Pigeon Descended Chimney.
When a resident in the London road, Reading, England, came downstairs recently, he found perched on the top bar of the grate in the drawing-room a pigeon which had come down the chimney. It had brought with it a considerable quantity of soot. When the occupier opened the windows the pigeon made its escape.

Food Kept Warm.
A flatiron stand will be found useful on the range to keep the contents of a saucepan warm without danger of burning, says the Indianapolis News. It is also useful when one desires food to simmer; there is then no fear of sticking or burning on a hot stove.

His Change in Belief.
"Do you believe that all men are created equal?" "I used to before I was married." "And now?" "Now I find that I can't begin to compare with other women's husbands."—Detroit Free Press.

Pity.
A girl who has a steady beau feels the same kind of pity for the girl who sits alone night after night that the boy who can dive has for the one who is afraid to wade in "above his knees."

C. Gee Wo
THE CHINESE DOCTOR

Both the American and the Chinese physicians use medicines made from plants and herbs. But the Chinese have extended their researches and use Roots, Herbs and Bark that have never been heard of in this country. And with these harmless and non-injurious remedies Dr. C. Gee Wo has cured hundreds of patients of all sorts of diseases and who had previously been taking the medicines prescribed by well known American physicians. He has testimonials from patients all over the northwest as to the fine results he obtained with the use of these nature remedies. Should you live out of town and wish to begin treatment, send 4 cents in stamps for a consultation blank and circulars.

NEAT BARN FOR SMALL FARM
Driveway Makes Convenient Storage for Wagons and Other Implements—Warm in Winter.

This barn should be built for \$450, especially where a man is so situated he can do most of the teaming at odd times. In size, it is 34 by 28 feet, and

the driveway during the greater part of the year makes a convenient storage for wagons and farm implements. As the distance is not too great to back out with an empty wagon, there are doors at only one end of the driveway. This should make the barn warmer in winter, writes W. A. Radford in the Farmer's Mail and

PROPER FEED FOR THE COLT
Something More Than Mere Filling Is Required by Young Animal—Don't Use the Whip.

(By MAY PEINTEBER.)
A young and growing animal requires something more than mere filling. It must have nutritious and disease-building, blood-making food. It is much easier and cheaper to put two years' growth on a colt the first year of its age than it is to "make up" for a year's loss of growth in two or three years. A good growth the first year of a colt's life costs less than at any other age and is twice as valuable to the breeder—a fact that is too often ignored. Spare the feed and spoil the colt is surely true. In training the colt do not use the whip simply because you have it. It is a very poor driver who makes a blow the starting signal. See that there is feed and water in abundance and a clean, dry bed.

Don't neglect the shoeing; it is vital on slippery roads or pavements; nor the blanket in cold weather, when the colt is standing out. Don't overload nor let the colt stand in the sun, nor where water drops on him. We believe that down in the heart of every man is some kindness and sense of justice.

To Avoid the Runty Pig.
Runty pigs stand a poor show at the feeding trough with a bunch of their husky brothers and sisters. As they are crowded out of place naturally they do not get enough to eat to keep them growing and they stay runty.

A trough arranged with V-shaped partitions set strongly in the trough, would give the little fellows an equal show with the big ones, and the weaker ones could get their share of food. A handy man can make such a trough arrangement in an hour or so, and the even growth of his pigs would more than pay for his trouble.

Breaking the Colt.
The earlier the colt is made used to the harness, the better broken the animal will be when it comes time for him to do some light work. It is easier to keep colts from learning bad tricks than to break them of such habits. For that reason have every strap and rope used by the colts so strong that there is no danger of a break. Once a colt finds out that he can get away from a halter or other parts of the harness there will be trouble, perhaps for all time.

Lambs and Parasites.
The greatest loss of lambs is due to tape, stomach and lung worms, and these parasites are always most numerous in old pastures; the proper plan is to frequently shift pastures. When they are attacked there are numerous remedies, but one of the simplest and best is two tablespoonfuls gasoline in four ounces of sweet milk, used as a drench twice about three days apart. Care must be taken to avoid strangling.

Prime Bacon.
Prime bacon is really more credit to the producer than is lard alone. It is also true that the best bacon brings good prices, costs less to bring to fitness, and can be made a great staple if we work for it.

Vetches for Sheep.
The vetches make excellent fodder for sheep either as a sowing crop or as sward hay. They may also be pastured by sheep, but this is a wasteful practice, as much of the crop is destroyed by tramping.

