His brother, George, who has heretofore helped farm the Rosenzweig land, has taken a position as traveling salesman for a machinery firm of Chicago.

Weston Leader: During a recent trip east after a bride, J. M. Ashworth stopped in Colorado and inspected many irrigation enterprises. Nearly every stream, he says, has its dam and reservoir, and in localities of powhere near Weston's advantages land is sold at \$500 or more per acre. Comparison led him to greatly regret the loss of the Weston irrigation project, as he became more than ever convinced that it would have been entirely feasible and successful. He regards this country as superior in climate, soil and natural advantages to any agricultural district he saw in the east, and irrigation, he says, would have been its crowning glory.

Is There a Young Man in This Vicinity

Who is not Interested in Fall Clothes

We believe interest in correct dress is just as much a phase of character as any other good trait.

It is a matter of business and social necessity for the young man who wants to get along; and what is true of the younger is true of the elder.

For the man who wants to make his clothes money count for the limit, we suggest seeing our

B & H Green Trading Stamps with all Cash purchases

How we Reduced the Cost of Living

for Hundreds of Persons and How we can Reduce yours by 5 per cent

During the past seven years this big store has given the only old and reliable T. W. P. trading stamps, with every cash or thirty day sale.

In that time there has been distributed from our premium department something like \$35,000 worth of choice Merchandise, which cost the recipients absolutely nothing.

If the purchaser had to pay a higher price to get these stamps, there would be nothing in them. The point of importance is, the purchaser does not pay higher, in fact our prices are materially less than those charged in other stores. So the purchaser gets a double advantage—First: The advantage of lowest prices with a larger and better assortment of goods from which to choose,—Second: The advantage of T. W. P. trading stamps.

There is really nothing miraculous about the fact that we can give both lower prices and trading stamps—the explanation is perfectly reasonable and simple—giving T. W. P. trading stamps attracts very large numbers of purchasers and materially increases our volume of sales. Larger volume of sales gives us a larger purchasing power. Large purchasing power, as everybody understands, enables us to buy cheaper. By buying cheaper we can sell cheaper. Thus the stamp in a sense pays for itself by the volume of trade it brings.
