It is apparent that if the ordinance prohibiting automobiles from speeding more than 15 miles per hour in the city limits is to be enforced, a gatling gun with a man behind it should

be installed alongside the signs proclaiming the speed limit. During the Roundup automobiles ran through town over 30 miles an hour, and there are some local machines that have the habit of shodding around 20 and 25 miles an hour along Main street.

A bilious attack the past two days has caused a slight setback to her recovery, but altogether her condition is very favorable. Attending physicians in Portland pronounced her trouble the probable result of ptomaine poisoning, but none seemed to be positive on the subject. A stunt that would have appealed to the crowds at the Roundup, could it have been staged, was enacted by Postmaster Worthington and a pack horse on a recent hunting trip. The horse was loaded with bear meat, and Mr. Worthington having handled the bear hide emitted an odor that the outfit did not fancy. The P. M. had hold of the halter strap and the pack horse proceeded to descend the mountain backward, pulling the man with him. Faster and faster rolled and tumbled the horse and finally Mr. Worthington took a flying leap down the mountain side, ending his pace in a clump of bushes. The horse tumbled two complete somersaults in its descent down the precipitous side of the mountain.

One of the strongest objections offered by physicians against corsets is that they prevent free movement of the body. The stiff, rigid corset stay of commerce compresses the organs of the body, prevents free movement of the muscles, induces disease. Were one's arm placed in a cast for six weeks, upon being released it could not be used. The effect of the rigid, unyielding corset stay on the muscles of the body is very similar. The Spirella is different. Why? Spirella is a perfect spring, bends in every direction, is flexible. Every muscle, every organ has full play. Physicians endorse them. Mrs. B. D. Sharp, authorized agent for Athena, Adams and Helix. At home to customers Tuesdays and Fridays.

No Juggling Prices

Continues with vim and vigor

We are talking to you

No Inflated Values

Several things must be considered before you decide where to buy Ladies' fall and winter garments and dry goods. Economy is of course the main thing, but economy should not be sought at the expense of quality. A good all-wool up-to-date garment is worth more than the shoddy or inferior kind. If you have been disappointed in the past it will be well for you to consider these points before spending your money. While low prices are an essential factor to all purchases, especially during a sale, we desire to remind you that quality should receive just as much if not more consideration. Trash is dear at any price; you do not want it. Shop-worn garments can be bought at any time and almost anywhere for a song. Fix & Radtke now offer you the very best just at the time you need them, at prices that will appeal to the better judgment of every woman and girl who wants good things. The red Price Tags will tell you all about the wonderful saying opportunities of this Forced Cash Raising Sale.

Catch-penny schemes and gold brick methods are never used or tolerated at FIX & RADTKE'S and will not be used now. We sell goods strictly on their merits, that they will give you more wear and service than ordinary merchandise bought at ordinary shops; "Quality" is always remembered long after the "Price" is forgotten.

**YOU'LL NEVER SCRATCH IN MUNSINGWEAR**

**Wear Them-You Will Like Them**  
**MUNSING UNION SUITS**  
Give Complete Satisfaction

Somehow, a few persons are even today prejudiced against union suits. Either they have worn suits of inferior grade and were disappointed or prefer two-piece garments, not knowing the supreme comfort of a properly made union suit

In either case they have not worn MUNSING UNION SUITS. No one should allow himself to be influenced against union suits until he has worn Munsingwear. After that, nothing could induce one to change back to any other make.

*A Molly Munsing Doll Cutout free with every purchase, while they last.*

Munsing Union Suits are so thoroughly satisfactory because there's no slipping nor sliding to them—they always stay in place. They can't ride up nor slip down. They are shaped so as not to bind anywhere, yet fit perfectly in every part. The web is very elastic and yields freely to any motion. As to washing, a Munsing Fit never washes out. In fact, each tubbing, if properly done, only serves to improve the fit and appearance of the garment. Being carefully knit of soft fine grade yarns, they cannot irritate even a supersensitive skin. You'll never scratch in Munsingwear.
