Longevity in French Villages.

A remarkable record of longevity is to be found in some of the rural parishes of France. In the village of St. Thomas de la Fliche there have been only fourteen parish priests in three hundred years, the fourteenth being still in possession. The parish of St. Germain du Val, in Paris, has had only three pastors in one hundred years, while that of Givry en Argonne has had but five in 130 years.

By a queer trick of politics an innorant and pompous old darky was lected judge of a minor court in a certain western state.