Cough, Cold Sore Throat
Sloan's Liniment gives quick relief for cough, cold, hoarseness, sore throat, croup, asthma, hay fever and bronchitis.

HERE'S PROOF.
MR. ALBERT V. FROST, of Fredonia, Kan., writes: "We use Sloan's Liniment in the family and find it an excellent relief for colds and hay fever attacks. It stops coughing and sneezing almost instantly."

SLOAN'S LINIMENT
RELIEVED SORE THROAT.
Mrs. L. REWEN, of Modesto, Pa., writes: "I bought one bottle of your Liniment and it did me all the good in the world. My throat was very sore, and it cured me of my trouble."

GOOD FOR COUGHS AND CROUP.
MR. W. H. STANBRO, 3721 Elmwood Avenue, Chicago, Ill., writes: "A little boy next door had croup. I gave the mother Sloan's Liniment to try. She gave him three drops on sugar before going to bed, and he got up without the croup in the morning, and it cured me of my trouble."

Make Little of Life's Ills.
To be poor is not always pleasant, but worse things than that happen at sea. Small shoes are apt to pinch but not if you have a small foot; if we have little means it will be well to have little desires. Poverty is no shame, but being discontented with it is.—Charles H. Spurgeon.

Unfortunate English.
The general impression that the Englishman's life is rather prosy is supported by the statement of a Londoner who visited at Clay Court. He said he never had tasted fried chicken or strawberry shortcake, the two being unknown to the culinary art in his country.—Kansas City Star.

Apology.
Conjuror—"Now, sir, you admit that the card you have just taken out of the handkerchief is the queen of clubs, yet the card you chose and securely tied there—namely, the ace of spades—I now produce from this hat." "Timid Volunteer—"So sorry—my mistake."—Punch.

The Current Craze.
"A great many old plays are being fitted out with alleged melodies and sent out as operettas." "That's right, but they're going too far. I know of one actress who is going to star in a musical version of the multiplication table."

Somewhat Contradictory.
In America, says the Louisville Courier-Journal, a school teacher works, on the average, for about half as much as a bricklayer, and has to tell the boys that education is a necessity if they would get on in life.

From His Point of View.
"Stop that! Hands off! How do you know I'm the passenger that stepped on your foot?" "I don't know it absolutely, but (biff) I'm giving you (biff) the benefit of the (biff) bang!"

The Average Man.
The average man will hurry to a veterinarian when his pet dog gets sick, but he is willing to rely on almost any kind of "dope" when he isn't feeling well himself.

All Have a Duty.
Every man or woman is one of mankind's dear possessions; to his or her best brain, and kind heart and active hands, mankind intrusts some of its hopes for the future.—Robert Louis Stevenson.

Where She Went.
"Mater (at the Alpine resort)—"We're back again, count; we've had a splendid day; we've been up the mountain, you know. Count—Ah, you English mothers, you are always as young as your daughters. Mater—You flatter me; it was only my girls who climbed. I went up in the veranda."—Punch.

For the Hair
Are you so fortunate as to be well satisfied with your hair? Is it long enough, thick enough, rich enough? And your hair does not fall out? Well, well, that is good. But you may know of some not so fortunate. Then just tell them about Ayer's Hair Vigor. They will surely thank you after using it, if not before. Remember, it does not color the hair. Show the list of ingredients to your doctor. Let him decide their value. He knows.

My Goodness!

"Ma said Papa was all cut up." Cried Alice. "hence this tear." For really that's the saddest news. I've heard for many a year!"

MOTHER'S SHARE OF SALARY
Youth Illustrates Absolute Necessity for Her Services, But No Money Value on Work.

A man chanced to meet a certain boy who was unduly proud of the fact that he was earning regular wages and supporting himself. He entered into a conversation with the boy, which ran something like this:

"Yes," said the boy, "I make \$3 a week; Mary is in the store and she earns \$5; I don't know how much father earns; and Ted and Jim, they don't earn anything—they just go to school."

"And do you board at home?" asked the man.
"Oh, yes; we eat breakfast and supper there, and mother puts up our dinners for us."

"Yes," see; who gets the breakfast and does the cooking?"
"Mother."
"Who washes for you?"
"She does."
"Do you keep a girl?"
"No, we don't need one. Besides, we couldn't afford one, anyhow."
"Does your mother do all the work for the whole family?"
"Why, yes, of course."
"Does she sew and mend for all of you, too?"

