Infant Dies at a City Hospital, and Mother Claims That She Was Not Notified of Its Demise-Undertaker Makes Discovery.

St. Louis, Mo.—The mutilated body of their four-months-old son, Joseph, wrapped in a rag with a dead Angora goat, was recovered the other day by Mr. and Mrs. Stanislaus Maggos, 2008 Cass avenue. The parents at the time were on their way to the grave in potter's field, following the child's death at the City hospital.

Only the front of the skull, the arms and the chest of the infant were contained in the box, in which they and the goat were to have been burled together. The rest of the child's body had been cut away in an autopsy held in the morgue at the City hospital. The lower part of the body had been kept at the hospital for anatomical study.

Crazed with horror and grief at the fate of her only child, the distracted mother, Rosa, 30 years old, **BOYS ON A STOCK EXCHANGE** told the tale of her infant son's fate. Being in poor financial circum-stances, and with a husband out of Amsterdam Youths' Privilege for Diswork, the woman has been forced, al- are those who employ the following be written on a slip of paper and put though paralyzed in her left arm and rules: Plant early, use plenty of ma- in the bag with the shelled seed.
