## Preferred Stock Canned Goods

Are Packed Wherever the Best are Grown

That is the secret of their exquisite Flavor. Preferred Stock Pineapple, for instance, is grown, ripened and canned all under the sunny skies of Hawaii. Pineapples brought to this country and then canned must be picked before fully ripe or they won't keep—and the flavor is flat.

Hawaiian Pineapple is the best special cutters operated by bright, tidy Hawaiian girls. Every morning, the ones ripened to their "spicy best" are gathered, taken into the cannery, packed into Preferred Stock cans—just the best close at hand, peeled and cored by part of each pineapple.
