The Spirella corset stay is unbreakable non-rustable, retains its shape, is flexible in every direction, is hygienic, sanitary. The average corset, boned with stiff, flat, unyielding stays, covers nearly one-third of the body with solid metal and prevents a full circulation of air to the body. Spirella stays are open, thoroughly ventilative, allow the air to pass through and circulate freely, insure coolness, are light and healthful. Spirella corsets can be laundered without removing the stays. Orders taken by Mrs. B. D. Tharp, authorized corsetiere for Athena, Adams and Helix districts.
