full Commercial course, comprising Shorthand, Bookkeeping and related subjects; a college preparatory course, a graded course in elementary subjects for boys and vocational courses such as plumbing, carpentry, sheet metal, bricklaying, electrical work, automobile repair and driving. Many students trained in these classes are now occupying important positions in the business houses of Portland.

An attractive booklet entitled "Activities" has just been issued by the association and contains a statement of all Educational Courses. The Educational Director will mail this booklet to all persons who desire it.

Classes for day school open September 5th, night classes September 25th. From present indications an unusually large registration is anticipated.

Deep Mines Don't Pay.

There is little or no ground for the belief that valuable metallic deposits lie very deep in the earth's crust. With few exceptions, ore deposits become too lean to repay working below 3,000 feet. Nine mines in ten, taking the world as a whole, are poorer in the second thousand feet than in the first thousand, and poorer yet in the third thousand than in the second.
