"ROPES" MAN FISH

BOSTON WHALER COMES TO PORT WITH WEIRD TALE.

Relates How an Enraged Dolphin Dragged Him Through the Water, After Pulling Him Off His Boat.

Boston, Mass.-John Haywood, able seaman and fisherman aboard the schooner Massasoit, which reached T wharf the other day, declared that he had undergone the very worst ex-perience at sea with which he had ever met in all his years before the mast, or that he had ever heard of. He was dragged through the sea at a furious rate of speed by an enraged dolphin, narrowly escaping death at the tall of the monster.

In relating this very unusual adventure of the deep, Haywood said: "We had been out a matter of two Vegetable Compound and Blood Purifier I can say I am a well woman. I can't find words to express my thanks for the good your medicine has done me. You maypublish this if you wish."

ASKS FOR A COURTSHIP ROOM

Pastor Would Establish Place for Boys to Woo and Girls to Be Wooed.

Hoboken, N. J .- The Rev. Joseph D. Peters, pastor of the First Reformed church of this place, suggests that a large public room be established and put in charge of a matron, so young ersons may make love in it. In the pastor's opinion, most of the young men and women in a big city bave no suitable place in which to woo and be wooed, and if such a place is provided, with restrictions, he is of the opinion the number of divorces will be

lessened to a great degree. "The need of a proper place for courtship," said the pastor, "has been responsible for many disastrous marriages, I believe, and if such a place would be provided, in charge of a matron who would be a sympathizer with heart affairs of the young, it would do wonders toward shaping a courtship to a glorious end.

"There are so many young persons who have no place in which to make love. Many wooers and wooed never learn to know each other as they should before matrimony. Many think fascination is love because they have not had a sufficient opportunity to understand what real love is."

Uncle Sam's Restaurant.

If you visit the Isthmus of Panama you will eat at a government table.

Not content with managing the transportation, not satisfied with being a landlord, the Ishmian Canal commission has become a restaurant

keeper, waiter and cook. Here is a statement of the length to which this heretical tendency has been carried.

The cost of running the messes for "gold," European and negro employes during the six months ending December 31, 1909, was over \$700,000, and the receipts and expenditures practically balanced.

It is an eloquent tribute to the gov-ernment's cuisine that 3,375 of the 4,-800 European laborers-who are free to eat where they will—prefer the mess-halls to anything which "indi-vidual initiative" has to offer. There are three "club" messes run by unmarried white men in opposition to the commission hotels. Perhaps a hundred canal employes use them.
But in spite of the large income from
the "bar" these private messes are
more expensive and very little better

than the government's meals. No private contractor in the world standing with the lily from in the pulpit waiting for a chance at a swordfish.

Corporations Belong to Public. Governor Wilson, in his Indianapolis address, made most emphatic the point that the corporations have none of the rights of private individuals and must be treated solely as the pub-lic welfare demands:

"A modern joint stock corporation

cannot in any proper sense be said to base its rights and powers upon the principles of private property. Its powers are wholly derived from legislation. It possesses them for the conof the public. Its stock is widely owned, passes from hand to hand, brings multitudes of men into its shifting partnerships and connects it with the interests and the investments of whole communities. It is a segment of the public; bears no analogy to a partnership or to the processes by which private property is safeguarded and managed, and should not be suf-fered to afford any covert whatever to those who are managing it. Its man-agement is of public and general concern, is in a very proper sense every-body's business.—Success Magazine.
