ATHENA, ORE., JUNE 13 1913

One of the charges against the German armament manufacturers is that they spent large sums of money in France stirring up an anti-Tentonic propogauda. This keeps business moving in the fatherland and was looked on in the light of legitimate commercial promotion. Sporting gentlemen who induce roosters and dogs to fight are arrested, fined and sometimes looked in jail. That is as it should be. But what will the civilized world say of the big business that secretly induces two great nations to hate each other, perhaps engage in a war that may well nigh wreck civilization? Here greed seems to have reached its limit. But the promoter of dog fights goes to jail and the pro moter of man fights enjoys honors. prestige and fame.

McManus says in the Pilot Rock Record: "An ex-minister of the gospel has made, according to his own statement, over \$15,000 engineering a newspaper in this county, his success being due to printing the 'news.' When he first commenced his wonderfol career as the editor of a measly weekly in a town with the suggestive name of Free Water, he did not know the difference between a "stickful" of type and a "shooting stick." But he succeeded, his subscribers remaining in ignorance as to the little he knew about the art of all arts. Now that he has cleaned up fifteen thousand plunks he makes full confession as to how he buncoed his readers. We do not doubt the veracity of the editor of the agus pura town, but we feel concellar of high-proof stuff, that Col. Boyd and the Pendletcn editors should lose no time in duplicating."

France, Italy and Spain have within two months renewed their arbitration treaties with the United States for a period of five years; and on the 31st the American Secretary of State, Mr. Bryan, and the British ambassador, Sir Cecil Spring-Rice signed a renewal for five years of the general arbitration treaty between the United States and Great Britain. Other special treaties which the President has expressed willingness to renew, expire in the following order: Norway, June 24; Sweden, August 18; Japan, August 24; Portugal, November 14; and Switzerland, December 23. The treaty with Mexico will expire June 27.

The Canyon City Eagle calls attention to the only girl who attended school at Izee, in Grant county the past year. The Eagle says: In the school at Izee which closed last week is a little girl who has a record which would be Lard to beat. The girl's name is Sarah Mosier. She is 8 years of age and her parents are Mr. and Mrs. Fred Mosier. She was the only girl member of the school and every day for nine months, with the exception of four days, this little maiden rode her pony a distance of 10 miles to school.

The most successful horse show ever ! Id in Umatilla county is reported to be taking place in Milton today. e stock exhibition is classy, 30 silver cups being awarded as prizes to the competitors. The strawberry festival is a pleasant feature, which the crowds are enjoying. Milton's strawberry day and horse show affords n annual day of pleasure to many) andreds of Umatilla and Walla Walla county people.

A little girl wrote the following composition on men: Men are what women marry. They drink and smoke and sware, but don't go to church. Perhaps if they wore bonnets they would. They are more logical than women, and also more zoological. Both men and women sprung from monkeys, but the women sprung further than men."

The Caledoniaus, the Farmers and the Pioneers have had their reunions and pienies, and today witnesses Milton's horse show and Strawberry day. Next we will pull a few eagle feathers on Independence Day, then wait for the Round-up.

FABULOUS TABLE ANIMALS.

Such as Welsh Rabbit, Scotch Wood

cock and Mock Crab. When one comes to think of it, it is surprising how many fabulous animals come regularly to the dinner table or supper table.

Among them, of course, the most familiar is the Welsh rabbit, which in its original form was merely toasted cheese. Some folks declare that the name is a corruption of "rarebit." but this has never been proved.

Then there is the golden buck, which is a Welsh rabbit with a poached egg on top. Chinese rabbit is a Welsh rabbit with rice in it, and a Mexican rab-(otherwise known as a Spanish thit) contains tomatoes and onions.

So much for rabbits. But how many

people are familiar with the Cape Cod turkey? Plenty in New England, where codfish goes under that name. Scotch woodcock is two slices of hot buttered toast, with an anchovy on each slice and a sauce made of half a

pint of milk and the yolks of three eggs poured over them Less familiar perhaps is English monkey, which is made by soaking a cupful of breadcrumbs in a cupful of milk and adding a tablespoonful of melted butter, a benten egg and half a cupful of grated cheese, the whole, with salt and pepper added, being

poured over toasted crackers. The mock turtle is one of the familiar of fabulous table animals, being served in the form of soup. In "Alice's Adventures In Wonderland" will be found a striking picture of this remarkable reptile, represented with the body of a turtle and the head of a

Mock duck is a roll of chopped meat and breadcrumbs baked. Mock crab is made by mixing equal parts of grated cheese and butter, seasoning with salt, pepper and vinegar and adding a few drops of anchovy sauce. The paste thus prepared is spread on slices of dry toast or sometimes served in

Last, but not least remarkable, of these mythological animals, known only to the kitchen naturalist, is the corn oyster, which is a small fritter of green corn fried like a real oyster .-New York American.

GOLD NUGGETS.

There Is a Curious Resemblance Be-

tween Them and Meteorites. How do nuggets of gold originate? Sometimes a mass of the precious metal worth a thousand dollars or more is found. By what process was so much gold compacted into a lump?

An attempt was made not long ago to answer this question. An investigator in Australia cut and sliced and polished gold nuggets with the sole purpose of finding out just what is their structure. The first thing he discovered was that there is one curious point of resemblance between gold nuggets and meteorites. Both, when polished and etched with chlorine water, exhibit a crystalline structure. In the case of meteorites the lines thus exhibited on the etched surface are called Widmannstattian figures, and their presence is said to be one of the most invariable characteristics of those metallic bodies that fall from the sky

to the earth But it is not meant to be implied that gold nuggets have fallen from the sky because they exhibit a crystalline structure recalling that of meteorites. The resemblance is apparently only superficial, and the crystals of the nuggets differ in form from those of the me

Another curious fact is that when a nugget is heated in a Bunsen flame explosions take place on its surface. Blis ters are formed which continue to swell until they burst with a sharp report and bits of gold are violently senttered about. It is evident that the nuggets contain either gases or some liquids or solids which are easily converted into the gaseous form, the expan sion of which produces the explosions. -Harper's Weekly.

Lion For Dinner.

On Christmas, 1874, a curious dinner took place in Paris. Some score of contributors and draftsmen of the Chasse lilustree dined at Magny's restaurant under the presidency of M. Firmin Didot, the publisher, to taste the ham and heart of the last flon killed in Algeria by Constance Cheret. The flesh was found to be particularly firm and close grained, like that of a horse, but nevertheless quite palatable The ham was preferred to the heart, which, although skillfully prepared with trufdes, was pronounced somewhat tough and difficult of digestion.
