## COAT OF ARMS WAS WANTED

Englishman Assisted Out of Dilemma by Official of Heralds' College-His One Achievement.

An Englishman applied to the Heralds' college for a coat of arms. In such a case it is pleasant to be able to borrow one from a celebrated ancestor. The man in question could not remember anything about his great-grandparents, and therefore, could not mention any achievement by them which could be used as the basis of a coat of arms. But the official to whom he applied was not easily discouraged.

"Have you not done something yourself?" he asked.

"Nothing, I fear," said the man, adding as a pathetic antithesis that once, having been locked in Ludgate prison for debt, he had found means to escape from an upper window. "And how did you get down?"

"I got a cord, fixed it around the neck of King Lud's statue, and let myself down." "Just the thing. There you have it
