Dustpans are made today with long handles. It would be just as absurd to sweep the floor with a whisk broom as it would be to use a short handled dustpan. In using the old-fashioned many times to get up all the dirt, making it twice as hard.

The broom is very cumbersome to healthy dust and everything is wrong. Use a long handled dustpan, stand erect. The dirt can be swept into it just as neatly and with twice as much comfort and saving of energy.

The same holds good in washing dishes. Many women put the drainer on the left of the dishpan, necessitating the wasted motion of reaching across the pan to place the washed dishes to drain.

The catural motion is simply to pass the washed dishes to the right.
