Weston Leader: A few days ago Allan Garnett killed a rattlesnake at the A. Phillips place in the foothills two miles from town. He paid \$113 for picking and \$49.73 for crates, a total of \$162.62. This deducted leaves net returns of \$291.28, or a little better than \$150 an acre.

The Leader reports an expenditure of \$5000 for improvements in the telephone system at Weston. The service is greatly improved by the installation of a 3000 foot cable which protects the wires from trees and the annoyances caused thereby. The Press man will give the colored a plug of Climax for the recipe that will bring about a like improvement of the company's system in Athena. Over here the company is given right of way over the principal streets, given patronage that justifies the employment of three operators, given carte blanche to cut and mutilate shade trees at its own sweet will, string wires from house tops or any other old place, and the company grabs this and all it can beside; yet it gives promises instead of cables to Athena.