"Why, I should say she did. We never hire help for anything."
"You say you get \$3 every week and Mary \$5. What does your mother get?"
"Mother! Why she don't work; she just stays at home; she don't get anything."
"The mother's services were evidently necessary, but no money value was placed upon her work. It was taken as a matter of course that she should be a cook, nurse, sewer and be a regular Jack of all trades and good at all. The woman has a great, God-given responsibility, when the health of a family is placed in her hands."

KEEP BIRDS FROM RECORDER
Instrument Used on Isle of Wight to Measure Duration of Sun Obscured by Flocks of Crows.

The United Kingdom enjoys so comparatively few sunny days that every hour of sunshine during the year is cherished. A sunshine recorder is maintained on the Isle of Wight.

To Keep Crows Away.
which is one of the sunniest places in the British Isles, but it appears that the crows have been interfering with it, says the Pathfinder. They gather about it in such flocks and use it for a perch so much that they shade the sensitive instruments and thus make them register cloudy weather when it is really sunny. So a scarecrow has been erected to keep them away, and it is reported to be a success.

Ages of Fish.
Fishes and animals that live in the water in many instances attain to a great age.

The carp has been known to live 200 years.
Common river trout have been confined in a well for 50 years and were still frisky when taken from the water.

The age of the whale is ascertained by the size and number of whalebones in its mouth. Records show that this sea animal has retained life for 400 years.

In 1497 an enormous pike was caught in a lake near Hallerum, in Swabia, with a brass ring attached to it, engraved on which was a statement that the fish was put in the lake in the year 1230, thus indicating that it must have lived at least 267 years.

Time Saved.
In a large family, where there are many children, much loss of time and annoyance is saved if, before putting stockings into the wash each week, each person will tack the two stockings of each pair at the hema, says *Scholarship Life*. There is no trouble in trying to mate them afterward, as each person may use a different colored thread.

No Good Thing is Ever Lost.
Remember that truth, the most important and encouraging of all truths. Your life may not seem worth while, the sacrifices that you make for others may not seem worth while. But no good thing is ever lost. And he who does his duty contributes forever to the sum total of that which is good in the universe.

Real Test.
There is something finer than to do right against inclination, and that is to have an inclination to do right. There is something nobler than reluctant obedience, and that is joyful obedience. The rank of virtue is not measured by its disagreeableness, but by its sweetness to the heart that loves it. The real test of character is joy. For what you rejoice in, that you love. And what you love, that you are like.—Henry van Dyke.

Should Have Been Prepared.
Old Father Epicuremus, the philosopher, has just sent us a telegram stating that "some men's idea of earning a living is just answering a dinner bell." We should have welcomed the communication had the old gentleman not sent his message collect.—Judge.

Quite Another Thing.
"What makes you so sleepy today, old man?" "I was up at 4 this morning." "Come off! You never got up at 4 in your life." "I didn't say I got up; I said I was up."—Boston Evening Transcript.

Pettit's Eye Salve MAKES SURE EYES WELL
Accentuating Plant Characters.
It has been found that under red light (light through red glass) plants become more robust than in any other. They also become more pronounced in their chief characters—the leafy plant becomes more leafy, all shades of green become more pronounced, the sensitive plant more sensitive and all in every way become highly specialized.

Watch Built in a Pearl.
A tiny watch, which has been made inside a pearl as large as a big pea, has just been constructed by Gallop & Co. of Geneva. The empty pearl weighed forty-five grains and in diameter is less than an inch. This pearl watch can be worn on a ring or as a pendant and cost \$5,000.

Be thrifty on little things like bluing. Don't use castor oil for bluing. Pettit's Blue, the extra good value blue.

Home Happiness.
Probably nineteen-twentieths of the happiness you will ever have, you will get at home. The independence that comes to a man when his work is over, and the feeling that he has run out of the storm into the quiet harbor of home, where he can rest in peace and with his family, is something real.

Poetry at the Bottom of the Mug.
"He will work," said a Tottenham (Eng.) constable of a defendant, "if he knows there is a pint of beer at the end of the job." This must have been very much the sort of thing Tennyson had in mind when he wrote "Follow the gleam."

As a Precaution.
Get a dozen tiny bells, and every time a bottle of poison is brought into the house tie a bell to the neck. Even in the dark the bell will tinkle its warning.

First United States Stocking Factory.
The first United States stocking factory was set up at Cohoes, New York, in 1832. The machine for knitting was the invention of Lee, an Englishman, who took out a patent in 1828. The Lee machine was introduced in the Colonies during the Revolution, but a sharp Yankee improved on it, and set up the first factory at Cohoes.
